Summary of Proposed Legislation:

The proposed legislation adds §§ 18.2-178.1 and 19.2-386.33, regarding financial exploitation of elderly persons or vulnerable adults, to the *Code of Virginia*. The proposed § 18.2-178.1 provides that knowingly, by deception, intimidation, undue influence, coercion, harassment, duress, or misrepresentation, using, obtaining, converting, or taking control of the property or financial resources of an elderly or vulnerable adult with the intent to temporarily or permanently deprive the victim thereof is punishable as larceny. If the violation is by a caregiver or a person in a position of trust, it is a Class 3 felony. The proposed § 18.2-178.1 also defines terms such as “caregiver,” “elderly person” (any person 60 years of age or older), “financial resources,” “position of trust,” “property,” “undue influence,” and “vulnerable adult”. The proposal overlaps with many existing felony property crimes, including obtaining money or property by false pretenses (§ 18.2-178), forging and uttering (§ 18.2-172), and identity theft (§ 18.2-186.3). The penalty for larceny of \$200 or more (not from a person) under § 18.2-95 includes a term of imprisonment from one to twenty years. Larceny of less than \$200 (not from a person) under § 18.2-96 is punishable as a Class 1 misdemeanor and carries a maximum term of 12 months imprisonment.

The proposed § 19.2-386.33 provides for the lawful seizure by a law-enforcement officer and forfeiture to the Commonwealth of property used in connection with the financial exploitation of elderly persons or vulnerable adults.

Analysis:

According to calendar year (CY) 2010 Incident-Based Reporting (IBR) crime data provided by the Virginia Department of State Police and compiled by the Department of Criminal Justice Services, there were 183,022 offenses reported to police involving larceny, motor vehicle theft, stolen property

offenses, false pretenses, counterfeiting/forgery, and impersonation (identity theft) during this time period. Of the total, 82,565 (45%) resulted in a loss of \$200 or more based on the value of the single costliest item that was lost in the incident. Of incidents resulting in a loss of \$200 or more, 10.4% involved victims aged 60 or older in CY2010. Comparable data for victims who would meet the definition of a vulnerable adult are not available.

Felony conviction data for property crimes rarely contain information regarding the age of the victim. The table below contains sentencing information for the crimes that may be affected by the proposal irrespective of victim age.

Historical Sentencing Information for Specified Crimes (All Cases/Victims)

	Number of Cases	% No Incarceration	% Local Responsible	% State Responsible	Median State Responsible Sentence
Grand larceny (§ 18.2-95) and other felonies punished as grand larceny	7,438	39%	35%	26%	2.0 yrs.

Impact of Proposed Legislation:

State adult correctional facilities. The proposed legislation makes certain property crimes punishable as larceny when the victim is an elderly or vulnerable adult. The proposal also provides for enhanced penalties when the offender is a caregiver or a person in a position of trust. As a result, the proposed legislation may increase the future state-responsible (prison) bed space needs of the Commonwealth. However, the databases available to the Commission do not contain sufficient detail to estimate the number of convictions that may be affected by the proposal. Therefore, the magnitude of the impact cannot be quantified.

Local adult correctional facilities. The proposal could also affect the local-responsible (jail) bed space needs of the Commonwealth. However, the magnitude of the impact cannot be determined.

Adult community corrections programs. The net impact of the proposal on community corrections resources cannot be determined.

Virginia's sentencing guidelines. Because the proposal defines new felony offenses, convictions under the proposed § 18.2-178.1 would not be covered by the sentencing guidelines as the primary, or most serious, offense. Such a conviction, however, could augment the guidelines recommendation if the most serious offense at sentencing is covered by the guidelines. No adjustment to the guidelines is necessary under the proposal.

Juvenile correctional centers. According to the Department of Juvenile Justice (DJJ), the proposal is not expected to increase juvenile correctional center (JCC) bed space needs.

Juvenile detention facilities. The Department of Juvenile Justice reports that the proposal is not expected to increase the bed space needs of juvenile detention facilities.

Pursuant to § 30-19.1:4, the estimated amount of the necessary appropriation cannot be determined for periods of imprisonment in state adult correctional facilities; therefore, Chapter 890 of the 2011 Acts of Assembly requires the Virginia Criminal Sentencing Commission to assign a minimum fiscal impact of \$50,000.

Pursuant to § 30-19.1:4, the estimated amount of the necessary appropriation is \$0 for periods of commitment to the custody of the Department of Juvenile Justice.
