1. Accept a certificate issued by either the National Board for the appropriate branch of the healing arts or a state board prior to 1970 attesting the satisfactory completion of an examination given by that board if, in the opinion of the Board, the substituted examination material is substantially equivalent to the material for which it is substituted, and the passing grades are in each instance the equivalent of the grades required to be made on the corresponding examinations administered by the Board.

2. Accept a certificate issued by a state board during or after 1970 attesting to the applicant's satisfactory completion of all requirements to practice medicine, osteopathy, ~~or podiatry or chiropractic~~ in that state, if the applicant has a current and unrestricted license to practice in another state and a current specialty certificate acceptable to the Board.

2. Is of good moral character;

3. Has successfully completed all or such part as may be prescribed by the Board, of an educational course of study of that branch of the healing arts in which he desires a license to practice, which course of study and the educational institution providing that course of study are acceptable to the Board; and

4. Has completed one year of satisfactory postgraduate training in a hospital approved by an accrediting agency recognized by the Board for internships or residency training. At the discretion of the Board, the postgraduate training may be waived if an applicant for licensure in podiatry has been in active practice for four continuous years while serving in the military and is a diplomate of the American Board of Podiatric Surgery. ~~Applicants for licensure in chiropractic need not fulfill this requirement.~~

In determining whether such course of study and institution are acceptable to it, the Board may consider the reputation of the institution and whether it is approved or accredited by regional or national educational or professional associations including, but not limited to, such organizations as the Accreditation Council of Graduate Medical Education or other official accrediting body recognized by the American Medical Association, by the Committee for the Accreditation of Canadian Medical Schools or their appropriate subsidiary agencies, by any appropriate agency of the United States government, or by any other organization approved by the Board. Supervised clinical training which is received in the United States as part of the curriculum of a foreign medical school shall be obtained in an approved hospital, institution or school of medicine offering an approved residency program in the specialty area for the relevant clinical training. The Board may also consider any other factors that reflect whether that institution and its course of instruction provide training sufficient to prepare practitioners to practice their branch of the healing arts with competency and safety in the Commonwealth.

§ 54.1-2931. Examinations; passing grade.

A. The examination of candidates for licensure to practice medicine and osteopathy shall be the Federation Licensing Examination, the joint Licensure Examination Sequence prepared by the National Board of Medical Examiners and the Federation of State Medical Boards, or such other examinations as determined by the Board. No such license shall be issued to an

intern or resident who has not completed successfully the preliminary academic education required for admission to examinations given by the Board in his particular field of practice. Such license shall expire upon the holder's withdrawal or termination from the internship or residency program. The Board may prescribe such regulations not in conflict with existing law and require such reports from hospitals or other organizations operating an approved graduate medical education program in the Commonwealth as may be necessary to carry out the provisions of this section.

§ 54.1-2941. Contracts of practitioners with approved colleges and certain state agencies not prohibited.

This chapter shall not be construed to prohibit, forbid or prevent (i) any approved school of medicine, osteopathy, ~~or podiatry or chiropractic~~ from contracting with any licensed practitioner to teach or participate in a preceptorship program in such college on such terms of compensation as may be mutually satisfactory, which contract may prescribe the extent, if any, to which the practitioner may engage in private practice, or (ii) any institution, hospital, treatment center, sanatorium or other similar agency under the management and control of an agency of the Commonwealth from employing or contracting with any licensed practitioner to furnish professional services in the work of the agency, or to persons entitled to receive such care from the agency.

§ 65.2-603. Duty to furnish medical attention, etc., and vocational rehabilitation; effect of refusal of employee to accept.

A. 1. As long as necessary after an accident, the employer shall furnish or cause to be furnished, free of charge to the injured employee, a physician chosen by the injured employee from a panel of at least three physicians selected by the employer and such other necessary medical attention. Where such accident results in the amputation or loss of use of an arm, hand, leg, or foot or the enucleation of an eye or the loss of any natural teeth or loss of hearing, the employer shall furnish prosthetic or orthotic appliances, as well as wheelchairs, walkers, canes, or crutches, proper fitting and maintenance thereof, and training in the use thereof, as the nature of the injury may require. In awards entered for incapacity for work, under this title, upon determination by the treating physician and the Commission that the same is medically necessary, the Commission may require that the employer furnish and maintain bedside lifts, adjustable beds, and modification of the employee's principal home consisting of ramps, handrails, or any appliances prescribed by the treating physician and doorway alterations, provided that the aggregate cost of all such items and modifications required to be furnished on account of any one accident shall not exceed \$25,000. 678 et seq.) of Chapter 35 of Title 54.1 or by a person licensed by the Boards of *Chiropractic*, Counseling;  
679 Medicine; Nursing; Optometry; Psychology; or Social Work. In the event a dispute arises, any party  
680 may request a hearing and seek the approval of the Commission for the proposed services. Such services  
681 shall take into account the employee's preinjury job and wage classifications; his age, aptitude, and level  
682 of education; the likelihood of success in the new vocation; and the relative costs and benefits to be  
683 derived from such services.

684 B. The unjustified refusal of the employee to accept such medical service or vocational rehabilitation  
685 services when provided by the employer shall bar the employee from further compensation until such  
686 refusal ceases and no compensation shall at any time be paid for the period of suspension unless, in the  
687 opinion of the Commission, the circumstances justified the refusal. In any such case the Commission  
688 may order a change in the medical or hospital service or vocational rehabilitation services.

689 C. If in an emergency or on account of the employer's failure to provide the medical care during the  
690 period herein specified, or for other good reasons, a physician other than provided by the employer is

694 "medical care," and "medical report" shall be deemed to include chiropractic service or treatment and,  
695 where appropriate, a chiropractic treatment report.

697 section, and the employer also assumes all or part of the cost of providing health care coverage for the  
698 employee as a self-insured or under a group health insurance policy, health services plan or health care  
699 plan, upon the request of an employee, the employer shall also inform the employee whether each  
700 physician named is eligible to receive payment under the employee's health care coverage provided by  
701 the employer.

702 F. If the injured employee has an injury which may be treated within the scope of practice for a  
703 chiropractor, then the employer or insurer may include chiropractors on the panel provided the injured  
704 employee.

705 **2. That individuals licensed to practice chiropractic by the Board of Medicine prior to the effective**
