4. Title Hunting fees for nonresidents.

5. Summary/Purpose: Hunting fees for nonresidents. Requires the Board of Game and Inland Fisheries to increase or decrease the hunting license fees for nonresidents to up to \$100 every three years.

6. Fiscal Impact Estimates are: Indeterminate. See item 8, below.

7. Budget amendment necessary: No.

8. Fiscal implications: The Board of Game and Inland Fisheries is currently authorized to increase or decrease hunting license fees by \$5 every three years. The bill would allow the Board to increase or decrease hunting license fees for nonresidents to up to \$100 every three years. The license fee charged to nonresidents could increase by up to \$95. Any revenue collected from the increased assessment would be deposited to the Game Protection Fund.

All hunting, fishing, and trapping fees were increased \$5, effective July 1, 2006. The earliest point at which the fees could be increased again would be July 1, 2009, or in FY 2010. The Department of Game and Inland Fisheries estimates that 79,721 nonresident licenses will be sold in 2010. If the Board authorizes an increase of \$95 in the nonresident license fee, the maximum increase permitted by the proposed legislation, the revenue impact could be \$7.6 million. The revenue impact would depend on the amount by which the Board increases the fee; it could range from zero, if the fee remains at its current level, to \$7.6 million, if it is increased to the maximum permitted by the bill.

9. Specific agency or political subdivisions affected: Department of Game and Inland Fisheries.

10. Technical amendment necessary: No.

11. Other comments: HB 2018 also adjusts the amount by which the Board may increase hunting license fees for nonresidents.
