

11105318D

SENATE BILL NO. 1371

AMENDMENT IN THE NATURE OF A SUBSTITUTE

(Proposed by the House Committee on Appropriations
on February 18, 2011)

(Patron Prior to Substitute—Senator Colgan)

A BILL to amend and reenact Chapter 46 of the Acts of Assembly of 2009, and to repeal Chapter 696 of the Acts of Assembly of 2009, establishing a six-year capital outlay plan for projects to be funded entirely or partially from general fund-supported resources.

Be it enacted by the General Assembly of Virginia:**1. That Chapter 46 of the Acts of Assembly of 2009 is amended and reenacted as follows:**

§ 1. That the following capital outlay projects and descriptive information shall constitute the Commonwealth's capital outlay plan, pursuant to § 2.2-1518 of the Code of Virginia, for the capital projects supported entirely or partially from the general fund for the six-year period beginning July 1, 2009 2011.

\$0 to \$10,000,000

Agency or Institution	Project Title	Priority	Description
Christopher Newport University	Improve Student Security Infrastructure	4	Provides for the connection all of the buildings and open areas on campus through state-of-the-art technology and enables the university to perform needed upgrades to its computing infrastructure and to control access to buildings and computer systems.
Christopher Newport University	Renovate Band Rehearsal Hall and Connector	5	Supports the renovation of a 1950's high school gymnasium into a modern band rehearsal hall and completes the renovation of the area breezeway connecting this area to the front of the Center for the Arts.
Department of Conservation & Recreation	Construct On-Site Residences, Various State Parks	1	Provides 14 residences and 14 parks across the state. This will allow the agency to provide housing for on-sight law enforcement personnel.
Department of Conservation & Recreation	Dredge Boat Ramp and Repair Shoreline Erosion, Belle Isle State Park	3	Provides for dredging the boat ramp and the channel to the Rappahannock River. The project will also stabilize the park's shoreline to prevent further erosion.
Department of Conservation & Recreation	Construct Improvements at Natural Areas	5	Provides for public access, including parking lots, walkways, and signs at five to six of the major natural area sites.
Department of Conservation & Recreation	Acquire property for Mayo River State Park	6	Provides funding for acquisition of land for the park.
Department of Corrections	Construct 200 Bed Housing Unit at Bland	2	Provides for the removal of three existing modular housing structures, and one office trailer, and replacing them with more substantial and longer lasting housing units.
Department of Corrections	Upgrade Perimeter Detection System (Multiple Institutions)	3	Upgrades electronic detection systems on perimeter fences.
Department of Corrections	Replace Door Control Systems	6	Provides supplemental funding for an existing umbrella project created to replace obsolete door control panels and systems.

63	Department of	Upgrade Building Electrical	7	Upgrades the electrical service at Augusta
64	Corrections	Service Entrance—Augusta		Correctional Center.
65				
66	Department of	Correct Environmental	8	Provides supplemental funding to an existing
67	Corrections	Deficiencies		umbrella project created to address violations of
68				environmental laws and regulations and included in
69				a consent order with the Environmental Protection
70				Agency.
71				
72	Department of	Upgrade Preliminary	9	Provides supplemental funding to an existing
73	Corrections	Wastewater Treatment		umbrella project created to install auger grinder
74				equipment in wastewater treatment plants to
75				improve preliminary treatment.
76				
77	Department of Forensic	Expand Eastern Forensic	1	Provides for the renovation of 15,308 square feet of
78	Science	Laboratory Facility		space on the fifth floor to meet the critical space
79				needs of the controlled substances, toxicology, and
80				questioned documents disciplines. In 2005, the
81				Department of Forensic Science was provided
82				funding to lease 5,777 square feet on the 5th floor
83				in this facility from the City of Norfolk to house
84				the latent prints laboratory and laboratory
85				administrative offices. Approval to occupy and
86				renovate the full 5th floor would result in the
87				Eastern Laboratory expanding to approximately
88				54,000 square feet which will allow this laboratory
89				to meet current and projected caseloads.
90				
91	Department of Juvenile	Expansion and Renovation	1	Expands and renovates the school and gymnasium
92	Justice	to School and Gymnasium		at Natural Bridge Juvenile Correctional Center. The
93		at Natural Bridge Juvenile		gym and the existing classrooms, library and
94		Correctional Center		school administration offices are undersized and
95				unable to support the school staff, suffer from
96				deferred maintenance issues, are not handicapped
97				accessible, and are suspected to contain unabated
98				hazardous materials. These structures require
99				comprehensive renovations to bring them into
100				compliance with current state building codes,
101				current fire/life/safety codes, and agency facility
102				standards.
103				
104	Department of Mental	Abate Environmental	4	Addresses several environmental hazard issues at
105	Health, Mental	Hazards		state facilities, including groundwater cleanup,
106	Retardation, and			mold, lead paint and asbestos removal. Includes all
107	Substance Abuse			phases of the project.
108	Behavioral Health and			
109	Developmental Services			
110				
111	Department of Veterans	Install Generator, Salem	1	Provides for full emergency back-up power to the
112	Services	Veterans Care Center		Salem Veterans Care Center through the
113				installation of a 750 to 1000 kw generator.
114				
115	Department of Veterans	Construct Addition on the	3	Constructs an additional 80 beds to provide the full
116	Services	Sitter Barfoot Veterans		240-beds as originally planned for the
117		Care Center		Sitter-Barfoot Veterans Care Center, located in
118				Richmond adjacent to McGuire Medical Center.
119				Due to changes in the health care delivery system
120				and the rising cost of construction, only 160 beds
121				were constructed in the original project.
122				
123	Department of Veterans	Additions and Renovations,	4	Provides additional activities, patient therapy and
124	Services	Veterans Care Center Salem		administrative areas to the existing facility.
125				Currently, patient activities/therapy and
126				administrative areas are inadequate to serve the
127				needs of the facility.
128				

129	Frontier Culture	Construct Early American	1	Construct a working, water-powered grist mill. The Frontier Culture Museum's master plan calls for the construction of an early American village as a major component of its expansion, and the grist mill is planned as an important structure in this village.
130	Museum of Virginia	Industry exhibit		
131				
132				
133				
134				
135				
136	Frontier Culture	Expand Infrastructure	2	Combines two infrastructure requests submitted by the agency. Most of the agency's planned expansion will be constructed in an undeveloped area of the property, adjacent to its existing site.
137	Museum of Virginia			
138				
139				
140				
141	George Mason	Renovate Fine Arts	1	Renovates approximately 33,200 gross square feet in the Fine Arts Building originally constructed in 1989. The building will be vacated when the Academic V project is completed and the Art and Visual Technology programs move to the new building. The timing will allow for renovation of the facility to convert space from use for visual arts studio to performing arts space to address program needs of the university.
142	University	Building		
143				
144				
145				
146				
147				
148				
149				
150				
151	George Mason	Renovate Finley Building	2	Renovates the Finley Building after the current academic programs move to the new Arlington II building. The renovation will include modifications to support programmatic needs, including academic support and teaching space, associated with the College of Education and Human Development. There will also be a physical connection constructed between Finley and Thompson Halls to visually link the buildings and to protect outdoor program space.
152	University			
153				
154				
155				
156				
157				
158				
159				
160				
161				
162	Institute for Advanced	Construct Greenhouse	1	Provides for the construction of a greenhouse needed to further the research efforts of the agency. The agency currently uses growth rooms and chambers. A greenhouse located on property will increase the agency's ability to grow large numbers of plants and expand breeding techniques within an environmental setting.
163	Learning Research			
164				
165				
166				
167				
168				
169				
170	James Madison	Construct Technology	5	Replaces a large portion of the university's technology infrastructure to improve resiliency and more fully meet the bandwidth demand. The project will add network capacity that will enable high-speed delivery of large streams of data to classrooms, labs and desktops throughout the campus.
171	University	Infrastructure-Phases 1 & 2		
172				
173				
174				
175				
176				
177				
178	Longwood University	Renovate Space for Faculty	3	Provides for the renovation of facilities to provide for faculty offices. Faculty positions have increased by 42 over the last several years, and currently, there is insufficient space. This has become a recruiting tool for new faculty.
179		and Staff Offices		
180				
181				
182				
183				
184	Longwood University	Renovate Heating Plant	5	Renovates utility plant to house an additional redundant steam generation capacity for heat and hot water, expansion capacity, and provide a location for a north campus central chilled distribution water system. The chilled water system will utilize a waste heat exchanger from the boiler stacks. This will add additional energy savings by capturing smoke stack waste. A central chilled water distribution system provides economy of scale, a 24/7 monitoring capability and higher reliability and enhanced control. This will be energy efficient and allow for future expansion of the campus.

195				
196				

197				
198	Norfolk State University	Renovate the Wilder Center	3	Corrects a safety problem that occurred during design/construction related to the auditorium floor. The sections of the auditorium need to be leveled and re-graded and in order to renovate the entire section of the floor, the seats will need to be removed and the floor demolished and reconstructed to meet handicap accessibility and building code requirements. There will also be an upgrade/replacement of communication, audiovisual, and information technology systems to maintain a functional arts presentation facility.

206				
207				
208				
209				
210	Norfolk State University	Improve Signage, Roads and Campus Boundary, Phase I	4	Provides for a comprehensive campus signage/information system. A new road will also be constructed to connect Presidential Parkway and Jordan Way to improve vehicular circulation and eliminate the need to use city streets.
211				
212				
213				
214				
215				
216	Old Dominion University	Address Campus Safety, Security and Regulatory Compliance	6	Addresses the most important safety, physical security, and regulatory compliance requirements on campus including: installing electronic locks for exterior building entrances for all major academic buildings along with emergency telephones across campus, improving and expanding the campus-wide pedestrian network to reduce vehicular traffic, and conducting a comprehensive asbestos survey and abating any critical areas identified.

221				
222				
223				
224				
225				
226				
227	The College of William and Mary	Renovate Andrews Hall	3	Covers basic systems renovations to replace building systems, achieve current accessibility standards, and comply with current building codes. Since originally requesting the additional funding for this project, the college has begun a far-reaching study of its arts programs to quantify instructional needs and develop a plan for maximizing the arts experience for its students. The role that Andrews Hall would play in that plan remains to be determined.

232				
233				
234				
235				
236				
237				
238	The Science Museum of Virginia	Construct Discovery Park	2 /	Provides for the construction of a Discovery Park behind the museum, to include various interactive and educational exhibits explaining solar power, horticulture, and season changes.
239				
240				
241				
242				
243	University of Mary Washington	Construct Jepson Science Center Addition	1	Provides for the construction of a two-story addition to Jepson Science Center. The Jepson Science Center opened in the fall of 1998 and houses four academic departments: Biological Sciences, Chemistry, Environmental Sciences and Geology, and Physics. Additional space is need needed to meet existing demand.
244				
245				
246				
247				
248				
249				
250				
251	University of Mary Washington	Repair/replace Underground Utilities	2	Provides for the repair or replacement of underground utilities, including sanitary sewers, water lines, electric distribution, and steam and condensate piping are showing progressive patterns of failure due to age and deterioration of system components.
252				
253				
254				
255				
256				
257				
258	University of Mary Washington	Install University Card Access System	3	Provides for installation of card access readers to approximately 16 E&G and 12 non-E&G buildings on the Fredericksburg Campus to enhance campus security.
259				
260				
261				
262				
263	University of Mary Washington	Improve Storm Water Management	4	Addresses regulatory requirements to adequately accommodate storm water flow.
264				

265				
266	University of Virginia	Construct Blandy Arboretum Research Labs and Cabins	6	Provides for the construction of a 3,000 gross square foot modern laboratory building, two additional research visitor residence cottages totaling 2,500 gross square feet, and essential infrastructure and utility work, including replacement and extension of water and sewer lines from new well service recently installed.
267				
268				
269				
270				
271				
272				
273				
274	University of Virginia	Renovate Rugby Administrative Building and Restore Lambeth Colonnade	7	Provides for the rehabilitation and conversion Rugby Faculty Apartment building into administrative space and will restore the Lambeth Colonnade. Renovations will include replacement of HVAC, plumbing, and electrical systems, and installation of new security, fire suppression, media systems, elevator, replacement and refurbishment of interior finishes, windows and doors, repair of exterior brick walls and wood trim.
275				
276				
277				
278				
279				
280				
281				
282				
283				
284	Virginia Commonwealth University	Renovate East Wing of the Oliver Hall Building	5	Provides for the renovation of a 162,000 square foot building originally constructed in 1976. This project renovates a portion of the building into laboratory space for undergraduate instruction. Approximately 7,000 square feet of classroom space will be converted into laboratories to support freshman chemistry classes.
285				
286				
287				
288				
289				
290				
291				
292	Virginia Community College System	Improve Heating, Ventilation, and Air Conditioning, Rappahannock	3 13	Provides for the improvement and upgrade to the heating, ventilation and air conditioning systems at its Glens Campus. The project scope includes installation of new controls, air distribution, exhaust ventilation, dedicated computer equipment cooling, and replacement of existing boilers, chillers and electrical upgrades.
293				
294				
295				
296				
297				
298				
299				
300	Virginia Community College System	Renovate Plaza, Structural Repairs Phase II, Annandale Campus, Northern Virginia	6 16	Provides for the renovation and repairs to correct structural issues for a 3,153 square foot area of a covered loading dock/walkway on the Annandale campus. The concrete columns and beams that support this are have deteriorated to the point that temporary shoring has been installed to insure the safety of those who must work in and traverse through the area beneath it. A section of the upper plaza area including an entrance door to the CF building has been closed to pedestrians.
301				
302				
303				
304				
305				
306				
307				
308				
309				
310				
311	Virginia Community College System	Renovate Library and Learning Resource Center, Virginia Highlands	8 18	Provides for the renovation of a 39,540 square foot facility constructed in the mid-1980s. The building houses approximately 11 classrooms, 29 faculty and administrative offices.
312				
313				
314				
315				
316	Virginia Community College System	Construct Workforce Development Center, Piedmont Virginia	9 19	Provides for the acquisition of approximately 5.911 acres including the existing Monticello Visitors' Center, renovation of the existing facility of approximately 10,000 gross square feet, and construction of an 11,000 square foot addition.
317				
318				
319				
320				
321				
322	Virginia Community College System	Renovate Buildings: Carroll, Bland, Galax, Grayson, Fincastle, and Smyth Halls, Wytheville	40 20	Renovates Carroll and Bland Halls (constructed 1971), Grayson Hall (constructed 1984), Fincastle Hall (constructed 1968), Galax Hall (constructed 1973) and Smyth Hall (constructed 1997).
323				
324				
325				
326				
327	Virginia Community College System	Renovate Building B, J. Sargeant Reynolds - Parham Road Campus,	44 6	Provides for the renovation and update of 35,000 square feet in Building B at the Parham Road Campus, constructed in the late 1970's. The planned renovations include upgrade of teaching laboratories, classrooms, and support space needed to provide modern state-of-the-art instruction.
328				
329				
330				
331				
332				

333				
334	Virginia Community College System	Replace Exterior Windows and Doors, Rappahannock	42 21	Provides for the replacement of all exterior windows and doors at its Glenss and Warsaw campuses. Replacement will reduce utility costs in both heating and cooling seasons.
335				
336				
337				
338	Virginia Community College System	Renovate Phase I Academic and Administration Building, Eastern Shore	46 7	Provides for the renovation of the existing 42,000 square foot Academic and Administration Building originally completed in 1974. Although selected areas of this building have had some minor alterations over the years, it has not undergone extensive renovations aimed at bringing it up to current codes and standards.
339				
340				
341				
342	Virginia Community College System	Relocate Observatory and Great Dismal Swamp Education Center, Tidewater - Chesapeake Campus	47 25	Provides for the relocation of an observatory from the Portsmouth campus to the Great Dismal Swamp. The relocation and development of the college's observatory in the swamp will allow for collocation with an educational facility at the Great Dismal Swamp Refuge in partnership with the City of Chesapeake and the U.S. Fish and Wildlife Service. The proposed facility will include 5,500 square feet of Tidewater Community College space to provide a biology laboratory, preparatory spaces, two classrooms, a rooftop observatory and a remote observatory located in the Great Dismal Swamp.
343				
344				
345				
346	Virginia Community College System	Construct Student Service & Learning Resources Center, Christanna Campus, Southside Virginia	48 26	Provides for the construction of a 35,000 square foot learning resource center on the college's Daniel campus. The new building would include a library, multi-media learning resource center and a student service center for admissions, counseling, financial aid, and other related support spaces.
347				
348				
349				
350	Virginia Community College System	Renovate Main Building, Lord Fairfax	49 8	Project provides for a comprehensive renovation of the main academic and administration building on the Middleton campus. The main building was built in 1970.
351				
352				
353				
354	Virginia Community College System	Renovate Academic Classrooms and Laboratories, Tidewater	24 28	Provides for the renovation of various classrooms and laboratories throughout the college to meet college-approved minimum technology standards. While all instructional spaces in proposed new or renovated facilities will meet these standards, 158 existing instructional spaces are not included in requests to be completed within the next six years.
355				
356				
357				
358	Virginia Community College System	Construct Addition to Learning Resource Center, Patrick Henry	22 29	Constructs an addition to the Learning Resource Center (built in 1972). The addition would include a multi-media research and development classroom laboratory, model technology training center, center for distance learning with video production capabilities, video conferencing room for faculty, staff, and community use, regional magnet school for technology, and related support spaces.
359				
360				
361				
362	Virginia Community College System	Renovate and Repair Exterior/Interior Structures, Thomas Nelson	24 31	Provides for renovations to complete exterior and interior structural repairs on various campus buildings.
363				
364				
365				
366	Virginia Community College System	Construct Maintenance Building, Germanna	26 33	Constructs a 3,000 gross square foot maintenance building on the Fredericksburg campus. The proposed building will contain high bay service areas with operable service doors to house large building and ground maintenance equipment, supplies, and associated offices.

399				

400	Virginia Community College System	Construct Network Operations Center, Tidewater	27 34	Constructs, or acquires through a capital lease, a new 9,000 square foot facility to house the college's network operations center. The center will provide a modern enterprise data center for management of the college's wide area network (WAN) and services that support administration and instruction at the college's four campuses, remote centers, and other off-campus sites.
401				
402				
403				
404				
405	Virginia Community College System	Construct Canopies, Virginia Highlands	29 36	Provides for the expansion to the existing campus canopy system. Canopies connect the three original buildings built on campus in 1969. The project would expand the canopy system to extend to the three additional buildings that have been built since 1969.
406				
407				
408				
409				
410	Virginia Community College System	Construct New Classroom and Administration Building, Blue Ridge	33 5	Constructs a new 20,000 square feet Classroom and Administration Building on the Weyers Cave College campus.
411				
412				
413				
414				
415	Virginia Community College System	Construct Engineering and Industrial Technology Building, Danville	34 9	Renovates academic space for the engineering and industrial technology program.
416				
417				
418				
419				
420	Virginia Institute of Marine Sciences	Construct a Consolidated Scientific Research Facility	1	Provides for the construction a new 25,000 square foot building to provide research, office and technology space for the Marine Advisory Services, the Center for Coastal Resource Management, the physical sciences modeling group, and the publication/communication and computer centers in a single facility.
421				
422				
423				
424				
425	Virginia Institute of Marine Sciences	Expand the Fisheries Science Building	2	Provides for the construction of a new 13,900 square foot laboratory and office building adjacent to the Fisheries Science Building. The current facility is at its maximum size allowed by the building code for its construction type.
426				
427				
428				
429				
430	Virginia Institute of Marine Sciences	Replace the Oyster Hatchery	3	Constructs a new oyster hatchery with laboratory space for algae culture, larvae culture, and saltwater treatment and polishing; a 10,000 gallon standing water tower reservoir for storage of clean saltwater for fish and shellfish when environmental conditions will not allow pumping water from the York River; storage space for research equipment; a conference/education meeting space; emergency generator; and expansion and improvement of the flow-through nursery located outside the building.
431				
432				
433				
434				
435	Virginia Military Institute	Improve Post Infrastructure, Phase I	2	Provides for the upgrades or repairs of aging or failing campus infrastructure, including replacing water distribution piping, boiler replacement, lighting upgrade, and sewer line replacement.
436				
437				
438				
439				
440	Virginia Military Institute	Improve Public Safety and Security on Post, Phase I	3	Provides for the construction of a Post police station facility, inclusion of a centralized command and communications center in the Post police facility, installation of a centralized fire and security monitoring system, installation of a centralized building access monitoring system through door controls and video surveillance of critical areas, installation of an emergency communication alert system for the Post, and construction modifications to Post buildings and infrastructure.

463				
464				
465				

466	Virginia Military Institute	Renovate Post Hospital	4	Provides for the renovation of the Post hospital, a historic two-story masonry structure built in 1870. All of the building systems are antiquated and in need of major upgrade. This project will make the building accessible to the disabled, replace windows and doors, upgrade finishes, repair the roof, correct exterior water intrusion issues, replace the HVAC and electrical systems and reconfigure the building space to better address the programmatic needs for this facility.
467				
468				
469				
470				
471				
472				
473	Virginia Military Institute	Improve Admissions and Financial Aid Offices	5	Provides for renovations to the existing admissions office, and conversion and renovation of the adjacent building #29 to the financial aid office.
474				
475				
476				
477				
478				
479				
480	Virginia Military Institute	Improve Historic Preservation Sites, Phase I	7	Provides for modest improvements to preserve the historic elements of three structures. These facilities, the Commandants Quarters, the Turman House, and the Cabell House, are contributing historical buildings to the VMI Historic District which was listed as both a National Register property and a National Historic Landmark in 1974.
481				
482				
483				
484				
485				
486				
487	Virginia Museum of Fine Arts	Renovate Robinson House	1	Provides for the demolition of the interior of the building, removal of asbestos, repair and reinforcement of structure, and replacement of major systems, including fire suppression systems. An addition will be constructed to provide an elevator and accessible emergency stairs and restrooms. The Robinson House is a 1850's farmhouse, is a historically significant building to the Boulevard Historic District.
488				
489				
490				
491				
492				
493				
494	Virginia Polytechnic Institute and State University	Renovate Liberal Arts Building	4	Provides for the renovation of a building that was constructed in 1899 as a YMCA building. The building currently houses Theater Arts programs and the School of the Arts instructional program. The renovation of the building will allow a complete exterior refurbishment and interior renovation to provide new academic spaces.
495				
496				
497				
498				
499				
500				
501	Virginia Polytechnic Institute and State University	Construct Newman Library Addition - ARC	8	Provides for the construction of a 5,000 gross square foot addition to the east side of Newman Library between the existing loading dock and Squires Student Center. The addition will contain high-density, self-supporting, heavy-duty storage shelving and an automated, robotic retrieval system capable of handling up to one million volumes. The new space will increase the ability to efficiently store and quickly retrieve materials without delay and without additional staff or floor space.
502				
503				
504				
505				
506				
507				
508	Virginia Polytechnic Institute and State University	Construct Academic and Student Programs Building	10	Provides additional instructional space, dining services, and student services on the north side of campus. The proposed project is envisioned as a 91,200 gross square foot, five story building. The building plan includes two floors of instructional space, two floors of dining service space, and one floor of student union space. The two lower floors will be dining services, the third floor will be student union space, and the top two floors will be instructional space.

530	Virginia Polytechnic	Address Fire Alarm	11	Provides for needed campus improvements in
531	Institute and State	Systems and Access		several educational and general facilities resulting
532	University			in improvements to accessibility, installation of fire
533				alarm systems, and updates to the needs assessment
534				and planning which are beyond the scope of the
535				Maintenance Reserve program. This project
536				envisions significant accessibility and safety
537				improvements in various campus buildings and
538				exterior campus facilities.
539				
540	Virginia State University	Renovate Lockett Hall	2	Includes upgrading electrical, plumbing and
541				heating systems, installing central air conditioning
542				and an elevator, upgrading the restrooms to provide
543				handicap access, upgrading the exterior of the
544				building, remediating and abating lead and
545				asbestos, upgrading the interior finishes and
546				communication system, and building a research
547				greenhouse to handle modern research in botany,
548				medicinal plants, and biotechnology.
549				
550	\$10,000,001 to \$25,000,000			
551				
552	Agency or Institution	Project Title	Priority	Description
553				
554	Christopher Newport	Construct Integrated	2	Constructs a 110,000 square foot academic
555	University	Science Center, Phase II		building (already funded) and renovate 38,000
556				square feet of an existing academic building. This
557				is the renovation phase of a combined project. The
558				new Integrated Science Center will provide
559				state-of-the-art laboratories, classrooms, faculty
560				offices and research facilities for Biology,
561				Chemistry, Environmental Science, and
562				Psychology. The building will be fully integrated
563				with an enclosed connector between the existing
564				and new structures. The Integrated Science Center
565				will house more than 50 faculty, 25 laboratories
566				and 11 classrooms designed for teaching and
567				research.
568				
569	Department of	Construct Visitor	2	Funds five visitor center/environmental education
570	Conservation &	Center/Environmental		facilities for major parks in the system. Each
571	Recreation	Education Center, Five		building will be 4,500 to 5,000 square feet and
572		State Parks		built to LEED standards.
573				
574	Department of	Develop Infrastructure,	4	Funds renovation of a number of historic facilities
575	Conservation &	New River Trail State Park		for park use, such as conversion of the old
576	Recreation			Austinville mining office into a visitor center,
577				including construction of a campground and
578				equestrian campground.
579				
580	Department of	Construct Western	5	Constructs a training facility in the western part of
581	Corrections	Training Facilities		the state.
582				
583	Department of Mental	Repair/Replace Campus	2	Funds the repair/replacement of faulty utilities at
584	Health, Mental	Infrastructures		state facility. Also includes the repair or
585	Retardation, and			replacement of damaged sidewalks, curbs, and
586	Substance Abuse			parking lots to ensure safe access for staff and
587	Behavioral Health and			residents
588	Developmental Services			
589				

590	George Mason University	Construct Physical Plant addition	4	Constructs a 30,000 gross square foot physical plant facility, and renovates the existing 12,000 square feet to correct code and safety issues and realign the existing building to the needs of the physical plant. Constructed in 1974, the current physical plant building was designed to support a significantly smaller and less active campus than the current University. The current Physical Plant Building does not meet building, environmental, or energy codes, Occupational Safety and Health Administration (OSHA) codes, and Americans with Disabilities Act (ADA) regulations.

625				
626				
627				
628				
629				
630	Longwood University	Renovate French Hall for Relocated Technology Center	1	Provides for the renovation of space for Information and Instructional Technology Services (IITS), a department that has doubled in size in nine years as the University has expanded its enrollment and use of technology.
631				
632				
633				
634				
635	Longwood University	Construct Physical Plant Building	2	Provides for the construction of a 58,452 square foot physical plant building to house trades shops, equipment storage, staff members, project document storage, and controlled spaces for maintenance parts inventory and daily operations. The current grounds department has only one office; the remaining staff members share a garage with equipment and stored supplies. Much of the expensive equipment used by the department must be stored outside, open to the elements, and subject to theft.
636				
637				
638				
639				
640				
641				
642				
643				
644				
645	Longwood University	Renovate and Expand Wygal Hall	4	Provides for the renovation of 12,000 square feet and construction of an addition totaling 24,000 square feet. It will house classrooms, practice rooms, recital hall, faculty offices, and other rooms associated with an academic music department.
646				
647				
648				
649				
650				
651				
652				

653	Old Dominion University	Construct a Systems Research and Academic Building	1	Supports the construction of a new 50,000 square feet systems research and academic building on the Norfolk campus. This four-story facility will include modern instructional and research space as well as faculty and administrative offices and support space. The design will encourage unprecedented levels of research collaboration and cooperation across disciplines that are often housed in separate departments within separate disciplines and colleges.
654				
655				
656				
657				
658				
659				
660				
661	Old Dominion University	Renovate and Construct Child Development Centers	2	Combines 4,000 square feet of renovations to the university's existing child development center with a new two-story, 20,176 square feet addition on the Norfolk campus with the construction of a new 30,000 child development and early childhood education program facility at the university's higher education center located in Virginia Beach.
662				
663				
664				
665				
666				
667				
668				
669	Old Dominion University	Renovate the Education Building	3	Renovates 45,000 square feet of the College of Education on the Norfolk campus. This is the central location for all of the College's administrative offices and support spaces, labs, and classroom facilities. In addition to the require system upgrades for utility and maintenance efficiencies, the facility will also require structural renovations to establish new classroom layouts.
670				
671				
672				
673				
674				
675				
676				
677	Old Dominion University	Renovate Spong and Rollins Halls	4	Creates a consolidated service destination for all of the university's daily administrative, business, and student financial service functions within the renovated Spong and Rollins Halls. Spong Hall (39,374 square feet) and Rollins Hall (49,564 square feet) are two of the original buildings on the Norfolk campus. Once completed, these combined facilities will house the Office of Finance, Office of Financial Aid, Human Resources, University Auditor, Office of the Registrar, Office of Environmental Health and Safety, Equal Employment Opportunity Office, and the support functions of the Office of Admissions.
678

746				
747				
748				
749				
750				
751				
752	UVA's College at Wise	Renovate Wyllie Library	2	Converts the Wyllie Library into an academic classroom building to provide additional classrooms, study space, and faculty offices.
753				
754				
755				
756	Virginia Commonwealth University	Renovate Sanger Hall, Phase II	2	Provides for the second phase of a four-phase project to upgrade 50,000 square feet of instructional and research laboratories in Sanger Hall, the largest instructional and research facility at the university, and provides the core teaching space for many of the health-related disciplines. The project scope includes reconfiguration and modernization of spaces and upgrades to environmental systems.
757				
758				
759				
760				
761				
762				
763				
764				
765				
766	Virginia Commonwealth University	Renovate Student Services Building, MCV Campus	3	Renovate the VMI Building, originally constructed in 1925, located on the university's MCV Campus. This renovation is required to co-locate student service activities in an area which is central to campus and within easy pedestrian access to instructional and clinical facilities. The renovation will allow the university to vacate service offices from existing instructional facilities so that academic activities may be more efficiently co-located. The renovation also includes upgrades to building systems.
767				
768				
769				
770				
771				
772				
773				
774				
775				
776				
777				
778	Virginia Community College System	Renovate Academic Classrooms and Administrative Building, Rappahannock	4 11	Provides for the renovation of academic classrooms and administrative support buildings at Rappahannock Community College.
779				
780				
781				
782				
783	Virginia Community College System	Construct Student Services - Learning Resources Building, Southside Virginia	4 14	Provides for the construction of a 35,000 square foot Learning Resource Center on the college's Daniel Campus. The new building would include a library, multi-media learning resource center and a student service center for admissions, counseling, financial aid, and other related support spaces.
784				
785				
786				
787				
788				

789				
790	Virginia Community	Renovate Stone Hall	7 17	Provides for the renovation of Stone Hall
791	College System	Building, Patrick Henry		constructed in 1974. The scope of the renovations
792				include classrooms, faculty offices and a large
793				multipurpose room. The renovations are needed to
794				meet current code requirements for restrooms,
795				accessibility, fire and life safety, ventilation and
796				energy efficiency.
797				
798	Virginia Community	Renovate Bird and	43 22	Provides for a comprehensive renovation and
799	College System	Nicholas Halls, John Tyler		upgrade of Bird Hall, Goyne Hall, and the
800		- Chester Campus		Nicholas Center on the college's Chester campus.
801				Completing the renovations will improve academic
802				programmatic function and classroom innovation.
803				
804	Virginia Community	Construct Learning	45 24	Constructs a 50,000 square foot building to
805	College System	Resources Center,		accommodate a new Learning Resources Center on
806		Tidewater - Chesapeake		the Chesapeake campus. Dramatic enrollment
807		Campus		growth on the campus since construction of the
808				existing Learning Resources Center within the
809				Pass Building has rendered that space insufficient
810				to support the resource needs of the campus. In
811				addition, the space layout is inefficient for
812				contemporary Learning Resources Center
813				functions.
814				
815	Virginia Community	Construct Workforce	23 30	Provides for the construction of a new 55,000
816	College System	Development Center,		square foot workforce development center to
817		Northern Virginia -		support office, classroom and computer laboratory
818		Woodbridge Campus		areas.
819				
820	Virginia Community	Construct New Building	25 32	Provides for the construction of a new 29,500
821	College System	for Trucking Program,		square foot facility to house the trucking program,
822		Tidewater - Portsmouth		currently located on the existing Portsmouth
823		Campus		campus in the City of Suffolk. This proposal
824				would construct a new Regional Trucking Program
825				Facility as part of the relocation of the Portsmouth
826				campus.
827				
828	Virginia Community	Construct Workforce	28 35	Provides for the construction of 45,000 square foot
829	College System	Solutions and Academic		facility to provide 13 academic classrooms, (two
830		Training Center, Fauquier		classrooms of 1,200 square feet, four classrooms of
831		Campus, Lord Fairfax		900 square feet, four classrooms of 725 square feet
832				and three classrooms of 450 square feet.)
833				
834	Virginia Community	Expand and Renovate	30 10	Provides for the renovation/renewal of the
835	College System	Phase III Academic		33-year-old, 77,735 gross square foot Loudoun
836		Building, Northern		Campus Phase I main administrative/classroom
837		Virginia - Loudoun		building. This building contains classrooms,
838		Campus		computer labs, faculty and administrative offices,
839				the Learning Resources Center, a bookstore, and a
840				cafeteria.
841				
842	Virginia Community	Renovate Bisdorf Phase II	32 38	Provides for the renovation/renewal of the
843	College System	Academic Building,		27-year-old, 60,000 gross square foot Phase II
844		Northern Virginia -		classroom building. This building contains
845		Alexandria		classrooms, computer labs, and faculty offices.
846				
847	Virginia Military	Renovate Science Building	1	Provides for the renovation of the Science
848	Institute			Building. Renovations are required to support a
849				change in the core curriculum related to
850				accreditation and the planned increase in the size
851				of the Corps of Cadets. The goal is to increase the
852				number of math, science, and engineering
853				graduates.
854				

855	Virginia Military Institute	Renovate Moody Hall	6	Provides for the renovation of Moody Hall, which was constructed in 1969 and primarily supports alumni, faculty and staff and cadet functions and activities. The facility also houses some office space for the admissions office. It is frequently used for educational and administrative meetings and conferences. The building is aging and emergency repairs are increasingly costly.
856				
857				
858				
859				
860				
861				
862	Virginia Polytechnic Institute and State University	Construct Chiller Plant, Phase I	3	Provides the construction of a central chiller plant building on the southwest area of campus with capacity to hold 12,000-tons of chilling service, install 2,000 tons of chiller output, and install distribution piping. This project received \$480,000 detail planning in Chapter 1.
863				
864				
865				
866				
867				
868				
869	Virginia Polytechnic Institute and State University	Renovate Cyber Arts and Creative Technologies Laboratory	5	Provides for the creation of a Cyber Arts Studio and Creative Technologies Laboratory will be the first instructional space at Virginia Tech able to fully support emergent pedagogy in creative technologies to enrich programs and student learning in ways that have not historically been possible. By renovating Shultz Hall to the Cyber Arts Studio and Creative Technologies Laboratory, the university will provide the place and infrastructure to fully immerse the university and the extended outreach community into a 21st century exploration of a place and space where art, humanities, science, engineering & technology intersect.
870				
871				
872				
873				
874				
875				
876	Virginia Polytechnic Institute and State University	Construct Classroom Building	6	Provides for the construction of a 64,250 gross square foot building with 36 large-size classrooms on the north side campus in the core a instruction activity. The university has developed a three phase plan to improve the classroom inventory.
877				
878				
879				
880				
881				
882				
883	Virginia Polytechnic Institute and State University	Construct Veterinary Medicine Instruction Addition	7	Provides for the construction an addition of about 32,300 gross square feet of instructional space to provide adequate classrooms, to relieve overcrowding of the existing facility, and to accommodate planned hires. The project includes three new classrooms and teaching laboratories, 50 faculty spaces, and renovations of some existing space to minimize the amount of new construction. These issues must be addressed to meet the requirements of the American Veterinary Medical Associations' Council on Education, which is the accrediting body for the College of Veterinary Medicine.
884				
885				
886				
887				
888				
889				
890	Virginia Polytechnic Institute and State University	Renovate Lane Hall and Construct Addition	9	Provides for the renovation of the building, including exterior envelope repairs, HVAC and ventilation systems replacement, plumbing system replacement and upgrades, electrical system replacement, hazardous material abatement, and provision of accessible circulation and exiting meeting life safety requirements. The project will also construct a 18,400 gross square foot addition that will house several new general assignment classroom spaces and instructional spaces supporting the Corps of Cadets and the three Reserve Officer Training programs (ROTC).

919	Virginia Economic	Bioscience Wet Laboratory	1	Provides for the construction and renovation of
920	Development	Facility		biotechnology shell buildings designed to
921	Partnership			accommodate and provide wet-lab space or other
922				needed laboratory, research, office, or production
923				space to attract biosciences and other related
924				technology companies to the state, as well as
925				accommodating the growth of companies already
926				located in Virginia
927				
928				
929				
930	Agency or Institution	Project Title	Priority	Description
931				
932	Christopher Newport	Construct Luter College of	1	Constructs a new 45,000 gross square foot Luter
933	University	Decision Sciences		School of Business which will house the
934				Department of Accounting, Economics and
935				Finance and the Department of Management and
936				Marketing. Accreditation of the Luter School of
937				Business represents a significant step in the
938				transformation of the business program. This
939				project received \$250,000 for pre-planning in
940				Chapter 1.
941				
942	Christopher Newport	Construct Library and	3	Provides the second phase to complete the
943	University	Information Technology		conversion of the library into an Information
944		Center, Phase II		Technology Center and completes the
945				consolidation of traditional library services,
946				instructional technology and electronic media. It
947				will emphasize and support student and faculty
948				collaboration.
949				
950	Department of Forensic	Expand Western Forensic	2	Provide for purchase of a property adjacent to the
951	Science	Laboratory Facility		department's Roanoke Lab. The purchase will
952				expand the current facility by an estimated 55,000
953				square feet.
954				
955	Department of Mental	Replace Facility Roofs	1	Includes all four phases of roof replacement at
956	Health, Mental			state facilities. Project would replace roofs that are
957	Retardation, and			beyond repair.
958	Substance Abuse			
959	Behavioral Health and			
960	Developmental Services			
961				
962	Department of Mental	Replace Support Service	6	Replaces a food service facility that was designed
963	Health, Mental	Facility at Eastern State		and built in 1954 for 1800 patients. The existing
964	Retardation, and	Hospital		facility is several times too large to economically
965	Substance Abuse			and efficiently provide service to the current
966	Behavioral Health and			population at Eastern State Hospital. The proposed
967	Developmental Services			facility will serve 300 patients from an
968				appropriately sized facility. A new patient cafeteria
969				will also be provided within this facility. The
970				facility will also replace a warehouse/purchasing
971				space and a buildings & grounds/transportation
972				space.
973				
974	Department of Veterans	Construct Veterans Care	2	Provides funding for a proposed facility that
975	Services	Center in Hampton Roads		encompasses 240 beds within about 165,000
976				square feet, and includes domiciliary care (assisted
977				living), skilled nursing, an Alzheimer's unit and
978				perhaps a unit for the treatment of spinal cord
979				injuries. The department has submitted, and
980				USDVA funding is pending for a new Veterans
981				Care Center in Hampton Roads, Virginia.
982				
983	James Madison	Renovate West Wing	1	Provides for the renovation of the West Wing of
984	University	Hospital		the Rockingham Memorial Hospital complex,
985				purchased by James Madison University in 2005.

986				
987	James Madison University	Renovate and Expand Duke Hall	2	Provides for the renovation and expansion of Duke Hall at James Madison University. Duke was opened in 1967 as a classroom, studio and faculty office facility for the fine arts. Originally, Duke housed the university's Music, Theatre and Art Departments. Today it contains classrooms, studios and faculty offices for School of Art and Art History and the main stage theatre of the School of Theatre and Dance.
988				
989				
990				
991				
992				
993				
994				
995				
996	Norfolk State University	Construct a New Nursing and General Classroom Building	1	Project supports the construction of a new building to house research, instructional, and support services for the Department of Nursing as well as general instructional classrooms on the Norfolk campus. This project includes both the demolition of the old Norfolk Community Hospital, originally intended to house the nursing program and general classrooms, and the construction of a new 130,300 square feet facility at a different location on campus to conform to the university's master plan. The new facility will provide state of the art space and infrastructure, replacing aged inadequate classroom and laboratory spaces.
997

1012	Radford University	Construct College of Science and Technology Building	1	Provides for a new building to house mathematics, statistics, computer science and technology, and information science systems. Currently, the distance between the disciplines limits day-to-day interdisciplinary collaboration for both faculty and students. Bringing these disciplines together into a new building will promote a strong synergy among the computational sciences and open additional space on campus for the expansion of the natural sciences.

1046	University of Virginia	Construct Arts Gateway to the University	2	Creates a unique arts complex that co-locates visual and performing arts facilities with an arts residential college for upper-class students. This project will include an art museum, a studio theater (for theatrical performances, dance recitals, lectures, and film screenings), a band facility, and a forum building (for events such as public lectures, presentations, performances and dinner). The project also includes a 250-bed student residential college with a 260-seat dining facility (to also serve the adjacent International Residential College and support light meals and dinners hosted in the forum).

1180				
1181	Virginia State University	Renovate and Expand Daniel Gym	3	Provides reconfigured optimal space for the Departments of Health and Physical Education, as well as the Recreation and Dance Bachelor of Science programs. Renovation efforts would include: upgrading the HVAC, restructuring interior walls to accommodate course offerings, upgrading and repairing interior finishes, upgrading plumbing and electrical systems, and modernizing the locker rooms. Major renovations are also needed to the natatorium to provide for the comfort and safety of both participants and spectators. A proposed 26,451 square feet expansion would provide new electronic classrooms, seminar rooms, courts, studios, offices and a training and wellness center. A storm water master plan and new or expanded storm water management facility are also important components of this project.

1239	University	Building, Prince William		building on the Prince William campus.
1240				
1241	George Mason	Construct Health and	8	Provides for a 250,000 gross square foot academic
1242	University	Human Services Building,		building on the Fairfax campus.
1243		Phase I, Fairfax		
1244				
1245	University of Virginia	Renovate New Cabell Hall	1	Provides for renovations to support core functions
1246				of the College of Arts and Sciences' mission. The
1247				building, originally constructed in 1950, is in need
1248				of general renewal to support its present program
1249				activity. The project renovates 50 centrally
1250				managed classrooms, 390 faculty offices and
1251				includes updates to all major building systems to
1252				provide modern functionality and address code and
1253				accessibility compliance.
1254				
1255	Virginia Military	Construct Corps Physical	7	Provides for a new physical training facility.
1256	Institute	Training Facilities		
1257				
1258	Virginia State University	Construct a multipurpose	1	Supports the construction of a multipurpose center
1259		center		to accommodate programmatic needs of various
1260				academic, cultural, athletic, entertainment
1261				functions and the extension of outreach programs
1262				into the surrounding counties.

\$75,000,001 to \$100,000,000

1266	Agency or Institution	Project Title	Priority	Description
1267				
1268	Department of Mental	Replace Forensic Unit at	7	Replaces within a single building, all of the
1269	Health, Mental	Central State Hospital		appropriate residential, treatment program, and
1270	Retardation, and			administrative support functions necessary to a
1271	Substance Abuse			secure forensic mental health facility meeting
1272	Behavioral Health and			today's standards. In addition the new buildings
1273	Developmental Services			would be both energy and staff efficient by design.
1274				Includes both planning and construction costs.
1275				
1276	The College of William	Construct Integrated	1	Provides approximately 120,000 square feet of
1277	and Mary	Science Center, Phase III		additional classroom, laboratory, office, and
1278				support space to the Integrated Science Center
1279				Complex to accommodate the Department of
1280				Applied Science and the Computational Science
1281				Program. This facility will provide teaching and
1282				research space designed for maximum flexibility to
1283				meet the challenging needs of science instruction
1284				and accommodate student and faculty research in
1285				the sciences, applied science, and mathematics.

Above \$100,000,000

1289	Agency or Institution	Project Title	Priority	Description
1290				
1291	Department of	Construct Charlotte	1	Construct a 2,000-bed medium security prison.
1292	Corrections	County prison		
1293				
1294	Department of	Construct New Medical	4	Constructs a new 150-bed hospital at Powhatan
1295	Corrections	Facilities at Powhatan		Correctional Center.
1296				

1297	Department of General Services	Renovate Supreme Court Interior	1	Renovates the Supreme Court building which was originally constructed in 1919 as the Federal Reserve Bank of Richmond. The present building consists of the original structure and several additions constructed prior to approximately 1951. The Supreme Court Building is a Richmond landmark and is eligible for nomination to both Virginia and National historic registers. This project addresses the renewal of all interior building systems and upgrade to present day building code, environmental quality, life safety, accessibility and functional standards.
