211 A. The Board of Education shall promulgate regulations establishing standards for accreditation
212 pursuant to the Administrative Process Act (§ 2.2-4000 et seq.), which shall include, but not be limited
213 to, student outcome measures, requirements and guidelines for instructional programs and for the
214 integration of educational technology into such instructional programs, administrative and instructional
215 staffing levels and positions, including staff positions for supporting educational technology, student
216 services, auxiliary education programs such as library and media services, course and credit requirements
217 for graduation from high school, community relations, and the philosophy, goals, and objectives of
218 public education in Virginia.

219 The Board of Education shall promulgate regulations establishing standards for accreditation of
220 public virtual schools under the authority of the local school board that enroll students full time.

221 The Board shall review annually the accreditation status of all schools in the Commonwealth.

222 Each local school board shall maintain schools that are fully accredited pursuant to the standards for
223 accreditation as prescribed by the Board of Education. Each local school board shall review the
224 accreditation status of all schools in the local school division annually in public session. Within the time
225 specified by the Board of Education, each school board shall submit corrective action plans for any
226 schools within its school division that have been designated as not meeting the standards as approved by
227 the Board.

228 When the Board of Education has obtained evidence through the school academic review process that
229 the failure of schools within a division to achieve full accreditation status is related to division level
230 failure to implement the Standards of Quality, the Board may require a division level academic review.
231 After the conduct of such review and within the time specified by the Board of Education, each school
232 board shall submit for approval by the Board a corrective action plan, consistent with criteria established
233 by the Board and setting forth specific actions and a schedule designed to ensure that schools within its
234 school division achieve full accreditation status. Such corrective action plans shall be part of the relevant
235 school division's comprehensive plan pursuant to § 22.1-253.13:6.

236 With such funds as are appropriated or otherwise received for this purpose, the Board shall adopt and
237 implement an academic review process, to be conducted by the Department of Education, to assist
238 schools that are accredited with warning. The Department shall forward a report of each academic
239 review to the relevant local school board, and such school board shall report the results of such
240 academic review and the required annual progress reports in public session. The local school board shall
241 implement any actions identified through the academic review and utilize them for improvement
242 planning.

243 B. The Superintendent of Public Instruction shall develop and the Board of Education shall approve

criteria for determining and recognizing educational performance in the Commonwealth's public school divisions and schools. Such criteria, when approved, shall become an integral part of the accreditation process and shall include student outcome measurements. The Superintendent of Public Instruction shall annually identify to the Board those school divisions and schools that exceed or do not meet the approved criteria. Such identification shall include an analysis of the strengths and weaknesses of public education programs in the various school divisions in Virginia and recommendations to the General Assembly for further enhancing student learning uniformly across the Commonwealth. In recognizing educational performance in the school divisions, the Board shall include consideration of special school division accomplishments, such as numbers of dual enrollments and students in Advanced Placement and International Baccalaureate courses, and participation in academic year Governor's Schools.

The Superintendent of Public Instruction shall assist local school boards in the implementation of action plans for increasing educational performance in those school divisions and schools that are identified as not meeting the approved criteria. The Superintendent of Public Instruction shall monitor the implementation of and report to the Board of Education on the effectiveness of the corrective actions taken to improve the educational performance in such school divisions and schools.

C. With such funds as are available for this purpose, the Board of Education shall prescribe assessment methods to determine the level of achievement of the Standards of Learning objectives by all students. Such assessments shall evaluate knowledge, application of knowledge, critical thinking, and skills related to the Standards of Learning being assessed. The Board shall (i) in consultation with the chairpersons of the eight regional superintendents' study groups, establish a timetable for administering the Standards of Learning assessments to ensure genuine end-of-course and end-of-grade testing and (ii) with the assistance of independent testing experts, conduct a regular analysis and validation process for these assessments.

In prescribing such Standards of Learning assessments, the Board shall provide local school boards the option of administering tests for United States History to 1877, United States History: 1877 to the Present, and Civics and Economics. The last administration of the cumulative grade eight history test will be during the 2007-2008 academic school year. Beginning with the 2008-2009 academic year, all school divisions shall administer the United States History to 1877, United States History: 1877 to the Present, and Civics and Economics tests. The Board shall also provide the option of industry certification and state licensure examinations as a student-selected verified credit.

The Board of Education shall make publicly available such assessments in a timely manner and as soon as practicable following the administration of such tests, so long as the release of such assessments does not compromise test security or deplete the bank of assessment questions necessary to construct subsequent tests, or limit the ability to test students on demand and provide immediate results in the web-based assessment system.

The Board shall include in the student outcome measures that are required by the Standards for Accreditation end-of-course or end-of-grade tests for various grade levels and classes, as determined by the Board, in accordance with the Standards of Learning. These Standards of Learning assessments shall include, but need not be limited to, end-of-course or end-of-grade tests for English, mathematics, science, and history and social science. Local school divisions shall provide targeted mathematics remediation and intervention to students in grades six through eight who show computational deficiencies as demonstrated by their individual performance on any diagnostic test or grade-level Standards of Learning mathematics test that measures non-calculator computational skills.

In addition, to assess the educational progress of students, the Board of Education shall (a) develop appropriate assessments, which may include criterion-referenced tests and alternative assessment instruments that may be used by classroom teachers; (b) select appropriate industry certification and state licensure examinations; and (c) prescribe and provide measures, which may include nationally normed tests to be used to identify students who score in the bottom quartile at selected grade levels. An annual justification that includes evidence that the student meets the participation criteria defined by the Virginia Department of Education shall be provided for each student considered for the Virginia Grade Level Alternative. Each Individual Education Program team shall review such justification and make the final determination as to whether or not the Virginia Grade Level Alternative is appropriate for the student. The superintendent and the school board chairman shall certify to the Board of Education, as a part of certifying compliance with the Standards of Quality, that there is a justification in the Individual Education Program for every student who takes the Virginia Grade Level Alternative. Compliance with this requirement shall be monitored as a part of the special education monitoring process conducted by the Department of Education. The Board shall report to the Governor and General Assembly in its annual reports pursuant to § 22.1-18 any school division that is not in compliance with this requirement.

The Standards of Learning requirements, including all related assessments, shall be waived for any student awarded a scholarship under the Brown v. Board of Education Scholarship Program, pursuant to

§ 30-231.2, who is enrolled in a preparation program for the General Education Development (GED) certificate a high school equivalency examination approved by the Board of Education or in an adult basic education program or an adult secondary education program to obtain the high school diploma or a high school equivalency certificate.

The Board of Education may adopt special provisions related to the administration and use of any Standards of Learning test or tests in a content area as applied to accreditation ratings for any period during which the Standards of Learning content or assessments in that area are being revised and phased in. Prior to statewide administration of such tests, the Board of Education shall provide notice to local school boards regarding such special provisions.

D. The Board of Education may pursue all available civil remedies pursuant to § 22.1-19.1 or administrative action pursuant to § 22.1-292.1 for breaches in test security and unauthorized alteration of test materials or test results.

The Board may initiate or cause to be initiated a review or investigation of any alleged breach in security, unauthorized alteration, or improper administration of tests, including the exclusion of students from testing who are required to be assessed, by local school board employees responsible for the distribution or administration of the tests.

Records and other information furnished to or prepared by the Board during the conduct of a review or investigation may be withheld pursuant to subdivision 11 of § 2.2-3705.3. However, this section shall not prohibit the disclosure of records to (i) a local school board or division superintendent for the purpose of permitting such board or superintendent to consider or to take personnel action with regard to an employee or (ii) any requester, after the conclusion of a review or investigation, in a form that (a) does not reveal the identity of any person making a complaint or supplying information to the Board on a confidential basis and (b) does not compromise the security of any test mandated by the Board. Any local school board or division superintendent receiving such records or other information shall, upon taking personnel action against a relevant employee, place copies of such records or information relating to the specific employee in such person's personnel file.

Notwithstanding any other provision of state law, no test or examination authorized by this section, including the Standards of Learning assessments, shall be released or required to be released as minimum competency tests, if, in the judgment of the Board, such release would breach the security of such test or examination or deplete the bank of questions necessary to construct future secure tests.

E. With such funds as may be appropriated, the Board of Education may provide, through an agreement with vendors having the technical capacity and expertise to provide computerized tests and assessments, and test construction, analysis, and security, for (i) web-based computerized tests and assessments for the evaluation of student progress during and after remediation and (ii) the development of a remediation item bank directly related to the Standards of Learning.

F. To assess the educational progress of students as individuals and as groups, each local school board shall require the use of Standards of Learning assessments and other relevant data, such as industry certification and state licensure examinations, to evaluate student progress and to determine educational performance. Each local school shall require the administration of appropriate assessments to all students for grade levels and courses identified by the Board of Education, which may include criterion-referenced tests, teacher-made tests and alternative assessment instruments and shall include the Standards of Learning Assessments and the National Assessment of Educational Progress state-by-state assessment. Each school board shall analyze and report annually, in compliance with any criteria that may be established by the Board of Education, the results from the Stanford Achievement Test Series, Ninth Edition (Stanford Nine) assessment, if administered, industry certification examinations, and the Standards of Learning Assessments to the public.

The Board of Education shall not require administration of the Stanford Achievement Test Series, Ninth Edition (Stanford Nine) assessment, except as may be selected to facilitate compliance with the requirements for home instruction pursuant to § 22.1-254.1.

The Board shall include requirements for the reporting of the Standards of Learning assessment scores and averages for each year as part of the Board's requirements relating to the School Performance Report Card. Such scores shall be disaggregated for each school by student subgroups on the Virginia assessment program as appropriate and shall be reported to the public within three months of their receipt. These reports (i) shall be posted on the portion of the Department of Education's website relating to the School Performance Report Card, in a format and in a manner that allows year-to-year comparisons, and (ii) may include the National Assessment of Educational Progress state-by-state assessment.

G. Each local school division superintendent shall regularly review the division's submission of data and reports required by state and federal law and regulations to ensure that all information is accurate and submitted in a timely fashion. The Superintendent of Public Instruction shall provide a list of the required reports and data to division superintendents annually. The status of compliance with this requirement shall be included in the Board of Education's annual report to the Governor and the General

Assembly as required by § 22.1-18.

H. Any school board may request the Board of Education for release from state regulations or, on behalf of one or more of its schools, for approval of an Individual School Accreditation Plan for the evaluation of the performance of one or more of its schools as authorized for certain other schools by the Standards of Accreditation pursuant to 8 VAC 20-131-280 C of the Virginia Administrative Code. Waivers of regulatory requirements may be granted by the Board of Education based on submission of a request from the division superintendent and chairman of the local school board. The Board of Education may grant, for a period up to five years, a waiver of regulatory requirements that are not (i) mandated by state or federal law or (ii) designed to promote health or safety. The school board shall provide in its waiver request a description of how the releases from state regulations are designed to increase the quality of instruction and improve the achievement of students in the affected school or schools. The Department of Education shall provide (a) guidance to any local school division that requests releases from state regulations and (b) information about opportunities to form partnerships with other agencies or entities to any local school division in which the school or schools granted releases from state regulations have demonstrated improvement in the quality of instruction and the achievement of students.

The Board of Education may also grant local school boards waivers of specific requirements in § 22.1-253.13:2, based on submission of a request from the division superintendent and chairman of the local school board, permitting the local school board to assign instructional personnel to the schools with the greatest needs, so long as the school division employs a sufficient number of personnel divisionwide to meet the total number required by § 22.1-253.13:2 and all pupil/teacher ratios and class size maximums set forth in subsection C of § 22.1-253.13:2 are met. The school board shall provide in its request a description of how the waivers from specific Standards of Quality staffing standards are designed to increase the quality of instruction and improve the achievement of students in the affected school or schools. The waivers may be renewed in up to five-year increments, or revoked, based on student achievement results in the affected school or schools.

§ 22.1-253.13:4. Standard 4. Student achievement and graduation requirements.

A. Each local school board shall award diplomas to all secondary school students, including students who transfer from nonpublic schools or from home instruction, who earn the units of credit prescribed by the Board of Education, pass the prescribed tests, and meet such other requirements as may be prescribed by the local school board and approved by the Board of Education. Provisions shall be made to facilitate the transfer and appropriate grade placement of students from other public secondary schools, from nonpublic schools, or from home instruction as outlined in the standards for accreditation. Course credits earned for online courses taken in the Department of Education's Virtual Virginia program shall transfer to Virginia public schools in accordance with provisions of the standards for accreditation. Further, reasonable accommodation to meet the requirements for diplomas shall be provided for otherwise qualified students with disabilities as needed.

In addition, each local school board may devise, vis-a-vis the award of diplomas to secondary school students, a mechanism for calculating class rankings that takes into consideration whether the student has taken a required class more than one time and has had any prior earned grade for such required class expunged.

Each local school board shall notify the parents of rising eleventh and twelfth grade students of (i) the number and subject area requirements of standard and verified units of credit required for graduation pursuant to the standards for accreditation and (ii) the remaining number and subject area requirements of such units of credit the individual student requires for graduation.

B. Students identified as disabled who complete the requirements of their individualized education programs shall be awarded special diplomas by local school boards.

Each local school board shall notify the parent of such students with disabilities who have an individualized education program and who fail to meet the requirements for a standard or advanced studies diploma of the student's right to a free and appropriate education to age 21, inclusive, pursuant to Article 2 (§ 22.1-213 et seq.) of Chapter 13.

C. Students who have completed a prescribed course of study as defined by the local school board shall be awarded certificates of program completion by local school boards if they are not eligible to receive a Board of Education-approved diploma.

Each local school board shall provide notification of the right to a free public education for students who have not reached 20 years of age on or before August 1 of the school year, pursuant to Chapter 1 (§ 22.1-1 et seq.), to the parent of students who fail to graduate or who have failed to achieve the number of verified units of credit required for graduation as provided in the standards for accreditation. If such student who does not graduate or achieve such verified units of credit is a student for whom English is a second language, the local school board shall notify the parent of the student's opportunity for a free public education in accordance with § 22.1-5.

D. In establishing course and credit requirements for a high school diploma, the Board shall:

1. Provide for the selection of integrated learning courses meeting the Standards of Learning and approved by the Board to satisfy graduation credit requirements, which shall include Standards of Learning testing, as necessary.

2. Establish the requirements for a standard and an advanced studies high school diploma, which shall each include at least one credit in fine or performing arts or career and technical education and one credit in United States and Virginia history. The requirements for a standard high school diploma shall, however, include at least two sequential electives chosen from a concentration of courses selected from a variety of options that may be planned to ensure the completion of a focused sequence of elective courses. Such focused sequence of elective courses shall provide a foundation for further education or training or preparation for employment. The advanced studies diploma shall be the recommended diploma for students pursuing baccalaureate study. Both the standard and the advanced studies diploma shall prepare students for post-secondary education and the career readiness required by the Commonwealth's economy.

Beginning with first-time ninth grade students in the 2013-2014 school year, requirements for the standard diploma shall include a requirement to earn a career and technical education credential that has been approved by the Board, that could include, but not be limited to, the successful completion of an industry certification, a state licensure examination, a national occupational competency assessment, or the Virginia workplace readiness skills assessment.

Beginning with first-time ninth grade students in the 2016-2017 school year, requirements for the standard and advanced diplomas shall include a requirement to be trained in emergency first aid, cardiopulmonary resuscitation, and the use of automated external defibrillators, including hands-on practice of the skills necessary to perform cardiopulmonary resuscitation.

The Board shall make provision in its regulations for students with disabilities to earn a standard diploma.

4. Provide, in the requirements for the verified units of credit stipulated for obtaining the standard or advanced studies diploma, that students completing elective classes into which the Standards of Learning for any required course have been integrated may take the relevant Standards of Learning test for the relevant required course and receive, upon achieving a satisfactory score on the specific Standards of Learning assessment, a verified unit of credit for such elective class that shall be deemed to satisfy the Board's requirement for verified credit for the required course.

5. Establish a procedure to facilitate the acceleration of students that allows qualified students, with the recommendation of the division superintendent, without completing the 140-hour class, to obtain credit for such class upon demonstration of mastery of the course content and objectives. Having received credit for the course, the student shall be permitted to sit for the relevant Standards of Learning assessment and, upon receiving a passing score, shall earn a verified credit. Nothing in this section shall preclude relevant school division personnel from enforcing compulsory attendance in public schools.

6. Provide for the award of verified units of credit for passing scores on industry certifications, state licensure examinations, and national occupational competency assessments approved by the Board of Education.

School boards shall report annually to the Board of Education the number of Board-approved industry certifications obtained, state licensure examinations passed, national occupational competency assessments passed, Virginia workplace readiness skills assessments passed, and the number of career and technical education completers who graduated. These numbers shall be reported as separate categories on the School Performance Report Card.

For the purposes of this subdivision, "career and technical education completer" means a student who has met the requirements for a career and technical concentration or specialization and all requirements for high school graduation or an approved alternative education program.

In addition, the Board may:

a. For the purpose of awarding verified units of credit, approve the use of additional or substitute tests for the correlated Standards of Learning assessment, such as academic achievement tests, industry certifications or state licensure examinations; and

b. Permit students completing career and technical education programs designed to enable such students to pass such industry certification examinations or state licensure examinations to be awarded, upon obtaining satisfactory scores on such industry certification or licensure examinations, the appropriate verified units of credit for one or more career and technical education classes into which relevant Standards of Learning for various classes taught at the same level have been integrated. Such industry certification and state licensure examinations may cover relevant Standards of Learning for various required classes and may, at the discretion of the Board, address some Standards of Learning for several required classes.

7. Provide for the waiver of certain graduation requirements (i) upon the Board's initiative or (ii) at the request of a local school board. Such waivers shall be granted only for good cause and shall be considered on a case-by-case basis.

E. In the exercise of its authority to recognize exemplary academic performance by providing for diploma seals, the Board of Education shall develop criteria for recognizing exemplary performance in career and technical education programs by students who have completed the requirements for a Board of Education-approved diploma and shall award seals on the diplomas of students meeting such criteria.

In addition, the Board shall establish criteria for awarding a diploma seal for advanced mathematics and technology for the Board of Education-approved diplomas. The Board shall consider including criteria for (i) technology courses; (ii) technical writing, reading, and oral communication skills; (iii) technology-related training; and (iv) industry, professional, and trade association national certifications.

The Board shall also establish criteria for awarding a diploma seal for excellence in civics education and understanding of our state and federal constitutions and the democratic model of government for the Board of Education-approved diplomas. The Board shall consider including criteria for (i) successful completion of history, government, and civics courses, including courses that incorporate character education; (ii) voluntary participation in community service or extracurricular activities that includes the types of activities that shall qualify as community service and the number of hours required; and (iii) related requirements as it deems appropriate.

G. To ensure the uniform assessment of high school graduation rates, the Board shall collect, analyze, and report high school graduation and dropout data using a formula prescribed by the Board.

The Board may promulgate such regulations as may be necessary and appropriate for the collection, analysis, and reporting of such data.

829 degree program. Awards granted may also be used for the College-Level Examination Program (CLEP)
830 examinations and costs related to preparation for the tests, transition programs and services, and dual
831 enrollment programs as may be approved by the Committee, in accordance with § 30-231.8. Awards
832 granted to applicants accepted for enrollment at accredited career and technical education postsecondary
833 schools shall be made in accordance with Article VIII, section 11 of the Constitution of Virginia. In
834 addition, no scholarship under this Program shall be used to obtain multiple baccalaureate, masters,
835 doctoral, or professional degrees.

836 B. The Standards of Learning requirements and all related assessments shall be waived for any
837 student awarded a scholarship under this Program and enrolled in an adult basic education program to
838 obtain the high school diploma.

839 C. No student pursuing a course of religious training or theological education or a student enrolled in
840 any institution whose primary purpose is to provide religious training or theological education shall be
841 eligible to receive scholarship awards. However, nothing in this section shall be construed to prohibit a
842 student from taking courses of a religious or theological nature to satisfy undergraduate and graduate
843 elective requirements for a liberal arts nonreligious degree.

844 D. Only students who are domiciled residents of Virginia as defined by § 23-7.4 shall be eligible to
845 receive such awards. However, to facilitate the purposes of this Program only, the Committee may
846 establish a list of acceptable documents to verify United States citizenship and legal presence in the
847 Commonwealth from among those included in regulations promulgated by the Department of Motor
848 Vehicles governing legal presence in the Commonwealth to obtain a driver's license or identification
849 card, and regulations promulgated by the State Health Department governing requests for and access to
850 vital records.

851 E. Scholarships shall be awarded to eligible students by the Committee.

852 F. Scholarships may be renewed, upon request, annually if the recipient:

- 853 1. Maintains Virginia domicile and residency;
- 854 2. Evidences satisfactory academic achievement and progress toward program completion; and
- 855 3. Maintains continuous enrollment in an approved education program until graduation or program
856 completion, in accordance with the provisions of this section and § 30-231.1.

857 For scholarship renewal purposes, the Committee may extend the period in which satisfactory
858 academic achievement shall be demonstrated for no more than two semesters or the equivalent thereof.

G. For the purpose of this chapter, "eligible student" means a person currently domiciled and residing in the Commonwealth, who resided in a jurisdiction in Virginia between 1954 and 1964 in which the public schools were closed to avoid desegregation, and who (i) was unable during such years to (a) begin, continue, or complete his education in the public schools of the Commonwealth, (b) ineligible to attend a private academy or foundation, whether in state or out of state, established to circumvent desegregation, or (c) pursue postsecondary education opportunities or training because of the inability to obtain a high school diploma; or (ii) was required to relocate within or outside of the Commonwealth to begin, continue, or complete his public education during such years because public schools were closed to avoid desegregation.

§ 30-231.3. Amount of scholarships; use of scholarships; disbursement and recovery of scholarship funds; terms and conditions; penalty.

A. Scholarships shall be awarded from gifts, grants, donations, bequests, or other funds made available to the Program. No scholarship awarded under this Program shall exceed the total annual costs of tuition, a book allowance, and fees assessed by the educational agency for the specific program in which the student is enrolled, as determined by the Committee.

B. The full amount of each scholarship awarded to a recipient shall be used solely for the payment of tuition, a book allowance, and fees, or for a one-time only payment of the costs of a preparation program, instructional materials, and ~~examination for the General Education Development certificate high school equivalency examinations approved by the Board of Education~~ or the College-Level Examination Program (CLEP) examinations.

C. Awards granted to applicants accepted for enrollment at accredited career and technical education postsecondary schools shall be made in accordance with Article VIII, section 11 of the Constitution of Virginia.

D. No scholarship under this Program shall be used to obtain multiple baccalaureate, masters, doctoral, or professional degrees.

E. Before any scholarship is awarded, the applicant shall sign an acceptance form under the terms of which the applicant affirms the accuracy of the information he has provided and agrees to pursue the approved education program for which the scholarship is awarded until his graduation or the completion of the program, as appropriate. Following verification of enrollment by the relevant educational agency to the State Council of Higher Education, educational agencies acting as agents for students receiving awards under this chapter shall promptly credit disbursed funds to student accounts. A scholarship award made in accordance with the provisions of this chapter shall not be reduced by the educational agency upon receipt of any other financial assistance on behalf of the student. However, the scholarship award may be reduced by the Committee to ensure that, when such award is added to other financial assistance, the award does not produce a total of financial assistance that exceeds the annual total costs of tuition, a book allowance, and fees, pursuant to this section. Beginning on July 1, 2008, every educational agency acting as an agent for students receiving awards under this chapter shall notify the Committee and the State Council of Higher Education upon request concerning the type and total of other financial assistance received by such students. In addition, every educational agency accepting for admission persons awarded a Brown v. Board of Education scholarship shall, upon request, provide the Committee information concerning the accreditation status of the school and academic programs offered, and other relevant information as the Committee may require to evaluate the person's eligibility for the scholarship and to determine the eligibility of the educational agency for participation in the Program. Whenever a student withdraws from an educational agency or otherwise fails, regardless of reason, to complete the program in which he is enrolled, the educational agency shall surrender promptly to the Commonwealth the balance of the scholarship award, in accordance with the tuition refund policy in effect at the time of the student's admission to the educational agency.

F. Any person who uses a false or fictitious name or gives a false or fictitious address in any application for a scholarship or knowingly makes a false statement or conceals a material fact or otherwise commits a fraud in any such application shall be guilty of a Class 3 misdemeanor.

G. This chapter shall not be construed as creating any legally enforceable right or entitlement on the part of any person or any right or entitlement to participation in the Program. Scholarships shall be awarded to the extent funds are made available to the Program through gifts, grants, donations, bequests, or other funds.

§ 30-231.8. Powers and duties of the Committee.

The Committee shall have the following powers and duties:

§ 63.2-608. Virginia Initiative for Employment Not Welfare (VIEW).

A. The Department shall establish and administer the Virginia Initiative for Employment Not Welfare (VIEW) to reduce long-term dependence on welfare, to emphasize personal responsibility and to enhance opportunities for personal initiative and self-sufficiency by promoting the value of work. The Department shall endeavor to develop placements for VIEW participants that will enable participants to develop job skills that are likely to result in independent employment and that take into consideration the proficiency, experience, skills and prior training of a participant.

VIEW shall recognize clearly defined responsibilities and obligations on the part of public assistance recipients and shall include a written agreement of personal responsibility requiring parents to participate in work activities while receiving TANF, earned-income disregards to reduce disincentives to work, and a limit on TANF financial assistance.

VIEW shall require all able-bodied recipients of TANF who do not meet an exemption to participate in a work activity. VIEW shall require eligible TANF recipients to participate in unsubsidized, partially subsidized or fully subsidized employment or other allowable TANF work activity as defined by federal law and enter into an agreement of personal responsibility.

B. To the maximum extent permitted by federal law, and notwithstanding other provisions of Virginia law, the Department and local departments may, through applicable procurement laws and regulations, engage the services of public and private organizations to operate VIEW and to provide

1043 services incident to such operation.

1044 C. All VIEW participants shall be under the direction and supervision of a case manager.

1045 D. The Department shall ensure that participants are assigned to one of the following work activities
1046 within 90 days after the approval of TANF assistance:

1047 1. Unsubsidized private-sector employment;

1048 2. Subsidized employment, as follows:

1049 a. The Department shall conduct a program in accordance with this section that shall be known as
1050 the Full Employment Program (FEP). FEP replaces TANF with subsidized employment. Persons not
1051 able to find unsubsidized employment who are otherwise eligible for TANF may participate in FEP
1052 unless exempted by this chapter. FEP shall assign participants to subsidized wage-paying private-sector
1053 jobs designed to increase the participants' self-sufficiency and improve their competitive position in the
1054 workforce.

1055 b. Participants in FEP shall be placed in full-time employment when appropriate and shall be paid by
1056 the employer at an hourly rate not less than the federal or state minimum wage, whichever is higher. At
1057 no point shall a participant's spendable income received from wages and tax credits be less than the
1058 value of TANF received prior to the work placement.

1059 c. Every employer subject to the Virginia unemployment insurance tax shall be eligible for
1060 assignment of FEP participants, but no employer shall be required to utilize such participants. Employers
1061 shall ensure that jobs made available to FEP participants are in conformity with § 3304(a)(5) of the
1062 Federal Unemployment Tax Act. FEP participants cannot be used to displace regular workers.

1063 d. FEP employers shall:

1064 (i) Endeavor to make FEP placements positive learning and training experiences;

1065 (ii) Provide on-the-job training to the degree necessary for the participants to perform their duties;

1066 (iii) Pay wages to participants at the same rate that they are paid to other employees performing the
1067 same type of work and having similar experience and employment tenure;

1068 (iv) Provide sick leave, holiday and vacation benefits to participants to the same extent and on the
1069 same basis that they are provided to other employees performing the same type of work and having
1070 similar employment experience and tenure;

1071 (v) Maintain health, safety and working conditions at or above levels generally acceptable in the
1072 industry and no less than those in which other employees perform the same type of work;

1073 (vi) Provide workers' compensation coverage for participants;

1074 (vii) Encourage volunteer mentors from among their other employees to assist participants in
1075 becoming oriented to work and the workplace; and

1076 (viii) Sign an agreement with the local department outlining the employer requirements to participate
1077 in FEP. All agreements shall include notice of the employer's obligation to repay FEP reimbursements in
1078 the event the employer violates FEP rules.

1079 e. As a condition of FEP participation, employers shall be prohibited from discriminating against any
1080 person, including program participants, on the basis of race, color, sex, national origin, religion, age, or
1081 disability;

1082 3. Part-time or temporary employment;

1083 4. Community work experience, as follows:

1084 a. The Department and local departments shall work with other state, regional and local agencies and
1085 governments in developing job placements that serve a useful public purpose as provided in § 482(f) of
1086 the Social Security Act, as amended. Placements shall be selected to provide skills and serve a public
1087 function. VIEW participants shall not displace regular workers.

1088 b. The number of hours per week for participants shall be determined by combining the total dollar
1089 amount of TANF and food stamps and dividing by the minimum wage with a maximum of a work
1090 week of 32 hours, of which up to 12 hours of employment-related education and training may substitute
1091 for work experience employment; or

1092 5. Any other allowable TANF work activity as defined by federal law.

1093 E. Notwithstanding the provisions of subsections A and D, if a local department determines that a
1094 VIEW participant is in need of job skills and would benefit from immediate job skills training, it may
1095 place the participant in a ~~general educational development (GED)~~ *program preparing individuals for a*
1096 *high school equivalency examination approved by the Board of Education* or a career and technical
1097 education program targeted at skills required for particular employment opportunities. Eligible
1098 participants include those with problems related to obtaining and retaining employment, such as
1099 participants (i) with less than a high school education, (ii) whose reading or math skills are at or below
1100 the eighth grade level, (iii) who have not retained a job for a period of at least six months during the
1101 prior two years, or (iv) who are in a treatment program for a substance abuse problem or are receiving
1102 services through a family violence treatment program. The VIEW participant may continue in a ~~GED~~
1103 *high school equivalency examination preparation* program or career and technical education program for
1104 as long as the local department determines he is progressing satisfactorily and to the extent permitted by

the Personal Responsibility and Work Opportunity Reconciliation Act of 1996 (P.L. 104-193), as amended.

F. Participants may be reevaluated after a period determined by the local department and reassigned to another work component. In addition, the number of hours worked may be reduced by the local department so that a participant may complete additional training or education to further his employability.

G. Local departments shall be authorized to sanction parents up to the full amount of the TANF grant for noncompliance, unless good cause exists.

H. VIEW participants shall not be assigned to projects that require that they travel unreasonable distances from their homes or remain away from their homes overnight without their consent.

Any injury to a VIEW participant arising out of and in the course of community work experience shall be covered by the participant's existing Medicaid coverage. If a community work experience participant is unable to work due to such an accident, his status shall be reviewed to determine whether he is eligible for an exemption from the limitation on TANF financial assistance.

A community work experience participant who becomes incapacitated for 30 days or more shall be eligible for TANF financial assistance for the duration of the incapacity, if otherwise eligible.

The Board shall adopt regulations providing for the accrual of paid sick leave or other equivalent mechanism for community work experience participants.

§ 66-3. Powers of the Director.

A. The Director of the Department shall have the following general powers:

1. To employ such personnel as may be required to carry out the purposes of this title.

2. To make and enter into all contracts and agreements necessary or incidental to the performance of his duties and the execution of his powers under this title, including, but not limited to, contracts and agreements with the United States, other states, and agencies and governmental subdivisions of the Commonwealth.

7. To designate employees of the Department with internal investigations authority to have the same power as a sheriff or a law-enforcement officer in the investigation of allegations of criminal behavior affecting the operations of the Department. Such employees shall be subject to any minimum training standards established by the Department of Criminal Justice Services under § 9.1-102 for law-enforcement officers prior to exercising any law-enforcement power granted under this subdivision. Nothing in this section shall be construed to grant the Department any authority over the operation and security of detention homes not specified in any other provision of law. The Department shall investigate allegations of criminal behavior in accordance with a written agreement entered into with the Department of State Police. The Department shall not investigate any action falling within the authority vested in the Office of the State Inspector General pursuant to Chapter 3.2 (§ 2.2-307 et seq.) of Title 2.2 unless specifically authorized by the Office of the State Inspector General.

B. The Director shall comply with and require all school facilities within the Department to comply with applicable regulations and statutes, both state and federal.
