HOUSE JOINT RESOLUTION NO. 566
AMENDMENT IN THE NATURE OF A SUBSTITUTE
(Proposed by the Joint Conference Committee
on February 27, 1999)

(Patron Prior to Substitute—Delegate Hamilton)

Establishing a special task force of the Commission on Educational Accountability to study the educational needs of the 21st century.

WHEREAS, the demands of an increasingly competitive 21st century global marketplace will challenge Virginia's system of public education to prepare its students to learn, adapt, and expand their skills in the workforce; and

WHEREAS, because the "fundamental goal of the public schools," as articulated in the Standards of Quality, is to "enable each student to develop the skills that are necessary for success in school and preparation for life," it is essential that our public schools equip students with the tools that will allow them to wisely choose among the options of directly entering the workforce, obtaining postsecondary technical education or training, attending college, graduate, or professional school, or combining these objectives; and

WHEREAS, the Standards of Quality direct school boards to infuse throughout the K-12 curricula career education programs that "promote knowledge of careers and all types of employment opportunities including, but not limited to, apprenticeships, the military, and career education schools, and emphasize the advantages of completing school with marketable skills"; and

WHEREAS, pursuant to § 22.1-209, local school boards are required to "make available to secondary students employment counseling and placement services to furnish information relating to the employment opportunities available to students graduating from or leaving the public schools in the school division which shall include all types of employment opportunities, including, but not limited to, apprenticeships, the military, and career education schools"; and

WHEREAS, supplementing these career planning efforts are programs created pursuant to § 22.1-209.01 to prepare students for "postsecondary education eligibility, employment, and advanced technical skills training," as well as career guidance counseling designed to "furnish information on available employment opportunities to all students," as required by § 22.1-253.13:1 D, and pupil personnel services for grades K-12 to aid students in their educational, social, and career development pursuant to § 22.1-253.13:2 D; and

WHEREAS, recognizing the importance of workforce development training programs, the Governor of Virginia has directed the Secretary of Commerce and Trade to review such programs in an effort to promote economic development efforts in the Commonwealth; and

WHEREAS, the President of the State Board of Education has acknowledged the need for all students to be held to a standard of learning that will enhance the skills and abilities of students entering the workforce or pursuing higher education; and

WHEREAS, to increase the quality of public education in Virginia and to improve coordination between public education and workforce development training, it is imperative to build on those existing and revised standards, programs, and initiatives that ensure the greatest educational and professional development opportunities; and

WHEREAS, while Virginia has made great progress in increasing educational quality and in preparing its young people for the world of work with the implementation of revised Standards of Learning for mathematics, English, science, and history and social science in 1995, new Standards of Accreditation for public schools in 1997, and in a broad range of workforce training initiatives, further study is needed to determine ways to enhance linkages between public education and workforce development and to assist students in acquiring necessary work habits, developing marketable skills, coordinating courses of study, and identifying career goals; and

WHEREAS, Senate Joint Resolution 498 (1999) establishes the Commission on Educational Accountability, which has been charged to address a myriad of issues related to and impacting the Standards of Quality, the Standards of Learning, and the Standards of Accreditation; and

WHEREAS, due to the complexity of the issues and the interaction of public policies affecting public education, it is necessary that a special task force be established to assist the Commission in its work, and that the Commission collaborate and coordinate its work with other legislative study committees examining related matters to avoid duplication; now, therefore, be it

RESOLVED by the House of Delegates, the Senate concurring, That a special task force of the Commission on Educational Accountability to study the educational needs of the 21st century be established. The special task force shall be composed of 15 members, which shall include five legislative members, five nonlegislative members, and five ex officio members as follows: three members of the

60 House of Delegates, of whom two shall also be appointed to serve on the Commission on Educational
61 Accountability, pursuant to Senate Joint Resolution 498 (1999), in accordance with the principles of
62 Rule 16 of the Rules of the House of Delegates, to be appointed by the Speaker of the House; two
63 members of the Senate, of whom one shall also be appointed to serve on the Commission on
64 Educational Accountability, pursuant to Senate Joint Resolution 498 (1999), to be appointed by the
65 Senate Committee on Privileges and Elections; five citizens representing business, education, and
66 industry, to be appointed by the Governor; the Secretary of Education; the Secretary of Commerce and
67 Trade; the Superintendent of Public Instruction; the Chancellor of the Virginia Community College
68 System; and the Director of the State Council of Higher Education, who shall serve ex officio with full
69 voting privileges.

70 The special task force shall study (i) the integration of the Standards of Learning with middle and
71 high school curricula and programs that focus on workforce development skills; (ii) the availability of
72 these middle and high school workforce development opportunities to students across the
73 Commonwealth; (iii) the adequacy of current curricula, program resources, and technology in the public
74 schools statewide; (iv) staffing and state and local funding levels for middle and high school workforce
75 development programs; (v) the efficacy of current state and local coordination and governance of middle
76 and high school workforce development programs; (vi) the need for training and technical assistance for
77 workforce development educators; (vii) the use of the Standards of Learning and national business and
78 industry standards to enhance the quality of such curricula and programs; and (viii) such other issues as
79 it deems appropriate. The special task force shall regularly apprise the Commission on Educational
80 Accountability regarding its deliberations, findings, and recommendations on a schedule to be
81 determined by the Commission.

82 The Division of Legislative Services shall provide staff support for the study. The Department of
83 Education, the Virginia Business Education Partnership, the Virginia Community College System, and
84 the State Council of Higher Education shall provide technical assistance for the study. All agencies of
85 the Commonwealth shall provide assistance to the special task force, upon request.

86 The direct costs of this study shall not exceed \$20,000.

87 The special task force shall submit its interim findings and recommendations to the Commission on
88 Educational Accountability by November 1, 2000, and its final report by November 1, 2001.

89 Implementation of this resolution is subject to subsequent approval and certification by the Joint
90 Rules Committee. The Committee may withhold expenditures or delay the period for the conduct of the
91 study.
