

VIRGINIA ACTS OF ASSEMBLY -- 2002 SESSION

CHAPTER 376

An Act to amend and reenact § 10.1-1181.2 of the Code of Virginia, relating to prior notice for the commercial harvesting of timber; penalty.

[H 448]

Approved April 1, 2002

Be it enacted by the General Assembly of Virginia:

1. That § 10.1-1181.2 of the Code of Virginia is amended and reenacted as follows:

§ 10.1-1181.2. Conduct of silvicultural activities; issuance of special orders.

A. If the State Forester determines that an owner or operator has conducted or is conducting or has allowed or is allowing the conduct of any silvicultural activity in a manner which is causing or is likely to cause pollution, he may notify the owner or operator of corrective measures needed to prevent or cease the pollution. Failure of the State Forester to notify an owner or operator of such corrective measures shall not impair the State Forester's authority to issue special orders pursuant to subsection B or C ~~of this section~~.

B. The State Forester shall have the authority to issue special orders to any owner or operator who has conducted or is conducting, or has allowed or is allowing to be conducted, any silvicultural activity in a manner which is causing or is likely to cause pollution, to cease immediately all or part of the silvicultural activities on the site, and to implement specified corrective measures within a stated period of time. Such special orders are to be issued only after a hearing with reasonable notice to the owner or operator, or both, of the time, place and purpose thereof, and they shall become effective not less than five days after service as provided in subsection D ~~of this section~~.

C. If the State Forester finds that any owner or operator is conducting any silvicultural activity in a manner which is causing or is likely to cause an alteration of the physical, chemical or biological properties of any state waters resulting from sediment deposition presenting an imminent and substantial danger to (i) the public health, safety or welfare, or the health of animals, fish or aquatic life; (ii) a public water supply; or (iii) recreational, commercial, industrial, agricultural or other reasonable uses, the State Forester may issue, without advance notice or hearing, an emergency order directing the owner or operator, or both, to cease immediately all or part of the silvicultural activities on the site, and to implement specified corrective measures within a stated period of time. The commencement of proceedings by the State Forester for the issuance of a special order pursuant to subsection B ~~of this section~~ shall not impair the State Forester's authority to issue an emergency special order pursuant to this subsection. The State Forester shall provide an opportunity for a hearing, after reasonable notice as to the time and place thereof to the owner or operator, to affirm, modify, amend or cancel such emergency special order.

D. The owner or operator to whom such special order is directed shall be notified by certified mail, return receipt requested, sent to the last known address of the owner, or operator, or by personal delivery by an agent of the State Forester, and the time limits specified shall be counted from the date of receipt.

E. The State Forester shall not issue a special order to any owner or operator who has incorporated generally acceptable water quality protection techniques in the operation of silvicultural activities, which techniques have failed to prevent pollution, if the State Forester determines that the pollution is the direct result of unusual weather events which could not have been reasonably anticipated.

F. Any hearing required under this section shall be conducted in accordance with § 2.2-4020 unless the parties consent to informal proceedings.

G. The State Forester shall not issue a notice under subsection A ~~of this section~~ or a special silvicultural order or emergency special order under subsection B or C ~~of this section~~ more than one year after the silvicultural activity has occurred on the property.

H. Prior to ~~or~~ *completion* but not later than three working days after the commencement of an operation, the ~~owner or~~ operator shall notify the State Forester of the commercial harvesting of timber. For the purpose of this section, commercial harvesting of timber means the harvesting of trees for the primary purpose of transporting to another site for additional manufacturing. The notification may be verbal or written and shall (i) specify the location and the actual or anticipated date of the activity and (ii) be made in a manner prescribed by the State Forester. *If an operator fails to comply with the provisions of this subsection, the State Forester may assess a civil penalty of \$250 for the initial violation and not more than \$1,000 for any subsequent violation within a twenty-four month period by the operator. All civil penalties assessed under this subsection shall be recovered in a civil action brought by the Attorney General in the name of the Commonwealth. Such civil penalties shall be paid into the state treasury and credited to the Virginia Forest Water Quality Fund pursuant to*

§ 10.1-1181.7.
