HOUSE BILL NO. 749

House Amendments in [] —January 21, 1999

A BILL to amend and reenact § 32.1-123 of the Code of Virginia, relating to licensure of certain health care facilities.

Patrons—Marshall, Albo, Cox, Nixon and O'Brien

Referred to Committee on Health, Welfare and Institutions

Be it enacted by the General Assembly of Virginia:**1. That § 32.1-123 of the Code of Virginia is amended and reenacted as follows:**

§ 32.1-123. Definitions.

As used in this article unless a different meaning or construction is clearly required by the context or otherwise:

"Certified nursing facility" means any skilled nursing facility, skilled care facility, intermediate care facility, nursing or nursing care facility, or nursing home, whether freestanding or a portion of a freestanding medical care facility, that is certified as a Medicare or Medicaid provider, or both, pursuant to § 32.1-137.

"Class I violation" means failure of a nursing home or certified nursing facility to comply with one or more requirements of state or federal law or regulations which creates a situation that presents an immediate and serious threat to patient health or safety.

"Class II violation" means a pattern of noncompliance by a nursing home or certified nursing facility with one or more federal conditions of participation which indicates delivery of substandard quality of care but does not necessarily create an immediate and serious threat to patient health and safety. Regardless of whether the facility participates in Medicare or Medicaid, the federal conditions of participation shall be the standards for Class II violations.

"Hospital" means any facility licensed pursuant to this article in which the primary function is the provision of diagnosis, of treatment, and of medical and nursing services, surgical or nonsurgical, for two or more nonrelated individuals, including hospitals known by varying nomenclature or designation such as sanatoriums, sanitariums and general, acute, rehabilitation, chronic disease, short-term, long-term, outpatient surgical, and inpatient or outpatient maternity hospitals. *"Hospital" shall include any clinic [; which is not a private physician's office,] performing twenty-five or more abortions [or any procedures that involve the use of anesthesia or the risk of organ perforation or damage or the risk of internal infection] per year. Any such clinic shall be subject to all of the requirements of this article for outpatient surgical hospitals and the regulations of the Board in the same manner as any other hospital, including any standards, inspections, staffing and laboratory requirements, equipment mandates, or other criteria.*

"Immediate and serious threat" means a situation or condition having a high probability that serious harm or injury to patients could occur at any time, or already has occurred, and may occur again, if patients are not protected effectively from the harm, or the threat is not removed.

"Inspection" means all surveys, inspections, investigations and other procedures necessary for the Department of Health to perform in order to carry out various obligations imposed on the Board or Commissioner by applicable state and federal laws and regulations.

"Nursing home" means any facility or any identifiable component of any facility licensed pursuant to this article in which the primary function is the provision, on a continuing basis, of nursing services and health-related services for the treatment and inpatient care of two or more nonrelated individuals, including facilities known by varying nomenclature or designation such as convalescent homes, skilled nursing facilities or skilled care facilities, intermediate care facilities, extended care facilities and nursing or nursing care facilities.

"Nonrelated" means not related by blood or marriage, ascending or descending or first degree full or half collateral.

"Substandard quality of care" means deficiencies in practices of patient care, preservation of patient rights, environmental sanitation, physical plant maintenance, or life safety which, if not corrected, will have a significant harmful effect on patient health and safety.
