## SENATE BILL NO. 467

Offered January 26, 1998

*A BILL to amend and reenact § 38.2-401 of the Code of Virginia, relating to the Fire Programs Fund.*

Patrons—Quayle; Delegate: Barlow

Referred to the Committee on Commerce and Labor

**Be it enacted by the General Assembly of Virginia:****1. That § 38.2-401 of the Code of Virginia is amended and reenacted as follows:**

§ 38.2-401. Fire Programs Fund.

A. There is hereby established a Fire Programs Fund which shall be administered by the Department of Fire Programs under policies and definitions established by the Virginia Fire Services Board. The Fund, which includes grants noted herein, shall be created in the State Treasury as a special nonreverting fund and shall be established on the books of the Comptroller. Any moneys deposited to or remaining in such Fund during or at the end of each fiscal year or biennium shall not revert to the general fund but shall remain in the Fund. Moneys shall be deposited or transferred to the account as collected by the State Corporation Commission and as coordinated with the Department. Interest earned on all moneys shall remain in the Fund and be credited to it. Interest earned from the Fund shall be set aside to be used for fire service purposes as defined by the Virginia Fire Services Board. The Fund shall consist of any moneys appropriated for this purpose by the General Assembly and any other moneys received for such purpose by the Board or Department. Notwithstanding any other provision of law to the contrary, policies established by the Board for the administration of the Fund, and any grants provided from the Fund, that are not inconsistent with the purposes set out in this section shall be binding upon any locality that accepts such funds or related grants. In order to maintain the Fund, the Commission shall annually assess against all licensed insurance companies doing business in this Commonwealth by writing any type of insurance as defined in §§ 38.2-110, 38.2-111, 38.2-126, 38.2-130 and 38.2-131 and those combination policies as defined in § 38.2-1921 that contain insurance as defined in §§ 38.2-110, 38.2-111 and 38.2-126, an assessment in the amount of one percent of the total direct gross premium income for such insurance. Such assessment shall be apportioned, assessed and paid as prescribed by § 38.2-403. In any year in which a company has no direct gross premium income or in which its direct gross premium income is insufficient to produce at the rate of assessment prescribed by law an amount equal to or in excess of \$100, there shall be so apportioned and assessed against such company a contribution of \$100. The Commission shall be reimbursed from the Fund for all expenses necessary for the administration of this section.

B. After reserving funds for the grants noted herein, seventy-five percent of the remaining amount collected annually pursuant to this section shall be allocated to the several counties, cities and towns of the Commonwealth providing fire service operations to be used for the improvement of volunteer and career fire services in each of the receiving localities. Funds allocated to the counties, cities and towns pursuant to this subsection shall not be used directly or indirectly to supplant or replace any other funds appropriated by the counties, cities and towns for fire service operations. Such funds shall be used solely for the purposes of training volunteer or career firefighting personnel in each of the receiving localities; funding fire prevention and public safety education programs; constructing, improving and expanding regional or local fire service training facilities; or for purchasing personal protective equipment, vehicles, equipment and supplies for use in the receiving locality specifically for fire service purposes. Notwithstanding any other provision of the Code, when localities use such funds to construct, improve or expand fire service training facilities, fire-related training provided at such training facilities shall be by instructors certified or approved according to policies developed by the Department of Fire Programs and approved by the Virginia Fire Services Board. Distribution of this seventy-five percent of the Fund shall be made on the basis of population as provided for in §§ 4.1-116 and 4.1-117; however, no county or city eligible for such funds shall receive less than \$10,000, nor eligible town less than \$4,000. In order to remain eligible for such funds, each receiving locality shall report annually to the Department on the use of the funds allocated to it for the previous year and shall provide a completed Fire Programs Fund Disbursement Agreement form. Each receiving locality shall be responsible for certifying the proper use of the funds. If, at the end of any annual reporting period, a satisfactory report and a completed agreement form have not been submitted by a receiving locality, any funds due to that locality for the next year shall be retained until said documents are submitted to the Department.

C. The remainder of this Fund shall be used for the purposes of underwriting the costs of the operation of the Department of Fire Programs which shall include providing funded training and
