2. Patron Callahan

3. Committee Appropriations

4. Title Public Building Authority; authorized to issue bonds for water treatment.

5. Summary/Purpose: Authorizes the Virginia Public Building Authority (VPBA) to issue bonds in an amount not to exceed \$250 million for grants to be used solely for the purpose of funding the installation of nutrient removal technologies at specified publicly owned sewage treatment plants to implement the Commonwealth's Chesapeake Bay Tributary Strategies.

6. Fiscal Impact Estimates are: Preliminary. See item 8, below.

7. Budget amendment necessary: No.

8. Fiscal implications: The proposed legislation authorizes VPBA to issue revenue bonds in an amount not to exceed \$250 million, plus amounts needed to fund costs and other financing expenses, including interest for up to one year after completion. The bonds will be used to finance Water Quality Improvement Grants to certain publicly owned sewage treatment facilities to fund a portion of the costs of acquisition, design, construction, installation, equipping, improvement or renovating of the 89 projects listed in the bill. The purpose of the projects is to install technologies in the listed treatment facilities that will allow the facilities to achieve significant additional reductions of nitrogen and phosphorus in order to restore and improve the Chesapeake Bay and its tributaries and to protect the Bay from further impairment, all for the benefit of the citizens of the Commonwealth. The bonds are intended to provide a secure and reliable source of future funds to aid in the upgrading of sewage treatment facilities to meet the nutrient reduction goals set forth in the Chesapeake Bay Agreement and improve water quality throughout Virginia's portion of the Chesapeake Bay watershed.

Grants will be administered by the Department of Environmental Quality under the Virginia Water Quality Improvement Grant program.

The bonds authorized by this bill will constitute tax-supported debt of the Commonwealth and as such have an impact on the Commonwealth's debt capacity. Language in the bill provides for the issuance of these bonds contingent upon the appropriation and deposit of the \$200 million from the general fund specified in Item 364 B.1. of Chapter 3 of the 2006 Acts of Assembly, Special Session 1 and specifies that no bonds authorized in this bill will be issued prior to July 1, 2008.

Assuming all of the bonds authorized were issued at the same time at an interest rate of 4.9 percent, annual debt service would be approximately \$20 million.

- 9.
