ENGROSSED

SB1007E

57 *Small landfills (landfilling less than 100,000 tons per year) \$2,500*

58 *Large landfills (landfilling 100,000 tons or more per year) \$7,500*

59 B. The Board shall by regulation prescribe the manner and schedule for remitting fees imposed by  
60 this section and may allow for the quarterly payment of any such fees. The payment of any annual fee  
61 amounts owed shall be deferred until January 1, 2005, if the person subject to those fees submits a  
62 written request to the Department prior to October 1, 2004. The selection of this deferred payment  
63 option shall not reduce the amount owed.

64 C. The regulation shall include provisions allowing the Director to waive or reduce fees assessed  
65 during a state of emergency or for waste resulting from emergency response actions.

66 D. The Board may promulgate regulations establishing a schedule of reduced permit fees for facilities  
67 that have established a record of compliance with the terms and requirements of their permits and shall  
68 establish criteria, by regulation, to provide for reductions in the annual fee amount assessed for facilities  
69 based upon acceptance into the Department's programs to recognize excellent environmental  
70 performance.

71 E. The operator of a facility owned by a private entity and subject to any fee imposed pursuant to  
72 this section shall collect such fee as a surcharge on any fee schedule established pursuant to law,  
73 ordinance, resolution or contract for solid waste processing or disposal operations at the facility.

74 **2. That the Department of Environmental Quality [ , in consultation with the Virginia Waste  
75 Management Board, shall develop and implement policies and procedures to maximize efficiency  
76 and eliminate unnecessary delays in acting upon applications for waste management facility  
77 permits and permit amendments. Such policies and procedures shall include the following:**

78 **a. Establishment and enforcement of standardized departmental deadlines for reviewing and acting  
79 upon permit applications;**

80 **b. Assignment of sufficient staff to ensure compliance with deadlines, including assignment of staff  
81 from other regional offices where necessary and appropriate;**

82 **c. Designation of a senior coordinator for each major permit application who shall be responsible  
83 for ensuring that timely action is taken on permit applications, resolving disputes between staff  
84 and the applicant, and allocating sufficient resources;**

85 **d. Evaluation of the permitting process to determine the benefits of employing private contractors  
86 to assist with application review, and the development of criteria for that purpose;**

87 **e. Development of criteria for establishing the presumptive validity of plans, specifications, reports,  
88 and analyses certified by professional engineers or professional geologists licensed in the  
89 Commonwealth, so as to avoid redundancy in reviewing application materials;**

90 **f. Training of Department of Environmental Quality staff in the implementation of permitting  
91 policies and procedures;**

92 **g. Establishment of standards for ensuring consistency among regional offices in the  
93 implementation of permitting policies and procedures;**

94 **h. Review and implementation of pertinent sections of the U.S. Environmental Protection Agency's  
95 LEAN Program; and**

96 **i. Review and implementation of "ditto" or no-charge permitting where appropriate.**

97 **3. That the Department of Environmental Quality shall confer with interested stakeholders in  
98 developing such policies and procedures, which shall be published as agency guidance not later  
99 than January 1, 2012. shall continue its efforts to improve its solid waste program and submit a  
100 report to the General Assembly regarding such efforts by December 1, 2011. ]**
