[H 650]

Approved April 15, 1998

Be it enacted by the General Assembly of Virginia:

1. That the Code of Virginia is amended by adding a section numbered 15.2-2230.1 as follows:

§ 15.2-2230.1. Public facilities study.

In addition to reviewing the comprehensive plan, the planning commission may make a study of the public facilities, including existing facilities, which would be needed if the comprehensive plan is fully implemented. The study may include estimations of the annual prospective operating costs for such facilities and any revenues, including tax revenues, that may be generated by such facilities. For purposes of the study, public facilities may include but need not be limited to water and sewer lines and treatment plants, schools, public safety facilities, streets and highways. The planning commission may forward the study to the local governing body or any other local, regional, state or federal agency that the planning commission believes might benefit from its findings.
