1. That §§ 46.2-1700, 46.2-1701, and 46.2-1702 of the Code of Virginia are amended and reenacted and that the Code of Virginia is amended by adding a section numbered 46.2-1701.4 as follows:

§ 46.2-1700. Definitions.

As used in this chapter, unless the context requires a different meaning:

"Class A licensee" means a driver training school that provides training in the operation of commercial motor vehicles as defined in § 46.2-341.4.

"Class B licensee" means a driver training school that provides training in the operation of any type of motor vehicle other than motorcycles and commercial motor vehicles as defined in § 46.2-341.4.

"Computer-based driver education course" means the classroom portion of driver education offered by a computer-based driver education provider through the Internet or other electronic means approved by the Department whose content and quality is comparable to that of courses offered in the Commonwealth's public schools.

"Computer-based driver education provider" means a driver training school licensed by the Department in accordance with this chapter to conduct computer-based driver education courses.

"Driver training school" or "school" means a business enterprise conducted by an individual, association, partnership, or corporation, for the education and training of persons, either practically or theoretically or both, to operate or drive motor vehicles, and charging a consideration or tuition for such services. "Driver training school" or "school" does not mean any college, university, school established pursuant to § 46.2-1314, school maintained or classes conducted by employers for their own employees where no fee or tuition is charged, schools or classes owned and operated by or under the authority of bona fide religious institutions, or by the Commonwealth or any political subdivision thereof, training programs for school bus operators established pursuant to § 22.1-181, driver education programs established pursuant to § 22.1-205, or schools accredited by accrediting associations approved by the Department of Education; however, if any such entity or program excluded from the definition of "driver training school" offers driver education and training through a contractual arrangement with another person for consideration, then that other person shall be considered a driver training school subject to the requirements of this chapter.

"Instructor" means any person, whether acting for himself as operator of a driver training school or for such school for compensation, who teaches, conducts classes, gives demonstrations, or supervises persons learning to operate or drive a motor vehicle.

§ 46.2-1701. Licenses required for school and instructor; fees.

No driver training school shall be established or continue operation unless the school obtains from the Commissioner a license authorizing the school to operate within this Commonwealth.

No instructor shall perform the actions enumerated in the definition of "instructor" in § 46.2-1700 unless he obtains from the Commissioner a license authorizing him to act as driving instructor.

The Commissioner shall have authority to set and collect school and instructor licensing fees. All licensing fees collected by the Commissioner under this chapter shall be paid into the state treasury and set aside as a special fund to meet the expenses of the Department of Motor Vehicles.

Upon application of a driver training school licensed in accordance with this chapter, the Commissioner may license such driver training school using criteria established by the Commissioner pursuant to § 46.2-1702 to provide computer-based driver education courses using curricula approved by the Commissioner. A nonrefundable annual licensing fee of \$100 shall be required with each application. Such annual licensing fee shall be in addition to fees permitted under this chapter.

length of time such accounts, records, and memoranda shall be preserved.

§ 46.2-1702. Certification of driver education courses by Commissioner.

Notwithstanding any other provision of law, the Commissioner shall have the authority to approve as a driver education course satisfying the requirements of § 46.2-334 any course which is offered by any driver training school licensed under the provisions of this chapter if he finds that the course is of comparable content and quality to that offered in the Commonwealth's public schools. In making such finding, the Commissioner shall not require that the instructors of any driver training school meet the certification requirements of teachers in the Commonwealth's public schools.

Any community college within the Virginia Community College System shall have the authority to offer the courses required by the Virginia Board of Education to become a certified driver education instructor in Virginia on a not-for-credit basis so long as the courses include the same content and curriculum required by the Department of Education, enabling individuals who complete those courses to then teach driver's education in Virginia driver education training schools upon official certification by the Department of Motor Vehicles. The Virginia Department of Education shall provide the curriculum, content, and other information regarding the courses required to become certified driver education instructors in Virginia to any community college within the Virginia Community College System. The content of each course must be accurate and rigorous and must meet the requirements for the Department of Education's Curriculum and Administrative Guide for Driver's Education, which includes the Board of Education's standards of learning.

Except for schools in the Commonwealth's public school system and providers of correspondence courses approved by the Board of Education pursuant to subsection F of § 22.1-205, only those driver training schools that are licensed as computer-based driver education providers shall be authorized to administer computer-based driver education courses. The content and quality of such computer-based driver education courses shall be comparable to that of courses offered in the Commonwealth's public schools. The Commissioner may establish minimum standards for testing students who have enrolled in computer-based driver education courses. Such standards may include (i) requirements for the test site; (ii) verification that the person taking the test is the person enrolled in the course; (iii) verification of the identity of the student using photo identification approved by the Commissioner; and (iv) maintenance of a log containing the name and title of the licensed instructor monitoring the test, the test date, the name of the student taking the test, and the student's time-in and time-out of the test site. Computer-based driver education providers shall not issue a certificate of completion to a student in Planning District 8 prior to receiving proof of completion of the additional minimum 90-minute parent/student driver education component pursuant to § 22.1-205.

The Commissioner shall have authority to approve any driver education course offered by any Class A licensee if he finds the course meets the requirements for such courses as set forth in this chapter and as otherwise established by the Department. Class A licensees shall not be permitted to administer knowledge or behind-the-wheel examinations. Driver education courses offered by any Class B licensee shall be based on the driver education curriculum currently approved by the Department of Education and the Department.

The Commissioner may accept 20 years' service with the Virginia Department of State Police by a person who retired or resigned while in good standing from such Department in lieu of requirements established by the Department of Education for instructor qualification.
