## HOUSE BILL NO. 2218

Offered January 15, 2015

A BILL to amend and reenact § 22.1-253.13:4 of the Code of Virginia, relating to advanced studies diploma; foreign language requirements; technical programming or design language.

Patron—Hope

Referred to Committee on Education

**Be it enacted by the General Assembly of Virginia:****1. That § 22.1-253.13:4 of the Code of Virginia is amended and reenacted as follows:****§ 22.1-253.13:4. Standard 4. Student achievement and graduation requirements.**

A. Each local school board shall award diplomas to all secondary school students, including students who transfer from nonpublic schools or from home instruction, who earn the units of credit prescribed by the Board of Education, pass the prescribed tests, and meet such other requirements as may be prescribed by the local school board and approved by the Board of Education. Provisions shall be made to facilitate the transfer and appropriate grade placement of students from other public secondary schools, from nonpublic schools, or from home instruction as outlined in the standards for accreditation. Course credits earned for online courses taken in the Department of Education's Virtual Virginia program shall transfer to Virginia public schools in accordance with provisions of the standards for accreditation. Further, reasonable accommodation to meet the requirements for diplomas shall be provided for otherwise qualified students with disabilities as needed.

In addition, each local school board may devise, vis-a-vis the award of diplomas to secondary school students, a mechanism for calculating class rankings that takes into consideration whether the student has taken a required class more than one time and has had any prior earned grade for such required class expunged.

Each local school board shall notify the parents of rising eleventh and twelfth grade students of (i) the number and subject area requirements of standard and verified units of credit required for graduation pursuant to the standards for accreditation and (ii) the remaining number and subject area requirements of such units of credit the individual student requires for graduation.

B. Students identified as disabled who complete the requirements of their individualized education programs shall be awarded special diplomas by local school boards.

Each local school board shall notify the parent of such students with disabilities who have an individualized education program and who fail to meet the requirements for a standard or advanced studies diploma of the student's right to a free and appropriate education to age 21, inclusive, pursuant to Article 2 (§ 22.1-213 et seq.) of Chapter 13.

C. Students who have completed a prescribed course of study as defined by the local school board shall be awarded certificates of program completion by local school boards if they are not eligible to receive a Board of Education-approved diploma.

Each local school board shall provide notification of the right to a free public education for students who have not reached 20 years of age on or before August 1 of the school year, pursuant to Chapter 1 (§ 22.1-1 et seq.), to the parent of students who fail to graduate or who have failed to achieve the number of verified units of credit required for graduation as provided in the standards for accreditation. If such student who does not graduate or achieve such verified units of credit is a student for whom English is a second language, the local school board shall notify the parent of the student's opportunity for a free public education in accordance with § 22.1-5.

D. In establishing course and credit requirements for a high school diploma, the Board shall:

1. Provide for the selection of integrated learning courses meeting the Standards of Learning and approved by the Board to satisfy graduation credit requirements, which shall include Standards of Learning testing, as necessary.

2. Establish the requirements for a standard and an advanced studies high school diploma, which shall each include at least one credit in fine or performing arts or career and technical education and one credit in United States and Virginia history. The requirements for a standard high school diploma shall, however, include at least two sequential electives chosen from a concentration of courses selected from a variety of options that may be planned to ensure the completion of a focused sequence of elective courses. Such focused sequence of elective courses shall provide a foundation for further education or training or preparation for employment. The advanced studies diploma shall be the recommended diploma for students pursuing baccalaureate study. Both the standard and the advanced studies diploma shall prepare students for post-secondary education and the career readiness required by the

INTRODUCED

HB2218

59 Commonwealth's economy.

60 Beginning with first-time ninth grade students in the 2013-2014 school year, requirements for the  
61 standard diploma shall include a requirement to earn a career and technical education credential that has  
62 been approved by the Board, that could include, but not be limited to, the successful completion of an  
63 industry certification, a state licensure examination, a national occupational competency assessment, or  
64 the Virginia workplace readiness skills assessment.

65 Beginning with first-time ninth grade students in the 2016-2017 school year, requirements for the  
66 standard and advanced diplomas shall include a requirement to be trained in emergency first aid,  
67 cardiopulmonary resuscitation, and the use of automated external defibrillators, including hands-on  
68 practice of the skills necessary to perform cardiopulmonary resuscitation.

69 The Board shall make provision in its regulations for students with disabilities to earn a standard  
70 diploma.

71 3. Provide, in the requirements to earn a standard or advanced studies diploma, the successful  
72 completion of one virtual course. The virtual course may be a noncredit-bearing course.

73 4. Provide, in the requirements for the verified units of credit stipulated for obtaining the standard or  
74 advanced studies diploma, that students completing elective classes into which the Standards of Learning  
75 for any required course have been integrated may take the relevant Standards of Learning test for the  
76 relevant required course and receive, upon achieving a satisfactory score on the specific Standards of  
77 Learning assessment, a verified unit of credit for such elective class that shall be deemed to satisfy the  
78 Board's requirement for verified credit for the required course.

79 5. Establish a procedure to facilitate the acceleration of students that allows qualified students, with  
80 the recommendation of the division superintendent, without completing the 140-hour class, to obtain  
81 credit for such class upon demonstration of mastery of the course content and objectives. Having  
82 received credit for the course, the student shall be permitted to sit for the relevant Standards of Learning  
83 assessment and, upon receiving a passing score, shall earn a verified credit. Nothing in this section shall  
84 preclude relevant school division personnel from enforcing compulsory attendance in public schools.

85 6. Provide for the award of verified units of credit for passing scores on industry certifications, state  
86 licensure examinations, and national occupational competency assessments approved by the Board of  
87 Education.

88 School boards shall report annually to the Board of Education the number of Board-approved  
89 industry certifications obtained, state licensure examinations passed, national occupational competency  
90 assessments passed, Virginia workplace readiness skills assessments passed, and the number of career  
91 and technical education completers who graduated. These numbers shall be reported as separate  
92 categories on the School Performance Report Card.

93 For the purposes of this subdivision, "career and technical education completer" means a student who  
94 has met the requirements for a career and technical concentration or specialization and all requirements  
95 for high school graduation or an approved alternative education program.

96 In addition, the Board may:

97 a. For the purpose of awarding verified units of credit, approve the use of additional or substitute  
98 tests for the correlated Standards of Learning assessment, such as academic achievement tests, industry  
99 certifications or state licensure examinations; and

100 b. Permit students completing career and technical education programs designed to enable such  
101 students to pass such industry certification examinations or state licensure examinations to be awarded,  
102 upon obtaining satisfactory scores on such industry certification or licensure examinations, the  
103 appropriate verified units of credit for one or more career and technical education classes into which  
104 relevant Standards of Learning for various classes taught at the same level have been integrated. Such  
105 industry certification and state licensure examinations may cover relevant Standards of Learning for  
106 various required classes and may, at the discretion of the Board, address some Standards of Learning for  
107 several required classes.

108 7. Provide for the waiver of certain graduation requirements (i) upon the Board's initiative or (ii) at  
109 the request of a local school board. Such waivers shall be granted only for good cause and shall be  
110 considered on a case-by-case basis.

111 8. Consider all computer science course credits earned by students to be science course credits,  
112 mathematics course credits, or career and technical education credits. The Board of Education shall  
113 develop guidelines addressing how computer science courses can satisfy graduation requirements.

114 9. *Provide that the three standard units of credit in foreign language required to graduate with an*  
115 *advanced studies diploma may be satisfied by completing (i) three years of one foreign language, (ii)*  
116 *two years each of two foreign languages, or (iii) two years of one foreign language and two years of*  
117 *one technical programming or design language approved by the Board.*

118 E. In the exercise of its authority to recognize exemplary academic performance by providing for  
119 diploma seals, the Board of Education shall develop criteria for recognizing exemplary performance in  
120 career and technical education programs by students who have completed the requirements for a Board

121 of Education-approved diploma and shall award seals on the diplomas of students meeting such criteria.

122 In addition, the Board shall establish criteria for awarding a diploma seal for advanced mathematics  
123 and technology for the Board of Education-approved diplomas. The Board shall consider including  
124 criteria for (i) technology courses; (ii) technical writing, reading, and oral communication skills; (iii)  
125 technology-related training; and (iv) industry, professional, and trade association national certifications.

126 The Board shall also establish criteria for awarding a diploma seal for excellence in civics education  
127 and understanding of our state and federal constitutions and the democratic model of government for the  
128 Board of Education-approved diplomas. The Board shall consider including criteria for (i) successful  
129 completion of history, government, and civics courses, including courses that incorporate character  
130 education; (ii) voluntary participation in community service or extracurricular activities that includes the  
131 types of activities that shall qualify as community service and the number of hours required; and (iii)  
132 related requirements as it deems appropriate.

133 F. The Board shall establish, by regulation, requirements for the award of a general achievement  
134 adult high school diploma for those persons who are not subject to the compulsory school attendance  
135 requirements of § 22.1-254 and have (i) achieved a passing score on a high school equivalency  
136 examination approved by the Board of Education; (ii) successfully completed an education and training  
137 program designated by the Board of Education; (iii) earned a Board of Education-approved career and  
138 technical education credential such as the successful completion of an industry certification, a state  
139 licensure examination, a national occupational competency assessment, or the Virginia workplace  
140 readiness skills assessment; and (iv) satisfied other requirements as may be established by the Board for  
141 the award of such diploma.

142 G. To ensure the uniform assessment of high school graduation rates, the Board shall collect,  
143 analyze, and report high school graduation and dropout data using a formula prescribed by the Board.

144 The Board may promulgate such regulations as may be necessary and appropriate for the collection,  
145 analysis, and reporting of such data.
