- 178 § 2.1-342. Official records to be open to inspection; procedure for requesting records and responding

179 to request; charges; exceptions to application of chapter.

180 A. Except as otherwise specifically provided by law, all official records shall be open to inspection
181 and copying by any citizens of the Commonwealth during the regular office hours of the custodian of
182 such records. Access to such records shall not be denied to citizens of the Commonwealth,
183 representatives of newspapers and magazines with circulation in the Commonwealth, and representatives
184 of radio and television stations broadcasting in or into the Commonwealth. The custodian of such
185 records shall take all necessary precautions for their preservation and safekeeping. Any public body
186 covered under the provisions of this chapter shall make an initial response to citizens requesting records
187 open to inspection within five work days after the receipt of the request by the public body which is the
188 custodian of the requested records. Such citizen request shall designate the requested records with
189 reasonable specificity. A specific reference to this chapter by the requesting citizen in his request shall
190 not be necessary to invoke the provisions of this chapter and the time limits for response by the public
191 body. The response by the public body within such five work days shall be one of the following
192 responses:

193 1. The requested records shall be provided to the requesting citizen.

194 2. If the public body determines that an exemption applies to all of the requested records, it may
195 refuse to release such records and provide to the requesting citizen a written explanation as to why the
196 records are not available with the explanation making specific reference to the applicable Code sections
197 which make the requested records exempt.

198 3. If the public body determines that an exemption applies to a portion of the requested records, it
199 may delete or excise that portion of the records to which an exemption applies, but shall disclose the
200 remainder of the requested records and provide to the requesting citizen a written explanation as to why
201 these portions of the record are not available to the requesting citizen with the explanation making
202 specific reference to the applicable Code sections which make that portion of the requested records
203 exempt. Any reasonably segregatable portion of an official record shall be provided to any person
204 requesting the record after the deletion of the exempt portion.

205 4. If the public body determines that it is practically impossible to provide the requested records or
206 to determine whether they are available within the five-work-day period, the public body shall so inform
207 the requesting citizen and shall have an additional seven work days in which to provide one of the three
208 preceding responses.

209 Nothing in this section shall prohibit any public body from petitioning the appropriate court for
210 additional time to respond to a request for records when the request is for an extraordinary volume of
211 records and a response by the public body within the time required by this chapter will prevent the
212 public body from meeting its operational responsibilities. Before proceeding with this petition, however,
213 the public body shall make reasonable efforts to reach an agreement with the requester concerning the
214 production of the records requested.

215 The public body may make reasonable charges for the copying, search time and computer time
216 expended in the supplying of such records. The public body may also make a reasonable charge for
217 preparing documents produced from a geographic information system at the request of anyone other than
218 the owner of the land that is the subject of the request. However, such charges shall not exceed the
219 actual cost to the public body in supplying such records or documents, except that the public body may
220 charge, on a pro rata per acre basis, for the cost of creating topographical maps developed by the public
221 body, for such maps or portions thereof, which encompass a contiguous area greater than fifty acres.
222 Such charges for the supplying of requested records shall be estimated in advance at the request of the
223 citizen. The public body may require the advance payment of charges which are subject to advance
224 determination.

225 In any case where a public body determines in advance that search and copying charges for
226 producing the requested documents are likely to exceed \$200, the public body may, before continuing to
227 process the request, require the citizen requesting the information to agree to payment of an amount not
228 to exceed the advance determination by five percent. The period within which the public body must
229 respond under this section shall be tolled for the amount of time that elapses between notice of the
230 advance determination and the response of the citizen requesting the information.

231 Official records maintained by a public body on a computer or other electronic data processing
232 system which are available to the public under the provisions of this chapter shall be made reasonably
233 accessible to the public at reasonable cost. Beginning July 1, 1997, every public body of state
234 government shall compile, and annually update, an index of computer databases which contains at a
235 minimum those databases created by them on or after July 1, 1997. "Computer database" means a
236 structured collection of data or documents residing in a computer. Such index shall be an official record
237 and shall include, at a minimum, the following information with respect to each database listed therein:
238 a list of data fields, a description of the format or record layout, the date last updated, a list of any data
239 fields to which public access is restricted, a description of each format in which the database can be

copied or reproduced using the public body's computer facilities, and a schedule of fees for the production of copies in each available form. The form, context, language, and guidelines for the indices and the databases to be indexed shall be developed by the Director of the Department of Information Technology in consultation with the State Librarian and the State Archivist. The public body shall not be required to disclose its software security, including passwords.

Public bodies shall not be required to create or prepare a particular requested record if it does not already exist. Public bodies may, but shall not be required to, abstract or summarize information from official records or convert an official record available in one form into another form at the request of the citizen. The public body shall make reasonable efforts to reach an agreement with the requester concerning the production of the records requested.

Failure to make any response to a request for records shall be a violation of this chapter and deemed a denial of the request.

B. The following records are excluded from the provisions of this chapter but may be disclosed by the custodian in his discretion, except where such disclosure is prohibited by law:

1. Memoranda, correspondence, evidence and complaints related to criminal investigations; adult arrestee photographs when necessary to avoid jeopardizing an investigation in felony cases until such time as the release of such photograph will no longer jeopardize the investigation; reports submitted to the state and local police, to investigators authorized pursuant to § 53.1-16 and to the campus police departments of public institutions of higher education as established by Chapter 17 (§ 23-232 et seq.) of Title 23 in confidence; portions of records of local government crime commissions that would identify individuals providing information about crimes or criminal activities under a promise of anonymity; records of local police departments relating to neighborhood watch programs that include the names, addresses, and operating schedules of individual participants in the program that are provided to such departments under a promise of confidentiality; and all records of persons imprisoned in penal institutions in the Commonwealth provided such records relate to the imprisonment. Information in the custody of law-enforcement officials relative to the identity of any individual other than a juvenile who is arrested and charged, and the status of the charge or arrest, shall not be excluded from the provisions of this chapter.

Criminal incident information relating to felony offenses shall not be excluded from the provisions of this chapter; however, where the release of criminal incident information is likely to jeopardize an ongoing criminal investigation or the safety of an individual, cause a suspect to flee or evade detection, or result in the destruction of evidence, such information may be withheld until the above-referenced damage is no longer likely to occur from release of the information.

2. Confidential records of all investigations of applications for licenses and permits, and all licensees and permittees made by or submitted to the Alcoholic Beverage Control Board, the State Lottery Department, the Virginia Racing Commission, or the Charitable Gaming Commission.

3. State income, business, and estate tax returns, personal property tax returns, scholastic records and personnel records containing information concerning identifiable individuals, except that such access shall not be denied to the person who is the subject thereof, and medical and mental records, except that such records can be personally reviewed by the subject person or a physician of the subject person's choice; however, the subject person's mental records may not be personally reviewed by such person when the subject person's treating physician has made a part of such person's records a written statement that in his opinion a review of such records by the subject person would be injurious to the subject person's physical or mental health or well-being.

Where the person who is the subject of medical records is confined in a state or local correctional facility, the administrator or chief medical officer of such facility may assert such confined person's right of access to the medical records if the administrator or chief medical officer has reasonable cause to believe that such confined person has an infectious disease or other medical condition from which other persons so confined need to be protected. Medical records shall be reviewed only and shall not be copied by such administrator or chief medical officer. The information in the medical records of a person so confined shall continue to be confidential and shall not be disclosed to any person except the subject by the administrator or chief medical officer of the facility or except as provided by law.

For the purposes of this chapter such statistical summaries of incidents and statistical data concerning patient abuse as may be compiled by the Commissioner of the Department of Mental Health, Mental Retardation and Substance Abuse Services shall be open to inspection and releasable as provided in subsection A of this section. No such summaries or data shall include any patient-identifying information. Where the person who is the subject of scholastic or medical and mental records is under the age of eighteen, his right of access may be asserted only by his guardian or his parent, including a noncustodial parent, unless such parent's parental rights have been terminated or a court of competent jurisdiction has restricted or denied such access. In instances where the person who is the subject thereof is an emancipated minor or a student in a state-supported institution of higher education, such right of

access may be asserted by the subject person.

4. Memoranda, working papers and correspondence (i) held by or requested from members of the General Assembly or the Division of Legislative Services or (ii) held or requested by the Office of the Governor or Lieutenant Governor, Attorney General or the mayor or other chief executive officer of any political subdivision of the Commonwealth or the president or other chief executive officer of any state-supported institution of higher education. This exclusion shall not apply to memoranda, studies or other papers held or requested by the mayor or other chief executive officer of any political subdivision which are specifically concerned with the evaluation of performance of the duties and functions of any locally elected official and were prepared after June 30, 1992 nor shall this exclusion apply to agenda packets prepared and distributed to public bodies for use at a meeting.

Except as provided in § 30-28.18, memoranda, working papers and correspondence of a member of the General Assembly held by the Division of Legislative Services shall not be released by the Division without the prior consent of the member.

5. Written opinions of the city, county and town attorneys of the cities, counties and towns in the Commonwealth and any other writing protected by the attorney-client privilege.

6. Memoranda, working papers and records compiled specifically for use in litigation or as a part of an active administrative investigation concerning a matter which is properly the subject of an executive or closed meeting under § 2.1-344 and material furnished in confidence with respect thereto.

7. Confidential letters and statements of recommendation placed in the records of educational agencies or institutions respecting (i) admission to any educational agency or institution, (ii) an application for employment, or (iii) receipt of an honor or honorary recognition.

8. Library records which can be used to identify both (i) any library patron who has borrowed material from a library and (ii) the material such patron borrowed.

9. Any test or examination used, administered or prepared by any public body for purposes of evaluation of (i) any student or any student's performance, (ii) any employee or employment seeker's qualifications or aptitude for employment, retention, or promotion, or (iii) qualifications for any license or certificate issued by any public body.

As used in this subdivision 9, "test or examination" shall include (i) any scoring key for any such test or examination, and (ii) any other document which would jeopardize the security of such test or examination. Nothing contained in this subdivision 9 shall prohibit the release of test scores or results as provided by law, or limit access to individual records as is provided by law. However, the subject of such employment tests shall be entitled to review and inspect all documents relative to his performance on such employment tests.

When, in the reasonable opinion of such public body, any such test or examination no longer has any potential for future use, and the security of future tests or examinations will not be jeopardized, such test or examination shall be made available to the public. However, minimum competency tests administered to public school children shall be made available to the public contemporaneously with statewide release of the scores of those taking such tests, but in no event shall such tests be made available to the public later than six months after the administration of such tests.

10. Applications for admission to examinations or for licensure and scoring records maintained by the Department of Health Professions or any board in that department on individual licensees or applicants. However, such material may be made available during normal working hours for copying, at the requester's expense, by the individual who is the subject thereof, in the offices of the Department of Health Professions or in the offices of any health regulatory board, whichever may possess the material.

11. Records of active investigations being conducted by the Department of Health Professions or by any health regulatory board in the Commonwealth.

12. Memoranda, legal opinions, working papers and records recorded in or compiled exclusively for executive or closed meetings lawfully held pursuant to § 2.1-344.

For the purpose of this section, "vendor proprietary software" means computer programs acquired from a vendor for purposes of processing data for agencies or political subdivisions of the Commonwealth.

17. Data, records or information of a proprietary nature produced or collected by or for faculty or staff of state institutions of higher learning, other than the institutions' financial or administrative records, in the conduct of or as a result of study or research on medical, scientific, technical or scholarly issues, whether sponsored by the institution alone or in conjunction with a governmental body or a

private concern, where such data, records or information has not been publicly released, published, copyrighted or patented.

18. Financial statements not publicly available filed with applications for industrial development financings.

19. Lists of registered owners of bonds issued by a political subdivision of the Commonwealth, whether the lists are maintained by the political subdivision itself or by a single fiduciary designated by the political subdivision.

21. Information which was filed as confidential under the Toxic Substances Information Act (§ 32.1-239 et seq.), as such Act existed prior to July 1, 1992.

22. Documents as specified in § 58.1-3.

26. Fisheries data which would permit identification of any person or vessel, except when required by court order as specified in § 28.2-204.

27. Records of active investigations being conducted by the Department of Medical Assistance Services pursuant to Chapter 10 (§ 32.1-323 et seq.) of Title 32.1.

28. Documents and writings furnished by a member of the General Assembly to a meeting of a standing committee, special committee or subcommittee of his house established solely for the purpose of reviewing members' annual disclosure statements and supporting materials filed under § 2.1-639.40 or of formulating advisory opinions to members on standards of conduct, or both.

29. Customer account information of a public utility affiliated with a political subdivision of the Commonwealth, including the customer's name and service address, but excluding the amount of utility service provided and the amount of money paid for such utility service.

30. Investigative notes and other correspondence and information furnished in confidence with respect to an investigation or conciliation process involving an alleged unlawful discriminatory practice under the Virginia Human Rights Act (§ 2.1-714 et seq.); however, nothing in this section shall prohibit the distribution of information taken from inactive reports in a form which does not reveal the identity of the parties involved or other persons supplying information.

31. Investigative notes; proprietary information not published, copyrighted or patented; information obtained from employee personnel records; personally identifiable information regarding residents, clients or other recipients of services; and other correspondence and information furnished in confidence to the Department of Social Services in connection with an active investigation of an applicant or licensee pursuant to Chapters 9 (§ 63.1-172 et seq.) and 10 (§ 63.1-195 et seq.) of Title 63.1; however, nothing in this section shall prohibit disclosure of information from the records of completed investigations in a form that does not reveal the identity of complainants, persons supplying information, or other individuals involved in the investigation.

32. Reports, manuals, specifications, documents, minutes or recordings of staff meetings or other information or materials of the Virginia Board of Corrections, the Virginia Department of Corrections or any institution thereof to the extent, as determined by the Director of the Department of Corrections or his designee or of the Virginia Board of Juvenile Justice, the Virginia Department of Juvenile Justice or any facility thereof to the extent as determined by the Director of the Department of Juvenile Justice, or his designee, that disclosure or public dissemination of such materials would jeopardize the security of any correctional or juvenile facility or institution, as follows:

(i) Security manuals, including emergency plans that are a part thereof;

(ii) Engineering and architectural drawings of correctional and juvenile facilities, and operational specifications of security systems utilized by the Departments, provided the general descriptions of such

security systems, cost and quality shall be made available to the public;

(iii) Training manuals designed for correctional and juvenile facilities to the extent that they address procedures for institutional security, emergency plans and security equipment;

(vii) Logs or other documents containing information on movement of inmates, juvenile clients or employees; and

(viii) Documents disclosing contacts between inmates, juvenile clients and law-enforcement personnel.

Notwithstanding the provisions of this subdivision, reports and information regarding the general operations of the Departments, including notice that an escape has occurred, shall be open to inspection and copying as provided in this section.

However, access to one's own information shall not be denied.

34. Documents regarding the siting of hazardous waste facilities, except as provided in § 10.1-1441, if disclosure of them would have a detrimental effect upon the negotiating position of a governing body or on the establishment of the terms, conditions and provisions of the siting agreement.

35. Appraisals and cost estimates of real property subject to a proposed purchase, sale or lease, prior to the completion of such purchase, sale or lease.

36. Records containing information on the site specific location of rare, threatened, endangered or otherwise imperiled plant and animal species, natural communities, caves, and significant historic and archaeological sites if, in the opinion of the public body which has the responsibility for such information, disclosure of the information would jeopardize the continued existence or the integrity of the resource. This exemption shall not apply to requests from the owner of the land upon which the resource is located.

37. Official records, memoranda, working papers, graphics, video or audio tapes, production models, data and information of a proprietary nature produced by or for or collected by or for the State Lottery Department relating to matters of a specific lottery game design, development, production, operation, ticket price, prize structure, manner of selecting the winning ticket, manner of payment of prizes to holders of winning tickets, frequency of drawings or selections of winning tickets, odds of winning, advertising, or marketing, where such official records have not been publicly released, published, copyrighted or patented. Whether released, published or copyrighted, all game-related information shall be subject to public disclosure under this chapter upon the first day of sales for the specific lottery game to which it pertains.

All studies and investigations referred to under subdivisions (iii), (iv) and (v) shall be subject to public disclosure under this chapter upon completion of the study or investigation.

39. Those portions of engineering and construction drawings and plans submitted for the sole purpose of complying with the building code in obtaining a building permit which would identify specific trade secrets or other information the disclosure of which would be harmful to the competitive position of the owner or lessee; however, such information shall be exempt only until the building is completed.

Information relating to the safety or environmental soundness of any building shall not be exempt from disclosure.

40. [Repealed.]
