103 upon his own motion and only after an evaluation conducted in-person or by means of a two-way
104 electronic video and audio communication system as authorized in § 37.2-804.1 by an employee or a
105 designee of the local community services board to determine whether the person meets the criteria for
106 temporary detention, a temporary detention order if it appears from all evidence readily available,
107 including any recommendation from a physician or clinical psychologist treating the person, that the
108 person (i) has a mental illness and that there exists a substantial likelihood that, as a result of mental
109 illness, the person will, in the near future, (a) cause serious physical harm to himself or others as
110 evidenced by recent behavior causing, attempting, or threatening harm and other relevant information, if
111 any, or (b) suffer serious harm due to his lack of capacity to protect himself from harm or to provide

116 this section shall provide for the disclosure of medical records pursuant to § 37.2-804.2. This subsection
117 shall not preclude any other disclosures as required or permitted by law.

118 C. When considering whether there is probable cause to issue a temporary detention order, the
119 magistrate may, in addition to the petition, consider (i) the recommendations of any treating or
120 examining physician or psychologist licensed in Virginia, if available, (ii) any past actions of the person,

A magistrate may issue a temporary detention order without a prior evaluation pursuant to subsection B if (i) the person has been personally examined within the previous 72 hours by an employee or a designee of the local community services board or (ii) there is a significant physical, psychological, or medical risk to the person or to others associated with conducting such evaluation.

E. An employee or a designee of the local community services board shall determine the facility of temporary detention in accordance with the provisions of § 37.2-809.1 for all individuals detained pursuant to this section. An employee or designee of the local community services board may change the facility of temporary detention and may designate an alternative facility for temporary detention at any point during the period of temporary detention if it is determined that the alternative facility is a more appropriate facility for temporary detention of the individual given the specific security, medical, or behavioral health needs of the person. In cases in which the facility of temporary detention is changed following transfer of custody to an initial facility of temporary custody, transportation of the individual to the alternative facility of temporary detention shall be provided in accordance with the provisions of § 37.2-810. The initial facility of temporary detention shall be identified on the preadmission screening report and indicated on the temporary detention order; however, if an employee or designee of the local community services board designates an alternative facility, that employee or designee shall provide written notice forthwith, on a form developed by the Executive Secretary of the Supreme Court of Virginia, to the clerk of the issuing court of the name and address of the alternative facility. Subject to the provisions of § 37.2-809.1, if a facility of temporary detention cannot be identified by the time of the expiration of the period of emergency custody pursuant to § 37.2-808, the individual shall be detained in a state facility for the treatment of individuals with mental illness and such facility shall be indicated on the temporary detention order. Except as provided in § 37.2-811 for inmates requiring hospitalization in accordance with subdivision A 2 of § 19.2-169.6, the person shall not be detained in a jail or other place of confinement for persons charged with criminal offenses and shall remain in the custody of law enforcement until the person is either detained within a secure facility or custody has been accepted by the appropriate personnel designated by either the initial facility of temporary detention identified in the temporary detention order or by the alternative facility of temporary detention designated by the employee or designee of the local community services board pursuant to this subsection. The person detained or in custody pursuant to this section shall be given a written summary of the temporary detention procedures and the statutory protections associated with those procedures.

F. Any facility caring for a person placed with it pursuant to a temporary detention order is authorized to provide emergency medical and psychiatric services within its capabilities when the facility determines that the services are in the best interests of the person within its care. The costs incurred as a result of the hearings and by the facility in providing services during the period of temporary detention shall be paid and recovered pursuant to § 37.2-804. The maximum costs reimbursable by the Commonwealth pursuant to this section shall be established by the State Board of Medical Assistance Services based on reasonable criteria. The State Board of Medical Assistance Services shall, by regulation, establish a reasonable rate per day of inpatient care for temporary detention.

G. The employee or the designee of the local community services board who is conducting the evaluation pursuant to this section shall determine, prior to the issuance of the temporary detention order, the insurance status of the person. Where coverage by a third party payor exists, the facility seeking reimbursement under this section shall first seek reimbursement from the third party payor. The Commonwealth shall reimburse the facility only for the balance of costs remaining after the allowances covered by the third party payor have been received.

H. The duration of temporary detention shall be sufficient to allow for completion of the examination required by § 37.2-815, preparation of the preadmission screening report required by § 37.2-816, and initiation of mental health treatment to stabilize the person's psychiatric condition to avoid involuntary commitment where possible, but shall not exceed 72 hours prior to a hearing. If the 72-hour period herein specified terminates on a Saturday, Sunday, legal holiday, or day on which the court is lawfully closed, the person may be detained, as herein provided, until the close of business on the next day that is not a Saturday, Sunday, legal holiday, or day on which the court is lawfully closed. The person may be released, pursuant to § 37.2-813, before the 72-hour period herein specified has run.

I. If a temporary detention order is not executed within 24 hours of its issuance, or within a shorter period as is specified in the order, the order shall be void and shall be returned unexecuted to the office of the clerk of the issuing court or, if the office is not open, to any magistrate serving the jurisdiction of the issuing court. Subsequent orders may be issued upon the original petition within 96 hours after the

183 petition is filed. However, a magistrate must again obtain the advice of an employee or a designee of
184 the local community services board prior to issuing a subsequent order upon the original petition. Any
185 petition for which no temporary detention order or other process in connection therewith is served on
186 the subject of the petition within 96 hours after the petition is filed shall be void and shall be returned
187 to the office of the clerk of the issuing court.

188 J. The Executive Secretary of the Supreme Court of Virginia shall establish and require that a
189 magistrate, as provided by this section, be available seven days a week, 24 hours a day, for the purpose
190 of performing the duties established by this section. Each community services board shall provide to
191 each general district court and magistrate's office within its service area a list of its employees and
192 designees who are available to perform the evaluations required herein.

193 K. For purposes of this section, a health care provider or designee of a local community services
194 board or behavioral health authority shall not be required to encrypt any email containing information or
195 medical records provided to a magistrate unless there is reason to believe that a third party will attempt
196 to intercept the email.

197 L. The employee or designee of the community services board who is conducting the evaluation
198 pursuant to this section shall, if he recommends that the person should not be subject to a temporary
199 detention order, inform the petitioner and an onsite treating physician of his recommendation.
