### Exemption for Space Facilities

Current law provides an exemption from the Retail Sales and Use Tax for the sale, lease, use, storage, consumption or distribution of various types of tangible personal property used to conduct spaceport activities. "Spaceport activities" are defined as activities directed or sponsored at a facility owned, leased, or operated by or on behalf of the Virginia Commercial Space Flight Authority. Items such as orbital or suborbital space facilities, space propulsion systems, space vehicles, satellites, space stations, including any property contained in the foregoing items, and fuel are included in this exemption. The exemption also includes machinery and equipment used exclusively for spaceport activities and the sale of goods and services provided to operate and maintain launch facilities, launch equipment, payload processing facilities, and payload processing equipment when these items are used to conduct spaceport activities.

When this exemption was enacted in 1997, the exemption was set to expire on June 30, 2001. In 2001, the expiration was extended to July 1, 2011.

### Proposal

This bill would remove the sunset date for this exemption and make the exemption permanent.

The effective date of this bill is not specified.

### Similar Bills

**House Bill 1704** is identical to this bill.

**House Bill 1638** would extend the sunset date for the exemption from the Retail Sales and Use Tax for machinery, tools, and equipment used in the extraction of natural gas or oil from July 1, 2011 to July 1, 2016, and would extend the sunset date of the exemption for items used to conduct spaceport activities from July 1, 2011 to July 1, 2016.
