This waiver will provide for a fiscal agent to handle tax issues and payment of personal attendants on the part of recipients. In addition, the waiver application will provide recipients with flexible choices and personal independence insofar as possible and will include provisions for family members to deliver the covered services when consistent with and not prohibited by federal law and regulation. Once the application has been approved by CMS, DMAS will promulgate emergency regulations to implement this waiver program. In order to save funding, the agency may employ the electronic media as much as possible during the promulgation of the regulations. However, it must continue to provide public notice and participation to those individuals who do not have access to the Internet or other forms of electronic media.
