

16103498D

**HOUSE BILL NO. 808**

Offered January 13, 2016

Prefiled January 12, 2016

*A BILL to amend and reenact § 2.2-1111 of the Code of Virginia and to amend the Code of Virginia by adding in Article 1 of Chapter 6 of Title 2.2 a section numbered 2.2-614.5, relating to use of light-emitting diodes (LEDs) on outdoor lighting fixtures.*

Patrons—Bell, John J., Krizek and Watts

Referred to Committee on General Laws

**Be it enacted by the General Assembly of Virginia:**

**1. That § 2.2-1111 of the Code of Virginia is amended and reenacted and that the Code of Virginia is amended by adding in Article 1 of Chapter 6 of Title 2.2 a section numbered § 2.2-614.5 as follows:**

**§ 2.2-614.5. Light-emitting diodes used on state-owned or state-maintained property.**

*A governmental agency that installs, replaces, or maintains an outdoor lighting fixture, including street lights and area lighting, shall use light-emitting diodes (LEDs) instead of traditional incandescent light bulbs when installing new outdoor lighting fixtures or replacing nonfunctioning light bulbs on existing outdoor lighting fixtures.*

**§ 2.2-1111. Purchases to be made in accordance with the Virginia Public Procurement Act (§ 2.2-4300 et seq.) and regulations of Division; exempt purchases.**

A. All purchases made by any department, division, officer or agency of the Commonwealth shall be made in accordance with the Virginia Public Procurement Act (§ 2.2-4300 et seq.) and such regulations as the Division may prescribe.

B. The regulations adopted by the Division shall:

1. Include a purchasing plan that shall be on file at the Division and shall be available to the public upon request;

2. Require that before any public body procures any computer system, equipment or software, it shall consider whether the proposed system, equipment or software is capable of producing products that facilitate the rights of the public to access official records under the Freedom of Information Act (§ 2.2-3700 et seq.) or other applicable law;

3. Require state public bodies to procure only shielded outdoor light fixtures and provide for waivers of this requirement when the Division determines that a bona fide operational, temporary, safety or specific aesthetic need is indicated or that such fixtures are not cost effective over the life cycle of the fixtures. For the purposes of this subdivision, "shielded outdoor light fixture" means an outdoor light fixture that is (i) fully shielded so that no light rays are emitted by the installed fixture above the horizontal plane or (ii) constructed so that no more than two percent of the total luminaire lumens in the zone of 90 to 180 degrees vertical angle is permitted, if the related output of the luminaire is greater than 3200 lumens. In adopting regulations under this subdivision, the Division shall consider national standards for outdoor lighting as adopted by the Illuminating Engineering Society of North America (IESNA) and shall comply with the provisions of 2.2-614.5.

For any project initiated on or after July 1, 2003, the Virginia Department of Transportation shall design all lighting systems in accordance with current IESNA standards and recommended practices. The lighting system shall utilize fixtures that minimize glare, light trespass, and skyglow, all as defined by the IESNA, while still providing a comfortable, visually effective, safe, and secure outdoor environment in a cost-effective manner over the life cycle of the lighting system;

4. Establish the conditions under which a public body may use, as a basis for the procurement of goods and nonprofessional services, a particular vendor's contract-pricing that has been negotiated and accepted by the U.S. General Services Administration;

5. Establish procurement preferences for products containing recycled oil (including reprocessed and rerefined oil products) and recycled antifreeze no later than December 31, 2002;

6. Establish conditions under which a public body shall demonstrate a good faith effort to ensure that state contracts or subcontracts for goods or services that involve the manual packaging of bulk supplies or the manual assemblage of goods where individual items weigh less than 50 pounds be offered to employment services organizations as defined in § 2.2-4301 that offer transitional or supported employment services serving individuals with disabilities; and

7. Establish the conditions under which state public bodies may procure diesel fuel containing, at a minimum, two percent, by volume, biodiesel fuel or green diesel fuel, as defined in § 59.1-284.25 as

INTRODUCED

HB808

59 such section was in effect on June 30, 2015, for use in on-road internal combustion engines. The  
60 conditions shall take into consideration the availability of such fuel and the variability in cost of  
61 biodiesel fuel with respect to unblended diesel fuel.

62 C. The Division may make, alter, amend or repeal regulations relating to the purchase of materials,  
63 supplies, equipment, nonprofessional services, and printing, and may specifically exempt purchases  
64 below a stated amount or particular agencies or specified materials, equipment, nonprofessional services,  
65 supplies and printing.
