§ 15.2-6300. Declaration of policy for authorities created by the Governor.

This legislation is enacted to provide for the acquisition by political subdivisions of areas which have been or may hereafter be occupied as United States government military installations and which are disposed of by the United States government. The industrial and economic development of localities included in or adjacent to such military installations and the tax revenues of the Commonwealth will be seriously affected by the manner in which such areas are returned to nonmilitary uses and to the tax rolls, no provision having been made therefor. The proper development of such areas industrially and otherwise is required so that local governments may derive revenues with which to render necessary services to their citizens and so that industrial development; job creation; and housing, recreational, commercial, educational and other economic and social development may be fostered and stimulated to prevent the creation of blighted areas in the Commonwealth with resultant injury to all. The creation by this chapter and operation of such authorities hereunder pursuant to this chapter are governmental functions of the gravest concern to the Commonwealth and the need for this enactment being a matter of legislative policy such need is hereby declared as a matter of legislative determination.

§ 15.2-6300.1. Declaration of policy for authorities created by a locality.

It is further found and declared that: It being the policy of the federal government to promote the development of federal employee housing, including military housing, office buildings and other infrastructure through partnerships with private and governmental entities, the purpose of such transactions being to help the federal government get needed infrastructure in place more quickly, and to increase the value of its installations, the creation and operation of the authorities by a locality and the granting to such an authority of the powers set forth under this chapter are necessary for the public welfare, to enable more efficient cooperation with the federal government, and to increase the value of federal installations in the Commonwealth.
