9. Specific Agency or Political Subdivisions Affected: College of William and Mary and Virginia Polytechnic Institute and State University

10. Technical Amendment Necessary: No.

11. Other Comments: This proposed legislation is similar to that passed during the 2007 Session for the University of Virginia (UVA) (Chapter 434). While restructuring provides CWM and VPISU with authority to invest their funds, these institutions are currently limited to invest public funds to fixed-income instruments and cash. As in the case with UVA, granting similar authority to CWM and VPISU to create an investment strategy for these additional funds will permit the institutions to implement one that will improve investment returns and enhance their liquidity position. Furthermore, this proposed legislation will allow the institutions to more effectively manage the risk of their investments with the goal of increasing earnings.

Unlike the UVA legislation, this proposed legislation does not include language prohibiting CWM and VPISU from investing revenue from tuition and educational fees that are required for the day-to-day operations of the institutions in other than cash accounts and fixed income securities.
