4. Title: Child day programs; exemptions from licensure.

5. Summary: Exempts from licensure any child day program that is (i) an instructional program offered by a public school that serves preschool-age children or that satisfy compulsory attendance laws or the Individuals with Disability Education Act, as amended, and programs of school-sponsored extracurricular activities that are focused on single interests including but not limited to, music, sports, drama, civic service, or foreign language. The bill also removes the directive that any education and care programs provided by public schools that are not exempt from licensure be regulated by the State Board of Education using regulations that incorporate, but may exceed, the regulations for child day centers licensed by the Department of Social Services.

6. Budget Amendment Necessary: No

7. Fiscal Impact Estimates: None

8. Fiscal Implications: It is unknown how many school based programs that no longer qualify for an exemption would opt for licensure by the Department of Social Services. However, the potential revenue impact from the addition or deletion of the exemptions from licensure based on this substitute legislation would be minimal. Additionally, the Department of Education estimates no fiscal impact.
