Second House	<input type="checkbox"/> In Committee	<input type="checkbox"/> Substitute	<input type="checkbox"/> Enrolled

2. Patron: Lopez

3. Committee: Committee Referral Pending

4. Title: Electric utilities; net energy metering; standby charges.

5. Summary: Electric utilities; net energy metering; standby charges. Requires the State Corporation Commission, before approving a supplier's proposed standby charge methodology, to find that a value of solar analysis demonstrates that the standby charges reflect the supplier's net costs or benefits properly associated with serving the customers that have installed a net metered generation facility. The bill specifies that a value of solar analysis determines such net costs or benefits by subtracting the value of all benefits provided to the supplier or the electric grid as a result of the installation and operation of the solar generation facility from the portion of the supplier's infrastructure costs that are properly associated with serving such customers.

6. Budget Amendment Necessary: No

7. Fiscal Impact Estimates: No Fiscal Impact on the State Corporation Commission

8. Fiscal Implications: None on the State Corporation Commission

9. Specific Agency or Political Subdivisions Affected: State Corporation Commission

10. Technical Amendment Necessary: None

11. Other Comments: None
