5. Summary: Changes the requirement that the Department and Board of Conservation and Recreation review and update the master plan for each state park from once every five years to once every 10 years.

6. Budget Amendment Necessary: No.

7. Fiscal Impact Estimates: Final.

8. Fiscal Implications: According to the Department of Conservation and Recreation, there is no state expenditure impact as a result of this bill. When revisions to a plan are needed for business reasons and customer needs, updates will be done. However, this legislation eliminates the department's requirement to officially review a plan at the five year interval when adjustments are not needed. Given this, there could be some savings, but the amount cannot be determined.

9. Specific Agency or Political Subdivisions Affected: The Department of Conservation and Recreation.

10. Technical Amendment Necessary: No.

11. Other Comments: None
