A. From revenues made available by the General Assembly after January 1, 2008, and appropriated for the improvement, construction, or reconstruction of the systems of state highways, the Commonwealth Transportation Board ~~shall~~ *may* make an equivalent matching allocation to any county, city, or town for designations by the governing body of up to \$1 ~~\$10~~ million in ~~county, city, or town~~ general funds for use by the county, city, or town to improve, construct, or reconstruct the highway systems within such county, city, or town. After adopting a resolution supporting the action, the governing body may request revenue-sharing funds to improve, construct, or reconstruct a highway system located in another locality, between two or more localities, or to bring subdivision streets, used as such prior to ~~July 1, 1992~~ *the date specified in § 33.1-72.1*, up to standards sufficient to qualify them for inclusion in the state primary and secondary system of highways. All requests for funding shall be accompanied by a prioritized listing of specified projects.

B. The allocation of funds to localities shall be only for the purposes set forth in subsection A. In allocating funds under this section, the Board shall give priority (i) first when such project is administered by the county, city, or town, either directly or by contract with another entity, (ii) second, when such county, city, or town commits more local funding than the amount of revenue-sharing funding requested, and (iii) third when the allocation will accelerate an existing project in the Six-Year Improvement Program or the locality's capital plans. At the request of the locality, the Department may provide the locality with engineering, right-of-way acquisition, and/or construction services for a project with its own forces. The locality shall provide payment to the Department for any such services. If administered by the Department, such contract shall also require that the governing body pay to the Department within 30 days the local revenue-sharing funds from its general fund upon written notice by the Department of its intent to proceed. Any project having funds allocated under this program shall be initiated in such a fashion where at least a portion of such funds have been expended within two subsequent fiscal years of allocation. Any revenue-sharing funds for projects not initiated after two subsequent fiscal years of allocation may be reallocated at the discretion of the Commonwealth Transportation Board.

D. Total Commonwealth funds allocated by the Board under this section shall not exceed \$50 ~~\$200~~ million in any one fiscal year and no less than \$15 million each fiscal year, subject to appropriation for such purpose.

Article 1.2.

Virginia Transportation Infrastructure Bank.

§ 33.1-23.6. Legislative findings and purposes.

The General Assembly finds that there exists in the Commonwealth a critical need for additional sources of funding to finance the present and future needs of the Commonwealth for the design and construction of roads and highways, including toll facilities, mass transit, freight and commuter rail, including rolling stock, port, and other transportation facilities. This need can be alleviated in part through the creation of a transportation infrastructure bank. The purpose of such bank is to encourage the investment of both public and private funds and to make loans and other financial assistance available to localities, private entities, and other eligible borrowers to finance eligible transportation projects. The General Assembly determines that the creation of a transportation infrastructure bank for this purpose is in the public interest, serves a public purpose, and will promote the health, safety, welfare, convenience, or prosperity of the people of the Commonwealth.

§ 33.1-23.8. Creation of the Virginia Transportation Infrastructure Bank.

A. There is hereby created in the state treasury a special nonreverting, revolving loan fund that is a subfund of the Transportation Trust Fund, known as the Virginia Transportation Infrastructure Bank. The Bank shall be established on the books of the Comptroller. The Bank shall be capitalized as recommended by the Governor, and appropriated by the General Assembly, and the appropriations shall be paid into the state treasury and credited to the Bank. Repayment of loans and interest earned on the moneys in the Bank shall be credited to the Bank. Any moneys remaining in the Bank, including interest thereon, at the end of each fiscal year shall not revert to the general fund but shall remain in the Bank. The Bank shall be managed and administered by the Manager subject to certain specific rights of the Commonwealth Transportation Board as set forth in this article or as may be set forth in the management agreement. Notwithstanding anything to the contrary set forth in this article or in the management agreement, the Commonwealth Transportation Board shall have the right to determine the projects for which loans or other financial assistance may be provided by the Bank. Moneys in the Bank shall be used solely for the purposes enumerated in subsections C and D.

B. The Commonwealth Transportation Board and the Virginia Resources Authority are authorized to enter into a management agreement under which the Virginia Resources Authority will manage and administer the Bank, which may include provisions (i) setting forth the terms and conditions under which the Virginia Resources Authority will advise the Commonwealth Transportation Board on the financial propriety of providing loans or other financial assistance to prospective eligible borrowers or other project sponsors, (ii) setting forth the terms and conditions under which the substantive requirements of subsections C through F and § 33.1-23.11 will be applied and administered, and (iii) authorizing the Virginia Resources Authority to disburse from the moneys in or payable to the Bank the reasonable costs and expenses the Virginia Resources Authority may incur in the management and administration of the Bank and a reasonable fee to be approved by the Commonwealth Transportation Board for the Virginia Resources Authority's management and administrative services.

C. 1. Moneys deposited in the Bank shall be used for the purpose of making loans and other financial assistance to finance projects.

2. Each project obligation shall be payable, in whole or in part, from reliable revenue sources pledged for such purpose.

3. The interest rate on a project obligation, if any, shall be determined by reference to the current market rates for comparable obligations, the nature of the project and the financing structure therefor, and the creditworthiness of the eligible borrower and any other project sponsors.

4. The repayment schedule for each project obligation shall require the amortization of principal

beginning no later than five years following substantial project completion and a final maturity date of not more than 35 years following substantial project completion.

D. A portion that is not less than 20 percent of the capitalization of the Bank shall be used for grants or interest rate subsidies to localities to finance projects.

E. The pledge of reliable revenue sources and other property securing any project obligation may be subordinate to the pledge securing any other senior debt obligations incurred to finance the project.

F. Notwithstanding subdivision C 4, the Manager may at any time following substantial project completion reduce, defer, or cancel payments on a project obligation if the project is unable to generate sufficient revenues to pay the scheduled payments.

G. No loan or other financial assistance may be provided or committed to be provided by the Bank in a manner that would cause such loan or other financial assistance to be tax-supported debt within the meaning of § 2.2-2713 or be deemed to constitute a debt of the Commonwealth of Virginia or a pledge of the full faith and credit of the Commonwealth but shall be payable solely from legally available moneys held by the Bank.

H. The Bank is not authorized or empowered to be or to constitute a bank or trust company within the jurisdiction or under the control of the Commonwealth or an agency thereof or the Comptroller of Currency of the U.S. Treasury Department; or a bank, banker, or dealer in securities within the meaning of, or subject to the provisions of, any securities, securities exchange, or securities dealers law of the United States or of the Commonwealth.

I. The Commonwealth Transportation Board or the Manager may direct the Comptroller to establish federal and state accounts or subaccounts as may be necessary to meet any applicable federal law requirements or desirable for the efficient administration of the Bank in accordance with this article.

§ 33.1-23.9. Eligibility and project selection.

A. Any entity constituting an eligible borrower or a project sponsor is eligible to apply for a loan or other financial assistance from the Bank to finance a project.

B. Notwithstanding subsection A, [~~only localities~~ localities and transportation district commissions, and public transportation entities owned, operated or controlled by any county, city or town or any combination thereof] are eligible to apply for a grant or an interest rate subsidy from the Bank.

C. All applicants for a loan must file an application with the Manager, which must include all items determined by the Manager to be necessary and appropriate for the Commonwealth Transportation Board to determine whether or not to approve the loan, including the availability of reliable repayment sources to retire the project obligation as well as creditworthiness.

D. Any locality applying for a grant or interest rate subsidy must demonstrate, among other things as determined by the Manager, that the project cannot be financed on reasonable terms or would otherwise be financially infeasible without the grant or interest rate subsidy.

E. Each applicant for a loan or other financial assistance must demonstrate that the project is of local, regional, or statewide significance and meets the goal of generating economic benefits, improving air quality, reducing congestion, or improving safety through enhancement of the state transportation network. Another criterion to be considered is whether or not the loan or other financial assistance will enable the project to be completed at an earlier date than otherwise feasible.

F. All projects for which a loan or other financial assistance is provided must meet and remain in compliance with the policies and guidelines established by the Commonwealth Transportation Board and the Virginia Resources Authority.

§ 33.1-23.10. Grants from the Commonwealth Transportation Board.

The Commonwealth Transportation Board may make grants of money or property to the Bank for the purpose of enabling it to carry out its corporate purposes and for the exercise of its powers. § 33.1-23.11. Acquisition of project obligations.

A. The Manager shall have the power and authority to cause the Bank to purchase or otherwise acquire, on terms as defined by the Manager, project obligations to evidence or guarantee loans or other financial assistance (which for purposes of this section shall not include grants and interest rate subsidies) provided to finance or refinance the costs of any project. The Manager may also sell any project obligations so acquired and apply the proceeds of such a sale to the making of additional loans and the provision of other financial assistance for financing or refinancing the cost of any project or for any other corporate purpose of the Bank.

B. The Manager may require, as a condition to provision of a loan or other financial assistance and the acquisition of any project obligations, that the eligible borrower or other project sponsor or sponsors covenant to perform any of the following:

1. Establish and collect tolls, rents, rates, fees, and other charges to produce revenue sufficient to pay all or a specified portion of (i) the costs of operation, maintenance, replacement, renewal, and repairs of the project; (ii) any outstanding indebtedness incurred for the purposes of the project,

including the principal of and premium, if any, and interest on the project obligations; and (iii) any amounts necessary to create and maintain any required reserve, including any rate stabilization fund deemed necessary or appropriate by the Manager to offset the need, in whole or part, for future increases in tolls, rents, rates, fees, or charges;

2. Create and maintain a special fund or funds as security for or the source of the scheduled payments on the project obligations or for the operation, maintenance, repair, or replacement of the project or any portions thereof or other property of the eligible borrower or other project sponsors, and deposit into any fund or funds amounts sufficient to make any payments as they become due and payable;

3. Create and maintain other special funds as required by the Manager; and

4. Perform other acts, including the conveyance or mortgaging of real and personal property together with all right, title, and interest therein to secure project obligations, or take other actions as may be deemed necessary or desirable by the Manager to secure payment of the project obligations and to provide for the remedies of the Manager or other holder of the project obligations in the event of any default or nonpayment by the eligible borrower or other project sponsor or sponsors, including, without limitation, any of the following:

a. The procurement of credit enhancements or liquidity arrangements for project obligations from any source, public or private, and the payment therefor of premiums, fees, or other charges.

b. c. The payment of such fees and charges in connection with the acquisition of the project obligations as may be determined by the Manager.

C. All eligible borrowers and other project sponsors, including any localities, providing project obligations to the Bank are authorized to perform any acts, take any action, adopt any proceedings, and make and carry out any contracts with the Bank, the Manager, or the Commonwealth Transportation Board that are contemplated by this article. Such contracts need not be identical among all eligible borrowers or other project sponsors, but may be structured as determined by the Manager according to the needs of the contracting eligible borrowers and other project sponsors and the purposes of the Bank.

In addition, subject to the approval of the Manager, any project sponsor is authorized to establish and contract with a special purpose or limited instrumentality, corporation, or other entity for the purpose of having such entity serve as the eligible borrower with respect to a particular project.

§ 33.1-23.12. Exemption from taxation; exemption from Virginia Public Procurement Act.

A. The Bank will be performing an essential governmental function in the exercise of the powers conferred upon it by this article. Accordingly, the Bank shall not be required to pay any taxes or assessments to the Commonwealth or its localities or any political subdivision thereof upon any capital, moneys or any property or upon any operations of the Bank or the income therefrom, or any taxes or assessments upon any project or any property or project obligation acquired by the Bank under the provisions of this article or upon the income therefrom.
