HOUSE BILL NO. 2416

AMENDMENT IN THE NATURE OF A SUBSTITUTE

(Proposed by the House Committee on Health, Welfare and Institutions
on February 1, 1997)

(Patrons Prior to Substitute—Delegates Albo and McDonnell [HB 2772])

A BILL to amend and reenact § 32.1-45.1 of the Code of Virginia, relating to deemed consent to testing and release of test results related to infection with human immunodeficiency virus or hepatitis B or C viruses.

Be it enacted by the General Assembly of Virginia:

1. That § 32.1-45.1 of the Code of Virginia is amended and reenacted as follows:

§ 32.1-45.1. Deemed consent to testing and release of test results related to infection with human immunodeficiency virus or hepatitis B or C viruses.

A. Whenever any health care provider, or any person employed by or under the direction and control of a health care provider, is directly exposed to body fluids of a patient in a manner which may, according to the then current guidelines of the Centers for Disease Control, transmit human immunodeficiency virus or hepatitis B or C viruses, the patient whose body fluids were involved in the exposure shall be deemed to have consented to testing for infection with human immunodeficiency virus or hepatitis B or C viruses. Such patient shall also be deemed to have consented to the release of such test results to the person who was exposed. In other than emergency situations, it shall be the responsibility of the health care provider to inform patients of this provision prior to providing them with health care services which create a risk of such exposure.

B. Whenever any patient is directly exposed to body fluids of a health care provider, or of any person employed by or under the direction and control of a health care provider, in a manner which may, according to the then current guidelines of the Centers for Disease Control, transmit human immunodeficiency virus or hepatitis B or C viruses, the person whose body fluids were involved in the exposure shall be deemed to have consented to testing for infection with human immunodeficiency virus or hepatitis B or C viruses. Such person shall also be deemed to have consented to the release of such test results to the patient who was exposed.

C. For the purposes of this section, "health care provider" means any person, facility or agency licensed or certified to provide care or treatment by the Department of Health, Department of Mental Health, Mental Retardation and Substance Abuse Services, Department of Rehabilitative Services, or the Department of Social Services, any person licensed or certified by a health regulatory board within the Department of Health Professions except for the Boards of Funeral Directors and Embalmers and Veterinary Medicine or any personal care agency contracting with the Department of Medical Assistance Services.

D. "Health care provider," as defined in subsection C of this section, shall be deemed to include any person who renders emergency care or assistance, without compensation and in good faith, at the scene of an accident, fire, or any life-threatening emergency, or while en route therefrom to any hospital, medical clinic or doctor's office during the period while rendering such emergency care or assistance. The Department of Health shall provide appropriate counseling and opportunity for face-to-face disclosure of any test results to any such person.

E. Whenever any law-enforcement officer is directly exposed to body fluids of a person in a manner which may, according to the then current guidelines of the Centers for Disease Control, transmit human immunodeficiency virus or hepatitis B or C viruses, the person whose body fluids were involved in the exposure shall be deemed to have consented to testing for infection with human immunodeficiency virus or hepatitis B or C viruses. Such person shall also be deemed to have consented to the release of such test results to the law-enforcement officer who was exposed. In other than emergency situations, it shall be the responsibility of the law-enforcement officer to inform the person of this provision prior to the contact which creates a risk of such exposure.

F. Whenever a person is directly exposed to the body fluids of a law-enforcement officer in a manner which may, according to the then current guidelines of the Centers for Disease Control, transmit human immunodeficiency virus or hepatitis B or C viruses, the law-enforcement officer whose body fluids were involved in the exposure shall be deemed to have consented to testing for infection with human immunodeficiency virus or hepatitis B or C viruses. The law-enforcement officer shall also be deemed to have consented to the release of such test results to the person.

G. For the purposes of this section, "law-enforcement officer" means a person who is both (i) engaged in his public duty at the time of such exposure, and (ii) who is the personnel of any sheriff's office, any adult or youth correctional facility, or any state or local law-enforcement agency, or any agency or department that employs persons who have law-enforcement authority and who are under the
