| | While this bill does have costs associated with systems development, these cannot ascertained at this time. The cost for implementing a single piece of legislation cannot calculated precisely due to economies of scale. The actual cost to implement all legislation enacted during a given session will more than likely be less than the sum of the cost attributed to individual bills. Further, the ability to accurately predict costs is complicated because TAX is replacing its current database system. As a result, legislative changes meed to be made to both the current and the future system, depending on the effective data. Therefore, TAX is not providing specific systems costs for this bill, but will calculate the to for all tax bills once they have been acted upon favorably. Other administrative costs implement this bill would be minimal. | | | | | | | |
