7. Budget Amendment Necessary: Yes, to Item 103 to appropriate the additional revenue.

8. Fiscal Implications: The Department of Forestry receives revenues from counties and certain municipalities for forest protection, forest fire detection, forest fire prevention and forest fire suppression. The counties and certain cities pay the agency, upon billing and proper documentation, an amount equal to five cents per acre for each acre protected. The last change to the cost occurred in 1988, or 20 years prior. The additional four cents per acre would generate an additional \$520,000 in nongeneral fund revenue per year for the department.

The additional revenue will need to be appropriated in order for the agency to expend the funds; therefore, a budget amendment is necessary.

9. Specific Agency or Political Subdivisions Affected: Department of Forestry, localities.

10. Technical Amendment Necessary: No.

11. Other Comments: None.
