5. Summary: Specifies a procedure for resolving situations when, with regard to the measures necessary to ensure the medical suitability of an organ, there is a conflict between an advanced health care directive or similar declaration and the express or implied terms of an anatomical gift. The bill also repeals a section that was inadvertently not repealed when the prior act was repealed in 2007 and makes some clarifying changes. The 2007 General Assembly repealed the Uniform Anatomical Gift Act and enacted the Revised Uniform Anatomical Gift Act.

6. Fiscal Impact Estimates: No fiscal impact.

7. Budget Amendment Necessary: No.

8. Fiscal Implications: No.

9. Specific Agency or Political Subdivisions Affected: Virginia Department of Health

10. Technical Amendment Necessary: No.

11. Other Comments: Legislation provides specific language detailing how to resolve a conflict between an advanced health care director or similar declaration and the express or implied terms of an anatomical gift; as well as determining who may act on the donor's behalf if the donor is incapable of the resolving the conflict. The resolution of any conflict regarding an anatomical gift would not have a fiscal impact upon the agency.
