HOUSE BILL NO. 399

AMENDMENT IN THE NATURE OF A SUBSTITUTE (Proposed by the House Committee on Health, Welfare and Institutions on January 26, 2012)

(Patron Prior to Substitute—Delegate Hope)

234567 A BILL to require the Department of Health to convene a work group to develop a plan for implementation of a program for screening infants for critical congenital evanotic heart disease. Be it enacted by the General Assembly of Virginia: 8

9 1. § 1. That the Department of Health shall convene a work group, which shall include, but not be limited to, representatives of the Department of Health, the Department of Health Professions, the 10 Virginia Commonwealth University Health System, the University of Virginia Health System, Eastern 11 Virginia Medical School, the American Heart Association, the Children's National Medical Center, the 12 March of Dimes Virginia Chapter, the Virginia Chapter of the American Academy of Pediatrics, the 13 Virginia Hospital and Healthcare Association, the Medical Society of Virginia, Inova Fairfax Hospital, 14 15 Carilion Roanoke Memorial Hospital, and the American College of Cardiologists of Virginia, to develop 16 a plan for implementation of a program for screening infants for critical congenital cyanotic heart 17 disease using transcutaneous oxygen monitoring and providing appropriate early intervention services to infants identified as having critical congenital cyanotic heart disease to reduce rates of death or 18 disability among such children. The plan shall include: provisions for implementing the screening 19 20 program in all hospitals providing maternity services statewide; a process for referring infants identified 21 as having critical congenital cyanotic heart disease to appropriate health care services; provisions for 22 public education regarding the symptoms of critical congenital cyanotic heart disease and options for 23 diagnosis and treatment of critical congenital cyanotic heart disease; and provisions for training health 24 care providers regarding the diagnosis and treatment of critical congenital cyanotic heart disease. The 25 plan shall also include the estimated cost of the program and shall identify potential sources of funding 26 for the program.
