4. Title: Definition of fur-bearing animal.

5. Summary: This bill defines the fisher as a fur-bearing animal in hunting and trapping provisions of the Code of Virginia. The fisher (*Martes pennanti*) is a small carnivorous mammal native to North America. It is a member of the weasel family.

6. Budget Amendment Necessary: No.

7. Fiscal Impact Estimates: Final.

8. Fiscal Implications: It is anticipated that, at this time, this bill will not have a fiscal impact on the Department of Game and Inland Fisheries. According to the department, populations of the fisher are low in the Commonwealth. If the population were to increase to a level deemed sufficient to sustain a limited harvest, then it may be appropriate for the agency to establish a trapping season for this species.

9. Specific Agency or Political Subdivisions Affected: Department of Game and Inland Fisheries.

10. Technical Amendment Necessary: No.

11. Other Comments: None.
