2. Patron: Favola, Barbara A.

3. Committee: Rehabilitation and Social Services

4. Title: Fairfax County; child-care subsidy

5. Summary: The proposed legislation allows Fairfax County to continue using a local sliding scale that sets copayment amounts between 2.5 and 10 percent of the families' countable monthly income for the fee-based child care program. The current statewide fee scale used by the Department of Social Services imposes a copayment equal to 10 percent of the families' countable monthly income.

6. Budget Amendment Necessary: No

7. No Fiscal Impact

8. Fiscal Implications: The amount of a locality's co-payment does not currently impact its child care allocation for the fee-based child care program. Moreover, the fee-based program is limited to available state and federal funding. While this bill might increase the proportional amount of child care expenditures for Fairfax County, it will not require DSS to expend additional dollars.

9. Specific Agency or Political Subdivisions Affected: Department of Social Services

10. Technical Amendment Necessary: No

11. Other Comments: None.
