[S 938]

7 Be it enacted by the General Assembly of Virginia:

8 1. That § 2.2-4301 of the Code of Virginia is amended and reenacted, and that the Code of 9 Virginia is amended by adding a section numbered 2.2-4321.1 as follows: 10

§ 2.2-4301. Definitions. As used in this chapter:

11 "Affiliate" means an individual or business that controls, is controlled by, or is under common 12 13 control with another individual or business. A person controls an entity if the person owns, directly or indirectly, more than 10 percent of the voting securities of the entity. For the purposes of this definition 14 15 "voting security" means a security that (i) confers upon the holder the right to vote for the election of members of the board of directors or similar governing body of the business or (ii) is convertible into, 16 17 or entitles the holder to receive, upon its exercise, a security that confers such a right to vote. A general 18 partnership interest shall be deemed to be a voting security.

19 "Best value," as predetermined in the solicitation, means the overall combination of quality, price, 20 and various elements of required services that in total are optimal relative to a public body's needs.

21 "Business" means any type of corporation, partnership, limited liability company, association, or sole 22 proprietorship operated for profit. 23

"Competitive negotiation" is a method of contractor selection that includes the following elements:

24 1. Issuance of a written Request for Proposal indicating in general terms that which is sought to be 25 procured, specifying the factors that will be used in evaluating the proposal and containing or 26 incorporating by reference the other applicable contractual terms and conditions, including any unique 27 capabilities or qualifications that will be required of the contractor.

28 2. Public notice of the Request for Proposal at least ten 10 days prior to the date set for receipt of 29 proposals by posting in a public area normally used for posting of public notices and by publication in a 30 newspaper or newspapers of general circulation in the area in which the contract is to be performed so 31 as to provide reasonable notice to the maximum number of offerors that can be reasonably anticipated to 32 submit proposals in response to the particular request. Public notice may also be published on the 33 Department of General Services' central electronic procurement website and other appropriate websites. 34 Effective July 1, 2002, publishing by state agencies, departments and institutions on the public Internet 35 procurement website designated by the Department of General Services shall be required. In addition, proposals may be solicited directly from potential contractors. 36

37 3. a. Procurement of professional services. The public body shall engage in individual discussions 38 with two or more offerors deemed fully qualified, responsible and suitable on the basis of initial 39 responses and with emphasis on professional competence, to provide the required services. Repetitive 40 informal interviews shall be permissible. The offerors shall be encouraged to elaborate on their 41 qualifications and performance data or staff expertise pertinent to the proposed project, as well as 42 alternative concepts. The Request for Proposal shall not, however, request that offerors furnish estimates 43 of man-hours or cost for services. At the discussion stage, the public body may discuss nonbinding 44 estimates of total project costs, including, but not limited to, life-cycle costing, and where appropriate, 45 nonbinding estimates of price for services. Proprietary information from competing offerors shall not be disclosed to the public or to competitors. At the conclusion of discussion, outlined in this subdivision, 46 47 on the basis of evaluation factors published in the Request for Proposal and all information developed in the selection process to this point, the public body shall select in the order of preference two or more 48 49 offerors whose professional qualifications and proposed services are deemed most meritorious. 50 Negotiations shall then be conducted, beginning with the offeror ranked first. If a contract satisfactory and advantageous to the public body can be negotiated at a price considered fair and reasonable, the 51 award shall be made to that offeror. Otherwise, negotiations with the offeror ranked first shall be 52 53 formally terminated and negotiations conducted with the offeror ranked second, and so on until such a 54 contract can be negotiated at a fair and reasonable price. Should the public body determine in writing 55 and in its sole discretion that only one offeror is fully qualified, or that one offeror is clearly more 56 highly qualified and suitable than the others under consideration, a contract may be negotiated and

57 awarded to that offeror.

58 A contract for architectural or professional engineering services relating to construction projects may 59 be negotiated by a public body, for multiple projects provided (i) the projects require similar experience 60 and expertise, (ii) the nature of the projects is clearly identified in the Request for Proposal, and (iii) the 61 contract term is limited to one year or when the cumulative total project fees reach the maximum cost 62 authorized in this paragraph, whichever occurs first. Such contract may be renewable for two additional 63 one-year terms at the option of the public body. Under such contract, (a) the fair and reasonable prices, 64 as negotiated, shall be used in determining the cost of each project performed, (b) the sum of all projects performed in one contract term shall not exceed \$500,000 or, in the case of a state agency, as 65 66 defined in § 2.2-4347, such lesser amount as may be determined by the Director of the Department of General Services, except that in any locality or any authority or sanitation district with a population in 67 excess of 80,000, the sum of all such projects shall not exceed one \$1 million dollars; and (c) the 68 project fee of any single project shall not exceed \$100,000 or, in the case of a state agency, such lesser 69 70 amount as may be determined by the Director of the Department of General Services, except that in any 71 locality or any authority or sanitation district with a population in excess of 80,000, such fee shall not 72 exceed \$200,000. Any unused amounts from the first contract term shall not be carried forward to the 73 additional term. Competitive negotiations for such contracts may result in awards to more than one 74 offeror provided (1) the Request for Proposal so states and (2) the public body has established 75 procedures for distributing multiple projects among the selected contractors during the contract term.

76 Multiphase professional services contracts satisfactory and advantageous to the Department of 77 Transportation for environmental, location, design and inspection work regarding highways and bridges 78 may be negotiated and awarded based on a fair and reasonable price for the first phase only, when 79 completion of the earlier phases is necessary to provide information critical to the negotiation of a fair 80 and reasonable price for succeeding phases.

81 b. Procurement of other than professional services. Selection shall be made of two or more offerors 82 deemed to be fully qualified and best suited among those submitting proposals, on the basis of the factors involved in the Request for Proposal, including price if so stated in the Request for Proposal. 83 84 Negotiations shall then be conducted with each of the offerors so selected. Price shall be considered, but 85 need not be the sole determining factor. After negotiations have been conducted with each offeror so selected, the public body shall select the offeror which, in its opinion, has made the best proposal, and 86 shall award the contract to that offeror. When the terms and conditions of multiple awards are so 87 88 provided in the Request for Proposal, awards may be made to more than one offeror. Should the public 89 body determine in writing and in its sole discretion that only one offeror is fully qualified, or that one 90 offeror is clearly more highly qualified than the others under consideration, a contract may be negotiated 91 and awarded to that offeror.

92 "Competitive sealed bidding" is a method of contractor selection, other than for professional services, 93 which includes the following elements:

94 1. Issuance of a written Invitation to Bid containing or incorporating by reference the specifications 95 and contractual terms and conditions applicable to the procurement. Unless the public body has provided 96 for prequalification of bidders, the Invitation to Bid shall include a statement of any requisite 97 qualifications of potential contractors. When it is impractical to prepare initially a purchase description 98 to support an award based on prices, an Invitation to Bid may be issued requesting the submission of 99 unpriced offers to be followed by an Invitation to Bid limited to those bidders whose offers have been 100 qualified under the criteria set forth in the first solicitation.

101 2. Public notice of the Invitation to Bid at least ten 10 days prior to the date set for receipt of bids 102 by posting in a designated public area, or publication in a newspaper of general circulation, or both. Public notice may also be published on the Department of General Services' central electronic 103 104 procurement website and other appropriate websites. Effective July 1, 2002, posting by state agencies, 105 departments and institutions on the public Internet procurement website designated by the Department of General Services shall be required. In addition, bids may be solicited directly from potential contractors. 106 107 Any additional solicitations shall include businesses selected from a list made available by the 108 Department of Minority Business Enterprise. 109

3. Public opening and announcement of all bids received.

110 4. Evaluation of bids based upon the requirements set forth in the invitation, which may include special qualifications of potential contractors, life-cycle costing, value analysis, and any other criteria 111 112 such as inspection, testing, quality, workmanship, delivery, and suitability for a particular purpose, which 113 are helpful in determining acceptability.

114 5. Award to the lowest responsive and responsible bidder. When the terms and conditions of multiple 115 awards are so provided in the Invitation to Bid, awards may be made to more than one bidder.

116 "Construction" means building, altering, repairing, improving or demolishing any structure, building 117 or highway, and any draining, dredging, excavation, grading or similar work upon real property.
