Approved

**Be it enacted by the General Assembly of Virginia:**

**1. That § 2.2-3705 of the Code of Virginia is amended and reenacted and the Code of Virginia is amended by adding in Title 56 a chapter numbered 22.1, consisting of sections numbered 56-575.1 through 56-575.16, as follows:**

§ 2.2-3705. Exclusions to application of chapter.

A. The following records are excluded from the provisions of this chapter but may be disclosed by the custodian in his discretion, except where such disclosure is prohibited by law:

1. Confidential records of all investigations of applications for licenses and permits, and all licensees and permittees made by or submitted to the Alcoholic Beverage Control Board, the State Lottery Department, the Virginia Racing Commission, or the Charitable Gaming Commission.

2. State income, business, and estate tax returns, personal property tax returns, scholastic and confidential records held pursuant to § 58.1-3.

3. Scholastic records containing information concerning identifiable individuals, except that such access shall not be denied to the person who is the subject thereof, or the parent or legal guardian of the student. However, no student shall have access to (i) financial records of a parent or guardian or (ii) records of instructional, supervisory, and administrative personnel and educational personnel ancillary thereto, which are in the sole possession of the maker thereof and that are not accessible or revealed to any other person except a substitute.

The parent or legal guardian of a student may prohibit, by written request, the release of any individual information regarding that student until the student reaches the age of eighteen years. For scholastic records of students under the age of eighteen years, the right of access may be asserted only by his legal guardian or parent, including a noncustodial parent, unless such parent's parental rights have been terminated or a court of competent jurisdiction has restricted or denied such access. For scholastic records of students who are emancipated or attending a state-supported institution of higher education, the right of access may be asserted by the student.

Any person who is the subject of any scholastic record and who is eighteen years of age or older may waive, in writing, the protections afforded by this subdivision. If the protections are so waived, the public body shall open such records for inspection and copying.

4. Personnel records containing information concerning identifiable individuals, except that access shall not be denied to the person who is the subject thereof. Any person who is the subject of any personnel record and who is eighteen years of age or older may waive, in writing, the protections afforded by this subdivision. If the protections are so waived, the public body shall open such records for inspection and copying.

5. Medical and mental records, except that such records may be personally reviewed by the subject person or a physician of the subject person's choice. However, the subject person's mental records may not be personally reviewed by such person when the subject person's treating physician has made a part of such person's records a written statement that in his opinion a review of such records by the subject person would be injurious to the subject person's physical or mental health or well-being.

Where the person who is the subject of medical records is confined in a state or local correctional facility, the administrator or chief medical officer of such facility may assert such confined person's right of access to the medical records if the administrator or chief medical officer has reasonable cause to believe that such confined person has an infectious disease or other medical condition from which other persons so confined need to be protected. Medical records shall only be reviewed and shall not be copied by such administrator or chief medical officer. The information in the medical records of a person so confined shall continue to be confidential and shall not be disclosed by the administrator or chief medical officer of the facility to any person except the subject or except as provided by law.

For the purposes of this chapter, statistical summaries of incidents and statistical data concerning patient abuse as may be compiled by the Commissioner of the Department of Mental Health, Mental Retardation and Substance Abuse Services shall be open to inspection and copying as provided in § 2.2-3704. No such summaries or data shall include any patient-identifying information. Where the

person who is the subject of medical and mental records is under the age of eighteen, his right of access may be asserted only by his guardian or his parent, including a noncustodial parent, unless such parent's parental rights have been terminated or a court of competent jurisdiction has restricted or denied such access. In instances where the person who is the subject thereof is an emancipated minor or a student in a public institution of higher education, the right of access may be asserted by the subject person.

6. However, minimum competency tests administered to public school children shall be made available to the public contemporaneously with statewide release of the scores of those taking such tests, but in no event shall such tests be made available to the public later than six months after the administration of such tests.

Neither any provision of this chapter nor any provision of Chapter 38 (§ 2.2-3800 et seq.) of this title shall be construed as denying public access to (i) contracts between a public official and a public body, other than contracts settling public employee employment disputes held confidential as personnel records under subdivision 4. of subsection A; (ii) records of the position, job classification, official salary or rate of pay of, and records of the allowances or reimbursements for expenses paid to any officer, official or employee of a public body; or (iii) the compensation or benefits paid by any corporation organized by the Virginia Retirement System or its officers or employees. The provisions of this subsection, however, shall not require public access to records of the official salaries or rates of pay of public employees whose annual rate of pay is \$10,000 or less.

C. No provision of this chapter or Chapter 21 (§ 30-178 et seq.) of Title 30 shall be construed to afford any rights to any person incarcerated in a state, local or federal correctional facility, whether or not such facility is (i) located in the Commonwealth or (ii) operated pursuant to the Corrections Private Management Act (§ 53.1-261 et seq.). However, this subsection shall not be construed to prevent an incarcerated person from exercising his constitutionally protected rights, including, but not limited to, his rights to call for evidence in his favor in a criminal prosecution.

##### § 56-575.2. Declaration of public purpose.

A. The General Assembly finds that:

1. There is a public need for timely acquisition, design, construction, improvement, renovation,

expansion, equipping, maintenance, or operation of education facilities and other public infrastructure and government facilities within the Commonwealth that serve a public need and purpose;

2. Such public need may not be wholly satisfied by existing methods of procurement in which qualifying projects are acquired, designed, constructed, improved, renovated, expanded, equipped, maintained, or operated;

3. There are inadequate resources to develop new education facilities and other public infrastructure and government facilities for the benefit of citizens of the Commonwealth, and there is demonstrated evidence that public-private partnerships can meet these needs by improving the schedule for delivery, lowering the cost, and providing other benefits to the public;

4. Financial incentives exist under state and federal tax provisions that promote public entities to enter into partnerships with private entities to develop qualifying projects; and

5. Authorizing private entities to acquire, design, construct, improve, renovate, expand, equip, maintain, or operate one or more qualifying projects may result in the availability of such projects to the public in a more timely or less costly fashion, thereby serving the public safety, benefit, and welfare.

B. An action under § 56-575.4 shall serve the public purpose of this chapter if such action facilitates the timely acquisition, design, construction, improvement, renovation, expansion, equipping, maintenance, or operation of qualifying projects.

C. It is the intent of this chapter, among other things, to facilitate the bond financing provisions of the Economic Growth and Tax Relief Reconciliation Act of 2001 or other similar financing mechanisms, private capital and other funding sources that support the acquisition, design, construction, improvement, renovation, expansion, equipping, maintenance, or operation of qualifying projects, to the end that financing for qualifying projects be expanded and accelerated to improve and add to the convenience of the public, and such that public and private entities may have the greatest possible flexibility in contracting with each other for the provision of the public services that are the subject of this chapter.

D. This chapter shall be liberally construed in conformity with the purposes hereof.

§ 56-575.3. Prerequisite for operation of a qualifying project.

Any private entity seeking authorization under this chapter to acquire, design, construct, improve, renovate, expand, equip, maintain or operate a qualifying project shall first obtain approval of the responsible public entity under § 56-575.4. Such private entity may initiate the approval process by requesting approval pursuant to subsection A of § 56-575.4 or the responsible public entity may request proposals or invite bids pursuant to subsection B of § 56-575.4.

§ 56-575.4. Approval of qualifying projects by the responsible public entity.

A. A private entity may request approval of a qualifying project by the responsible public entity. Any such request shall be accompanied by the following material and information unless waived by the responsible public entity:

1. A topographic map (1:2,000 or other appropriate scale) indicating the location of the qualifying project;

2. A description of the qualifying project, including the conceptual design of such facility or facilities or a conceptual plan for the provision of services, and a schedule for the initiation of and completion of the qualifying project to include the proposed major responsibilities and timeline for activities to be performed by both the public and private entity;

3. A statement setting forth the method by which the operator proposes to secure any necessary property interests required for the qualifying project. The statement shall include: (i) the names and addresses, if known, of the current owners of the property needed for the qualifying project, (ii) the nature of the property interests to be acquired, and (iii) any property that the responsible public entity expects it will be requested to condemn;

4. Information relating to the current plans for development of facilities to be used by a public entity that are similar to the qualifying project being proposed by the private entity, if any, of each affected local jurisdiction;

5. A list of all permits and approvals required for the qualifying project from local, state, or federal agencies and a projected schedule for obtaining such permits and approvals;

6. A list of public utility facilities, if any, that will be crossed by the qualifying project and a statement of the plans of the operator to accommodate such crossings;

7. A statement setting forth the operator's general plans for financing the qualifying project including the sources of the operator's funds;

8. The names and addresses of the persons who may be contacted for further information concerning the request;

9. User fees, lease payments, and other service payments over the term of the comprehensive agreement pursuant to § 56-575.9 and the methodology and circumstances for changes to such user fees, lease payments, and other service payments over time; and

545 10. Such additional material and information as the responsible public entity may reasonably  
546 request.

547 B. The responsible public entity may request proposals or invite bids from private entities for the  
548 acquisition, design, construction, improvement, renovation, expansion, equipping, maintenance or  
549 operation of qualifying projects.

550 C. The responsible public entity may grant approval of the acquisition, construction, improvement,  
551 renovation, expansion, maintenance, or operation of the education facility or other public infrastructure  
552 or government facility needed by a public entity as a qualifying project, or the design or equipping of a  
553 qualifying project so acquired, constructed, improved, renovated, expanded, maintained, or operated, if  
554 the responsible public entity determines that the project serves the public purpose of this chapter. The  
555 responsible public entity may determine that the acquisition, design, construction, improvement,  
556 renovation, expansion, equipping, maintenance, or operation of the qualifying project as a qualifying  
557 project serves such public purpose if:

558 1. There is a public need for or benefit derived from the qualifying project of the type the private  
559 entity proposes as a qualifying project;

560 2. The estimated cost of the qualifying project is reasonable in relation to similar facilities; and

561 3. The private entity's plans will result in the timely acquisition, design, construction, improvement,  
562 renovation, expansion, equipping, maintenance, or operation of the qualifying project.

563 In evaluating any request, the responsible public entity may rely upon internal staff reports prepared  
564 by personnel familiar with the operation of similar facilities or the advice of outside advisors or  
565 consultants having relevant experience.

566 D. The responsible public entity may charge a reasonable fee to cover the costs of processing,  
567 reviewing and evaluating the request, including without limitation, reasonable attorney's fees and fees  
568 for financial and other necessary advisors or consultants.

569 E. The approval of the responsible public entity shall be subject to the private entity's entering into a  
570 comprehensive agreement pursuant to § 56-575.9 with the responsible public entity.

571 F. In connection with its approval of the qualifying project, the responsible public entity shall  
572 establish a date for the commencement of activities related to the qualifying project. The responsible  
573 public entity may extend such date from time to time.

574 G. The responsible public entity shall take appropriate action to protect confidential and proprietary  
575 information provided by the operator pursuant to an agreement under subdivision A 56 of § 2.2-3705.

576 H. Nothing in this chapter or in a comprehensive agreement entered into pursuant to this chapter  
577 shall be deemed to enlarge, diminish or affect the authority, if any, otherwise possessed by the  
578 responsible public entity to take action that would impact the debt capacity of the Commonwealth.

579 § 56-575.5. Service contracts.

580 In addition to any authority otherwise conferred by law, any public entity may contract with an  
581 operator for the delivery of services to be provided as part of a qualifying project in exchange for such  
582 service payments and other consideration as such public entity may deem appropriate.

583 § 56-575.6. Affected local jurisdictions.

584 A. Any private entity requesting approval from, or submitting a proposal to, a responsible public  
585 entity under § 56-575.4 shall notify each affected local jurisdiction by furnishing a copy of its request or  
586 proposal to each affected local jurisdiction.

587 B. Each affected local jurisdiction that is not a responsible public entity for the respective qualifying  
588 project shall, within sixty days after receiving such notice, submit any comments it may have in writing  
589 on the proposed qualifying project to the responsible public entity and indicate whether the facility is  
590 compatible with the local comprehensive plan, local infrastructure development plans, the capital  
591 improvements budget, or other government spending plan. Such comments shall be given consideration  
592 by the responsible public entity prior to entering a comprehensive agreement pursuant to § 56-575.9  
593 with a private entity.

594 § 56-575.7. Dedication of public property.

595 Any public entity may dedicate any property interest, including land, improvements, and tangible  
596 personal property, that it has for public use in a qualifying project if it finds that so doing will serve  
597 the public purpose of this chapter by minimizing the cost of a qualifying project to the public entity or  
598 reducing the delivery time of a qualifying project. In connection with such dedication, a public entity  
599 may convey any property interest that it has, subject to the conditions imposed by general law, to the  
600 operator subject to the provisions of this chapter, for such consideration as such public entity may  
601 determine. The aforementioned consideration may include, without limitation, the agreement of the  
602 operator to operate the qualifying project.

603 § 56-575.8. Powers and duties of the operator.

604 A. The operator shall have all power allowed by law generally to a private entity having the same  
605 form of organization as the operator and shall have the power to acquire, design, construct, improve,

renovate, maintain, expand, equip or operate the qualifying project and collect lease payments, impose user fees or enter into service contracts in connection with the use thereof.

B. The operator may own, lease or acquire any other right to use or operate the qualifying project.

C. Any financing of the qualifying project may be in such amounts and upon such terms and conditions as may be determined by the operator. Without limiting the generality of the foregoing, the operator may issue debt, equity or other securities or obligations, enter into sale and leaseback transactions and secure any financing with a pledge of, security interest in, or lien on, any or all of its property, including all of its property interests in the qualifying project.

D. In operating the qualifying project, the operator may:

1. Make classifications according to reasonable categories for assessment of user fees; and

2. With the consent of the responsible public entity, make and enforce reasonable rules to the same extent that the responsible public entity may make and enforce rules with respect to similar facilities.

E. The operator shall:

1. Acquire, design, construct, improve, renovate, expand, equip, maintain, or operate the qualifying project in a manner that is acceptable to the responsible public entity, all in accordance with the provisions of the comprehensive agreement pursuant to § 56-575.9;

2. Keep the qualifying project open for use by the members of the public at all times, or as appropriate based upon the use of the facility, after its initial opening upon payment of the applicable user fees, lease payments, or service payments; provided that the qualifying project may be temporarily closed because of emergencies or, with the consent of the responsible public entity, to protect the safety of the public or for reasonable construction or maintenance procedures;

3. Maintain, or provide by contract for the maintenance of the qualifying project, if required by the comprehensive agreement;

4. Cooperate with the responsible public entity in making best efforts to establish any interconnection with the qualifying project requested by the responsible public entity; and

5. Comply with the provisions of the comprehensive agreement and any service contract.

F. Nothing shall prohibit an operator of a qualifying project from providing additional services for the qualifying project to public or private entities other than the responsible public entity so long as the provision of additional service does not impair the operator's ability to meet its commitments to the responsible public entity pursuant to the comprehensive agreement as provided for in § 56-575.9.

§ 56-575.9. Comprehensive agreement.

A. Prior to acquiring, designing, constructing, improving, renovating, expanding, equipping, maintaining, or operating the qualifying project, the private entity shall enter into a comprehensive agreement with the responsible public entity. The comprehensive agreement shall provide for:

1. Delivery of maintenance, performance and payment bonds or letters of credit in connection with the acquisition, design, construction, improvement, renovation, expansion, equipping, maintenance, or operation of the qualifying project, in the forms and amounts satisfactory to the responsible public entity;

2. Review of plans and specifications for the qualifying project by the responsible public entity and approval by the responsible public entity if the plans and specifications conform to standards acceptable to the responsible public entity. This shall not be construed as requiring the private entity to complete design of a qualifying project prior to the execution of a comprehensive agreement;

3. Inspection of the qualifying project by the responsible public entity to ensure that the operator's activities are acceptable to the responsible public entity in accordance with the provisions of the comprehensive agreement;

4. Maintenance of a policy or policies of public liability insurance (copies of which shall be filed with the responsible public entity accompanied by proofs of coverage), self-insurance, in form and amount satisfactory to the responsible public entity and reasonably sufficient to insure coverage of tort liability to the public and employees and to enable the continued operation of the qualifying project;

5. Monitoring of the practices of the operator by the responsible public entity to ensure that the qualifying project is properly maintained;

6. Reimbursement to be paid to the responsible public entity for services provided by the responsible public entity;

7. Filing of appropriate financial statements on a periodic basis; and

8. Policies and procedures governing the rights and responsibilities of the responsible public entity and the operator in the event the comprehensive agreement is terminated or there is a material default by the operator. Such policies and procedures shall include conditions governing assumption of the duties and responsibilities of the operator by the responsible public entity and the transfer or purchase of property or other interests of the operator by the responsible public entity.

B. The comprehensive agreement shall provide for such user fees, lease payments, or service payments as may be established from time to time by agreement of the parties. A copy of any service

contract shall be filed with the responsible public entity. In negotiating user fees under this section, the parties shall establish payments or fees that are the same for persons using the facility under like conditions and that will not materially discourage use of the qualifying project. The execution of the comprehensive agreement or any amendment thereto shall constitute conclusive evidence that the user fees, lease payments, or service payments provided for comply with this chapter. User fees or lease payments established in the comprehensive agreement as a source of revenues may be in addition to, or in lieu of, service payments.

C. In the comprehensive agreement, the responsible public entity may agree to make grants or loans to the operator from time to time from amounts received from the federal, state, or local government or any agency or instrumentality thereof.

D. The comprehensive agreement shall incorporate the duties of the operator under this chapter and may contain such other terms and conditions that the responsible public entity determines serve the public purpose of this chapter. Without limitation, the comprehensive agreement may contain provisions under which the responsible public entity agrees to provide notice of default and cure rights for the benefit of the operator and the persons specified therein as providing financing for the qualifying project. The comprehensive agreement may contain such other lawful terms and conditions to which the operator and the responsible public entity mutually agree, including, without limitation, provisions regarding unavoidable delays or provisions providing for a loan of public funds to the operator to acquire, design, construct, improve, renovate, expand, equip, maintain or operate one or more qualifying projects. The comprehensive agreement may also contain provisions where the authority and duties of the operator under this chapter shall cease, and the qualifying project is dedicated to the responsible public entity or, if the qualifying project was initially dedicated by an affected local jurisdiction, to such affected local jurisdiction for public use.

E. Any changes in the terms of the comprehensive agreement, as may be agreed upon by the parties from time to time, shall be added to the comprehensive agreement by written amendment.

F. When a responsible public entity that is not an agency or authority of the Commonwealth enters into a comprehensive agreement pursuant to this chapter, it shall within thirty days thereafter submit a copy of the comprehensive agreement to the Auditor of Public Accounts.

§ 56-575.10. Federal, state and local assistance.

The responsible public entity may take any action to obtain federal, state, or local assistance for a qualifying project that serves the public purpose of this chapter and may enter into any contracts required to receive such assistance. If the responsible public entity is a state agency, any funds received from the state or federal government or any agency or instrumentality thereof shall be subject to appropriation by the General Assembly. The responsible public entity may determine that it serves the public purpose of this chapter for all or any portion of the costs of a qualifying project to be paid, directly or indirectly, from the proceeds of a grant or loan made by the local, state, or federal government or any agency or instrumentality thereof.

§ 56-575.11. Material default; remedies.

A. In the event of a material default by the operator, the responsible public entity may elect to assume the responsibilities and duties of the operator of the qualifying project, and in such case, it shall succeed to all of the right, title and interest in such qualifying project, subject to any liens on revenues previously granted by the operator to any person providing financing thereof.

B. Any responsible public entity having the power of condemnation under state law may exercise such power of condemnation to acquire the qualifying project in the event of a material default by the operator. Any person who has provided financing for the qualifying project, and the operator, to the extent of its capital investment, may participate in the condemnation proceedings with the standing of a property owner.

C. The responsible public entity may terminate, with cause, the comprehensive agreement and exercise any other rights and remedies that may be available to it at law or in equity.

D. The responsible public entity may make or cause to be made any appropriate claims under the maintenance, performance, or payment bonds; or lines of credit required by subsection A 1 of § 56-575.9.

E. In the event the responsible public entity elects to take over a qualifying project pursuant to subsection A, the responsible public entity may acquire, design, construct, improve, renovate, operate, expand, equip, or maintain the qualifying project, impose user fees, impose and collect lease payments for the use thereof and comply with any service contracts as if it were the operator. Any revenues that are subject to a lien shall be collected for the benefit of and paid to secured parties, as their interests may appear, to the extent necessary to satisfy the operator's obligations to secured parties, including the maintenance of reserves. Such liens shall be correspondingly reduced and, when paid off, released. Before any payments to, or for the benefit of, secured parties, the responsible public entity may use revenues to pay current operation and maintenance costs of the qualifying project, including

compensation to the responsible public entity for its services in operating and maintaining the qualifying project. The right to receive such payment, if any, shall be considered just compensation for the qualifying project. The full faith and credit of the responsible public entity shall not be pledged to secure any financing of the operator by the election to take over the qualifying project. Assumption of operation of the qualifying project shall not obligate the responsible public entity to pay any obligation of the operator from sources other than revenues.

§ 56-575.12. Condemnation.

At the request of the operator, the responsible public entity may exercise any power of condemnation that it has under law for the purpose of acquiring any lands or estates or interests therein to the extent that the responsible public entity finds that such action serves the public purpose of this chapter. Any amounts to be paid in any such condemnation proceeding shall be paid by the operator.

§ 56-575.13. Utility crossing.

The operator and each public service company, public utility, railroad, and cable television provider, whose facilities are to be crossed or affected shall cooperate fully with the other entity in planning and arranging the manner of the crossing or relocation of the facilities. Any such entity possessing the power of condemnation is hereby expressly granted such powers in connection with the moving or relocation of facilities to be crossed by the qualifying project or that must be relocated to the extent that such moving or relocation is made necessary or desirable by construction of, renovation to, or improvements to the qualifying project, which shall be construed to include construction of, renovation to, or improvements to temporary facilities for the purpose of providing service during the period of construction or improvement. Any amount to be paid for such crossing, construction, moving or relocating of facilities shall be paid for by the operator. Should the operator and any such public service company, public utility, railroad, and cable television provider not be able to agree upon a plan for the crossing or relocation, the Commission may determine the manner in which the crossing or relocation is to be accomplished and any damages due arising out of the crossing or relocation. The Commission may employ expert engineers who shall examine the location and plans for such crossing or relocation, hear any objections and consider modifications, and make a recommendation to the Commission. In such a case, the cost of the experts is to be borne by the operator. Such determination shall be made by the Commission within ninety days of notification by the private entity that the qualifying project will cross utilities subject to the Commission's jurisdiction.

§ 56-575.14. Police powers; violations of law.

All police officers of the Commonwealth and of each affected local jurisdiction shall have the same powers and jurisdiction within the limits of such qualifying project as they have in their respective areas of jurisdiction and such police officers shall have access to the qualifying project at any time for the purpose of exercising such powers and jurisdiction.

§ 56-575.15. Sovereign immunity.

Nothing in this chapter shall be construed as or deemed a waiver of the sovereign immunity of the Commonwealth, any responsible public entity or any affected local jurisdiction or any officer or employee thereof with respect to the participation in, or approval of all or any part of the qualifying project or its operation, including but not limited to interconnection of the qualifying project with any other infrastructure or project. Counties, cities and towns in which a qualifying project is located shall possess sovereign immunity with respect to its design, construction, and operation.

§ 56-575.16. Procurement.

The Virginia Public Procurement Act (§ 2.2-4300 et seq.) and any interpretations, regulations, or guidelines of the Division of Engineering and Buildings of the Department of General Services, including the Capital Outlay Manual and those interpretations, regulations or guidelines developed pursuant to §§ 2.2-1131, 2.2-1132, 2.2-1133, 2.2-1149, and 2.2-1502, except those developed by the Division in accordance with this chapter when the Commonwealth is the responsible public entity, shall not apply to this chapter. However, a responsible public entity may enter into a comprehensive agreement only in accordance with procedures adopted by it as follows:

1. A responsible public entity may enter into a comprehensive agreement in accordance with procedures adopted by it that are consistent with procurement through competitive sealed bidding as defined in § 2.2-4301 and subsection B of § 2.2-4310.

2. A responsible public entity may enter into a comprehensive agreement in accordance with procedures adopted by it that are consistent with the procurement of "other than professional services" through competitive negotiation as defined in § 2.2-4301 and subsection B of § 2.2-4310. Such responsible public entity shall not be required to select the proposal with the lowest price offer, but may consider price as one factor in evaluating the proposals received. A responsible public entity shall proceed in accordance with the procedures adopted by it pursuant to subdivision 1 unless it determines that proceeding in accordance with the procedures adopted by it pursuant to this subdivision is likely to be advantageous to the responsible public entity and the public, based on (i) the probable scope,

complexity or urgency of the project, or (ii) risk sharing, added value, an increase in funding or economic benefit from the project that would not otherwise be available. When the responsible public entity determines to proceed according to the procedures adopted by it pursuant to this subdivision, it shall state the reasons for its determination in writing. If a state agency is the responsible public entity, the approval of the responsible Governor's Secretary, or the Governor, shall be required before the responsible public entity may enter into a comprehensive agreement pursuant to this subdivision.

3. Nothing in this chapter shall authorize or require that a responsible public entity obtain professional services through any process except in accordance with procedures adopted by it that are consistent with the procurement of "professional services" through competitive negotiation as defined in § 2.2-4301 and subsection B of § 2.2-4310.

4. A responsible public entity shall not proceed to consider any request by a private entity for approval of a qualifying project pursuant to subsection A of § 56-575.4 until the responsible public entity has adopted and made publicly available procedures that are sufficient to enable the responsible public entity to comply with this chapter. Such procedures shall include provision for the posting and publishing of public notice of a private entity's request for approval of a qualifying project pursuant to subsection A of § 56-575.4 and a reasonable time period, to be no less than forty-five days, during which the responsible public entity will receive competing proposals pursuant to that subsection.

5. A responsible public entity that is a school board or a county, city or town may enter into a comprehensive agreement under this chapter only with the approval of the local governing body.

**2. That it is the intent of the General Assembly that the Governor and the chairs of the General Laws Committees of the Senate and House of Delegates, or their respective designees, will facilitate the development of model procedures to assist in the implementation of this act, that public entities and private sector businesses, including but not limited to construction management firms, contractors, and design professionals, will be consulted in the development of such procedures, and that such model procedures will be completed and made available to public entities covered by this act not later than September 30, 2002.**

**3. That it is the intent of the General Assembly that the Auditor of Public Accounts periodically review the comprehensive agreements approved under this chapter for compliance with this chapter.**
