In addition to other factors, the Commission shall also consider the public and private benefits of the proposed project and *shall exercise its authority under this section consistent with the public trust doctrine as defined by the common law of the Commonwealth adopted pursuant to § 1-10 in order to protect and safeguard the public right to the use and enjoyment of the subaqueous lands of the Commonwealth held in trust by it for the benefit of the people as conferred by the public trust doctrine and the Constitution of Virginia. The Commission shall also consider the project's effect* on the following:

5. Water quality; and
6. Submerged aquatic vegetation (SAV).

B. The Commission shall consult with other state agencies, including the Virginia Institute of Marine Science, the State Water Control Board, the Virginia Department of Transportation, and the State Corporation Commission, whenever the Commission's decision on a permit application relates to or affects the particular concerns or activities of those agencies.

C. No permit for a marina or boatyard for commercial use shall be granted until the owner or other applicant presents to the Commission a plan for sewage treatment or disposal facilities which has been approved by the State Department of Health.

D. All permits issued by the Commission for the use of state-owned bottomlands or to recover underwater historic property shall be in writing and specify the conditions, terms and royalties which the Commission determines are appropriate.

E. Nothing in this subsection shall be construed to deprive a riparian land owner of such rights as he may have under common law.*
