A. From revenues made available by the General Assembly ~~after January 1, 2008,~~ and appropriated for the improvement, construction, or reconstruction of the systems of state highways, the Commonwealth Transportation Board ~~shall~~ *may* make an equivalent matching allocation to any county, city, or town for designations by the governing body of up to ~~\$1 \$10 million in county, city, or town general funds~~ for use by the county, city, or town to improve, construct, or reconstruct the highway systems within such county, city, or town. After adopting a resolution supporting the action, the governing body may request revenue-sharing funds to improve, construct, or reconstruct a highway system located in another locality, between two or more localities, or to bring subdivision streets, used as such prior to ~~July 1, 1992~~ *the date specified in § 33.1-72.1*, up to standards sufficient to qualify them for inclusion in the state primary and secondary system of highways. All requests for funding shall be accompanied by a prioritized listing of specified projects.

B. The allocation of funds to localities shall be only for the purposes set forth in subsection A. In allocating funds under this section, the Board shall give priority (i) ~~first when such project is administered by the county, city, or town, either directly or by contract with another entity,~~ (ii) ~~second, when such county, city, or town commits more local funding than the amount of revenue-sharing funding requested,~~ and (iii) ~~third when the allocation will accelerate an existing project in the Six-Year Improvement Program or the locality's capital plans.~~ Any funds remaining may be applied to any other project that requires an equivalent matching allocation from the governing body ~~to allocations that will accelerate projects in the Commonwealth Transportation Six-Year Improvement Program or the locality's capital plan.~~

C. The Department will contract with the county, city, or town for the implementation of the project or projects. Such contract may cover either a single project or may provide for the locality's implementation of several projects during the fiscal year. The county, city, or town will undertake implementation of the particular project or projects by obtaining the necessary permits from the Department of Transportation in order to ensure that the improvement is consistent with the Department's standards for such improvements. At the request of the locality, the Department may provide the locality with engineering, right-of-way acquisition, and/or construction services for a project with its own forces. The locality shall provide payment to the Department for any such services. If administered by the Department, such contract shall also require that the governing body pay to the Department within 30 days the local revenue-sharing funds ~~from its general fund~~ upon written notice by the Department of its intent to proceed. Any project having funds allocated under this program shall be initiated in such a fashion where at least a portion of such funds have been expended within two subsequent fiscal years of allocation. Any revenue-sharing funds for projects not initiated after two subsequent fiscal years of allocation may be reallocated at the discretion of the Commonwealth Transportation Board.

D. Total Commonwealth funds allocated by the Board under this section shall not exceed ~~\$50~~ *\$200* million in any one fiscal year and no less than \$15 million each fiscal year, subject to appropriation for such purpose.

E. ~~No more than three months prior to the end of any fiscal year in which less than the full program allocation has been allocated by the Board to specific governing bodies, those localities requesting the maximum allocation under subsection A may be allowed an additional allocation~~ *The funds allocated by the Commonwealth Transportation Board under this section shall be distributed and administered in*

*accordance with the revenue-sharing program guidelines established by the Board.*

3. The remaining amount of bond proceeds shall be used for paying the costs incurred or to be incurred for construction of transportation projects with such bond proceeds used or allocated as follows: ~~(a)~~ *(i)* first, to match federal highway funds projected to be made available and allocated to highway and public transportation capital projects *to the extent determined* by the Commonwealth Transportation Board, for purposes of allowing additional state construction funds to be allocated to the primary, urban, and secondary systems of highways pursuant to subdivisions B 1, B 2, and B 3 of § 33.1-23.1; ~~(b)~~ *(ii)* next, to provide any required funding to fulfill the Commonwealth's allocation of equivalent revenue sharing matching funds pursuant to § 33.1-23.05 *to the extent determined by the Commonwealth Transportation Board*; and ~~(c)~~ *(iii)* third, to pay or fund the costs of statewide or regional projects throughout the Commonwealth. The Bank shall be established on the books of the Comptroller. The Bank shall be capitalized with moneys appropriated by the General Assembly and credited to the Bank. Disbursements from the Bank shall be made by the State Treasurer on warrants issued by the Comptroller upon written request signed by the Commonwealth Transportation Commissioner or his or her designee. Payments on project obligations and interest earned on the moneys in the Bank shall be credited to the Bank. Any moneys remaining in the Bank, including interest thereon, at the end of each fiscal year shall not revert to the general fund but shall remain in the Bank. Notwithstanding anything to the contrary set forth in this article or in the management agreement, the Board will have the right to determine the projects for which loans or other financial assistance may be provided by the Bank. Moneys in the Bank shall be used solely for the purposes enumerated in subsections C and D.

B. The Board, the Manager and the Secretary of Finance are authorized to enter into a management agreement which may include provisions (i) setting forth the terms and conditions under which the Manager will advise the Board on the financial propriety of providing particular loans or other financial assistance, (ii) setting forth the terms and conditions under which the substantive requirements of subsections C through F and § 33.1-23.11 will be applied and administered, and (iii) authorizing the Manager to request the Board to disburse from the moneys in the Bank, the reasonable costs and expenses the Manager may incur in the management and administration of the Bank and a reasonable fee to be approved by the Board for the Manager's management and administrative services.

C. 1. Moneys deposited in the Bank shall be used for the purpose of making loans and other financial assistance to finance projects.

2. Each project obligation shall be payable, in whole or in part, from reliable repayment sources pledged for such purpose.

3. The interest rate on a project obligation shall be determined by reference to the current market rates for comparable obligations, the nature of the project and the financing structure therefor, and the creditworthiness of the Eligible Borrower and other Project Sponsors.

4. The repayment schedule for each project obligation shall require (i) the amortization of principal beginning within five years following the later of substantial project completion or the date of incurrence of the project obligation and (ii) a final maturity date of not more than 35 years following substantial project completion.

D. A portion not to exceed 20 percent of the capitalization of the Bank may be used for grants to Governmental Entities to finance projects.

E. The pledge of reliable repayment sources and other property securing any project obligation may be subordinate to the pledge securing any other senior debt obligations incurred to finance the project.

F. Notwithstanding subdivision C 4, the Manager may at any time following substantial project completion defer payments on a project obligation if the project is unable to generate sufficient revenues to pay the scheduled payments.

G. No loan or other financial assistance may be provided or committed to be provided by the Bank in a manner that would cause such loan or other financial assistance to be tax-supported debt within the meaning of § 2.2-2713 or be deemed to constitute a debt of the Commonwealth of Virginia or a pledge of the full faith and credit of the Commonwealth but shall be payable solely from legally available moneys held by the Bank.

H. Neither the Bank nor the Manager is authorized or empowered to be or to constitute a bank or trust company within the jurisdiction or under the control of the Commonwealth or an agency thereof or the Comptroller of Currency of the U.S. Treasury Department; or a bank, banker, or dealer in securities within the meaning of, or subject to the provisions of, any securities, securities exchange, or securities dealers law of the United States or of the Commonwealth.

C. Any Governmental Entity applying for a grant must demonstrate, among other things as determined by the Manager, that the project cannot be financed on reasonable terms or would otherwise be financially infeasible without the grant.

D. All applicants for a loan or other financial assistance (other than a grant) must file an application with the Board, which must include all items determined by the Board in consultation with the Manager to be necessary and appropriate for the Board to determine whether or not to approve the loan, including the availability of reliable repayment sources to retire the project obligation as well as creditworthiness.

E. Each applicant for a loan or other financial assistance must demonstrate that the project is of local, regional or statewide significance, and it meets the goal of generating economic benefits, improving air quality, reducing congestion, and/or improving safety through enhancement of the state transportation network. Another criterion to be considered is whether or not the loan or other financial assistance will enable the project to be completed at an earlier date than otherwise feasible. The Board shall issue guidelines for scoring projects in accordance with the criteria set out in this subsection and any other criteria deemed necessary and appropriate for evaluating projects as determined by the Board in consultation with the Manager and shall apply the scoring guidelines to each proposed project. Further, the Board shall promptly publish each proposed project and its score using the scoring guidelines.

F. All projects for which a loan or other financial assistance is provided must meet and remain in compliance with the policies and guidelines established by the Board and the Manager.

The Board may make grants of money or property to the Bank for the purpose of enabling it to carry out its corporate purposes and for the exercise of its powers. This section shall not be construed to limit any other power the Board may have to make grants to the Bank.

#### *§ 33.1-23.11. Project Obligations.*

A. Subject to the terms determined by the Manager in accordance with the management agreement, each loan or other financial assistance (which for purposes of this section shall not include grants) shall be evidenced or guaranteed by project obligations provided to finance the costs of any project. The

Manager may also sell any project obligations so acquired and apply the proceeds of such a sale to the making of additional loans and the provision of other financial assistance for financing the cost of any project or for any other corporate purpose of the Bank.

B. The Manager may require, as a condition to provision of a loan or other financial assistance and the acquisition of any project obligations, that the Eligible Borrower or any other Project Sponsor covenant to perform any of the following:

1. Establish and collect tolls, rents, rates, fees, and other charges to produce revenue sufficient to pay all or a specified portion of (i) the costs of operation, maintenance, replacement, renewal, and repairs of the project; (ii) any outstanding indebtedness incurred for the purposes of the project, including the principal of and premium, if any, and interest on the project obligations; and (iii) any amounts necessary to create and maintain any required reserve, including any rate stabilization fund deemed necessary or appropriate by the Manager to offset the need, in whole or part, for future increases in tolls, rents, rates, fees, or charges;

2. Create and maintain a special fund or funds as security for or the source of the scheduled payments on the project obligations or for the operation, maintenance, repair, or replacement of the project or any portions thereof or other property of the Eligible Borrower or any other Project Sponsor, and deposit into any fund or funds amounts sufficient to make any payments as they become due and payable;

3. Create and maintain other special funds as required by the Manager; and

4. Perform other acts, including the conveyance or mortgaging of real and personal property together with all right, title and interest therein to secure project obligations, or take other actions as may be deemed necessary or desirable by the Manager to secure payment of the project obligations and to provide for remedies in the event of any default or nonpayment by the Eligible Borrower or any other Project Sponsor, including, without limitation, any of the following:

- c. The payment of such fees and charges in connection with the acquisition of the project obligations as may be determined by the Manager.

C. All Eligible Borrowers and other Project Sponsors, including any Governmental Entities, providing project obligations to the Bank are authorized to perform any acts, take any action, adopt any proceedings and make and carry out any contracts with the Bank, the Manager, or the Board that are contemplated by this article. Such contracts need not be identical among all Eligible Borrowers or other Project Sponsors, but may be structured as determined by the Manager according to the needs of the contracting Eligible Borrowers and other Project Sponsors and the purposes of the Bank.

In addition, subject to the approval of the Manager, any Project Sponsor is authorized to establish and contract with a special purpose or limited purpose instrumentality, corporation, or other entity for the purpose of having such entity serve as the Eligible Borrower with respect to a particular project.

§ 33.1-23.12. Exemption from taxation; exemption from Virginia Public Procurement Act.

A. The Bank will be performing an essential governmental function in the exercise of the powers conferred upon it by this article.
