3. Committee: Passed Both Houses

4. Title: Motor vehicles; vehicles not to be equipped with televisions and video within view of driver

5. Summary: This bill provides that motor vehicles may be equipped with visual displays of moving images if the equipment is factory-installed and has an interlock device that disables the equipment when the motor vehicle operator is performing a "driving task," which is defined by the bill. Current law allows equipment with a visual display of a television broadcast or signal if the equipment's interlock disables when the motor vehicle is driven. The bill would allow the viewing of a visual display while the vehicle is being operated autonomously. The bill also provides that vehicles used by universities for vehicle technology research are not required to have government plates.

6. Budget Amendment Necessary: No.

7. Fiscal Impact Estimates: Final. See Item #8.

8. Fiscal Implications: The Department of Motor Vehicles has indicated that there will be no fiscal impact to the agency from this legislation.

9. Specific Agency or Political Subdivisions Affected: Department of Motor Vehicles.

10. Technical Amendment Necessary: No.

11. Other Comments: This bill is a companion to HB 454.
