

978046432

HOUSE BILL NO. 2062

Offered January 14, 1997

A BILL to amend the Code of Virginia by adding a section numbered 38.2-4312.3, relating to health maintenance organizations; access to emergency services.

Patron—Robinson

Referred to Committee on Corporations, Insurance and Banking

Be it enacted by the General Assembly of Virginia:**1. That the Code of Virginia is amended by adding a section numbered 38.2-4312.3 as follows:****§ 38.2-4312.3. Patient access to emergency services.**

A. A health maintenance organization shall have a system to provide to its members, on a twenty-four-hour basis: (i) access to medical care or (ii) access by telephone to a physician or qualified health care professional with appropriate medical training who can refer or direct a member for prompt medical care in cases where there is an immediate, urgent need or medical emergency. Access to a nonmedical professional who provides appropriate responses to calls from members and providers concerning after-hours care and covered benefits is not sufficient to meet the requirements of this section.

B. A health maintenance organization shall reimburse a hospital emergency facility and provider, less any applicable copayments, deductibles, or co-insurance, for medical screening and stabilization services rendered to meet the requirements of the Federal Emergency Medical Treatment and Active Labor Act (42 U.S.C. § 1395 dd) and related to the condition for which the member presented in the hospital emergency facility if (i) the health maintenance organization or its designee or the member's primary care physician or its designee authorized, directed, or referred a member to use the hospital emergency facility; or (ii) the health maintenance organization fails to have a system for provision of twenty-four-hour access in accordance with section A above. For purposes of (i) above, a primary care physician may include a physician with whom the primary care physician has made arrangements for on-call backup coverage.

C. A health maintenance organization shall provide to its members a description of procedures to be followed for emergency services, including: (i) the appropriate use of hospital emergency facilities; (ii) the appropriate use of any urgent care facilities with which a health maintenance organization may contract; (iii) the potential responsibility of the member for payment for nonemergency services rendered in a hospital emergency facility; and (iv) a member's covered benefits pursuant to the prudent layperson definition of emergency services in § 38.2-4300.
