Patron—Cranwell

Referred to Committee on Appropriations

**Be it enacted by the General Assembly of Virginia:**

**1. That § 2.1-757 of the Code of Virginia, as it is effective and as it may become effective, is amended and reenacted as follows:**

§ 2.1-757. State pool of funds.

A. Effective July 1, 1993, there is established a state pool of funds to be allocated to community policy and management teams in accordance with the appropriations act and appropriate state regulations. These funds, as made available by the General Assembly, shall be expended for public or private nonresidential or residential services for troubled youths and families.

The purposes of this system of funding are:

1. To place authority for making program and funding decisions at the community level;
2. To consolidate categorical agency funding and institute community responsibility for the provision of services;
3. To provide greater flexibility in the use of funds to purchase services based on the strengths and needs of youths and families; and
4. To reduce disparity in accessing services and to reduce inadvertent fiscal incentives for serving children according to differing required local match rates for funding streams.

B. The state pool shall consist of funds which serve the target populations identified in subdivisions 1 through 5 below in the purchase of residential and nonresidential services for children. References to funding sources and current placement authority for the targeted populations of children are for the purpose of accounting for the funds in the pool. It is not intended that children be categorized by individual funding streams in order to access services. The target population shall be the following:

1. Children placed for purposes of special education in approved private school educational programs, previously funded by the Department of Education through private tuition assistance;
2. Children with disabilities placed by local social services agencies or the Department of Juvenile Justice in private residential facilities or across jurisdictional lines in private, special education day schools, if the individualized education program indicates such school is the appropriate placement while living in foster homes or child-caring facilities, previously funded by the Department of Education through the Interagency Assistance Fund for Noneducational Placements of Handicapped Children;
3. Children for whom foster care services, as defined by § 63.1-55.8, are being provided to prevent foster care placements, and children placed through parental agreements, entrusted to local social service agencies by their parents or guardians or committed to the agencies by any court of competent jurisdiction for purposes of placement in suitable family homes, child-caring institutions, residential facilities or independent living arrangements, as authorized by § 63.1-56;
4. Children placed by a juvenile and domestic relations district court, in accordance with the provisions of § 16.1-286, in a private or locally operated public facility or nonresidential program; and
5. Children committed to the Department of Juvenile Justice and placed by it in a private home or in a public or private facility in accordance with § 66-14.

C. The General Assembly and the governing body of each county and city shall annually appropriate such sums of money as shall be sufficient (i) to provide special education services and foster care services for children identified in subdivisions B 1, B 2 and B 3 of this section and (ii) to meet relevant federal mandates for the provision of these services. The community policy and management team shall anticipate to the best of its ability the number of children for whom such services will be required and reserve funds from its state pool allocation to meet these needs.

D. When a community services board established pursuant to § 37.1-195, local school division, local social service agency, court service unit, or the Department of Juvenile Justice has referred a child and family to a family assessment and planning team and that team has recommended the proper level of treatment and services needed by that child and family and has determined the child's eligibility for funding for services through the state pool of funds, then the community services board, the local school division, local social services agency, court service unit or Department of Juvenile Justice has met its fiscal responsibility for that child for the services funded through the pool. Each agency shall continue
