Prefiled January 13, 2010

A BILL to amend the Code of Virginia by adding in Title 67 a chapter numbered 12, consisting of sections numbered 67-1200 through 67-1214, relating to the Virginia Offshore Wind Development Authority.

Patrons—McEachin and Wagner

Referred to Committee on Commerce and Labor

Whereas, the General Assembly declares that there exists a need to facilitate and coordinate efforts to develop offshore wind energy projects; and

Whereas, the General Assembly declares that the siting of large-scale offshore wind energy projects could provide clean, reliable electric energy to the coastal population centers of the Commonwealth; and

Whereas, the General Assembly declares that the development of the offshore wind energy industry would promote the creation of industry-related jobs in the manufacturing and service sectors; and

Whereas, the General Assembly declares that the development of offshore wind energy projects is consistent with the Commonwealth's energy objectives enumerated in § 67-101 of the Code of Virginia and furthers the Commonwealth Energy Policy set out in § 67-102 of the Code of Virginia; and

Whereas, the General Assembly determines that the creation of an authority for this purpose is in the public interest, serves a public purpose, and will promote the health, safety, welfare, convenience, and prosperity of the people of the Commonwealth; now, therefore

Be it enacted by the General Assembly of Virginia:

1. That the Code of Virginia is amended by adding in Title 67 a chapter numbered 12, consisting of sections numbered 67-1200 through 67-1214, as follows:

CHAPTER 12.

VIRGINIA OFFSHORE WIND DEVELOPMENT AUTHORITY.

§ 67-1200. Definitions.

As used in this chapter, unless the context requires another meaning:

"Authority" means the Virginia Offshore Wind Development Authority created pursuant to this chapter.

"Bonds" means Virginia Power Development Bonds authorized pursuant to this chapter.

"Commission" means the State Corporation Commission.

"Developer" means any private developer of offshore wind energy projects.

"Offshore wind energy project" means a wind-powered electric energy facility, including tower, turbine, and associated equipment, located off the coast of the Commonwealth beyond the Commonwealth's three-mile jurisdictional limit, and includes interests in land, improvements, and ancillary facilities, including substations and transmission lines.

§ 67-1201. Authority created; purpose.

The Authority is established for the purposes of facilitating, coordinating, and supporting the development, either by the Authority or by other qualified entities, of the offshore wind industry and offshore wind energy projects by collecting relevant metocean data, by identifying existing state and regulatory or administrative barriers to the development of the offshore wind industry, by upgrading port facilities to accommodate the manufacturing and assembly of offshore wind energy project components and vessels that will support the construction and operations of offshore wind energy projects, by developing, constructing and operating interconnection facilities on the Virginia shoreline that will accommodate multiple offshore wind energy projects, and ensuring that the development of such projects does not interfere with naval facilities and operations off the coast of the Commonwealth. The Authority shall, in cooperation with the state and local economic development authorities and the Secretary of Commerce and Trade, develop the offshore wind energy industry. The Authority shall also consult with research institutions, businesses, nonprofit organizations, and stakeholders as the Authority deems appropriate.

The Authority shall have only those powers enumerated in this chapter.
