129 An online course or virtual school program may be delivered to students at school as part of the
130 regularly scheduled school day.

131 **§ 22.1-253.13:2. Standard 2. Instructional, administrative, and support personnel.**

132 A. The Board shall establish requirements for the licensing of teachers, principals, superintendents,
133 and other professional personnel.

134 B. School boards shall employ licensed instructional personnel qualified in the relevant subject areas.

135 C. Each school board shall assign licensed instructional personnel in a manner that produces
136 divisionwide ratios of students in average daily membership to full-time equivalent teaching positions,
137 excluding special education teachers, principals, assistant principals, counselors, and librarians, that are
138 not greater than the following ratios: (i) 24 to one in kindergarten with no class being larger than 29
139 students; if the average daily membership in any kindergarten class exceeds 24 pupils, a full-time
140 teacher's aide shall be assigned to the class; (ii) 24 to one in grades one, two, and three with no class
141 being larger than 30 students; (iii) 25 to one in grades four through six with no class being larger than
142 35 students; and (iv) 24 to one in English classes in grades six through 12. After September 30 of any
143 school year, anytime the number of students in a class exceeds the class size limit established by this
144 subsection, the local school division shall notify the parent of each student in such class of such fact no
145 later than 10 days after the date on which the class exceeded the class size limit. Such notification shall
146 state the reason that the class size exceeds the class size limit and describe the measures that the local
147 school division will take to reduce the class size to comply with this subsection.

148 Within its regulations governing special education programs, the Board shall seek to set pupil/teacher
149 ratios for pupils with intellectual disability that do not exceed the pupil/teacher ratios for self-contained
150 classes for pupils with specific learning disabilities.

151 Further, school boards shall assign instructional personnel in a manner that produces schoolwide
152 ratios of students in average daily memberships to full-time equivalent teaching positions of 21 to one in
153 middle schools and high schools. School divisions shall provide all middle and high school teachers with
154 one planning period per day or the equivalent, unencumbered of any teaching or supervisory duties.

155 D. Each local school board shall employ with state and local basic, special education, gifted, and
156 career and technical education funds a minimum number of licensed, full-time equivalent instructional
157 personnel for each 1,000 students in average daily membership (ADM) as set forth in the appropriation
158 act. Calculations of kindergarten positions shall be based on full-day kindergarten programs. Beginning
159 with the March 31 report of average daily membership, those school divisions offering half-day
160 kindergarten with pupil/teacher ratios that exceed 30 to one shall adjust their average daily membership
161 for kindergarten to reflect 85 percent of the total kindergarten average daily memberships, as provided in
162 the appropriation act.

163 E. In addition to the positions supported by basic aid and in support of regular school year programs
164 of prevention, intervention, and remediation, state funding, pursuant to the appropriation act, shall be
165 provided to fund certain full-time equivalent instructional positions for each 1,000 students in grades K
166 through 12 who are identified as needing prevention, intervention, and remediation services. State
167 funding for prevention, intervention, and remediation programs provided pursuant to this subsection and
168 the appropriation act may be used to support programs for educationally at-risk students as identified by
169 the local school boards.

170 To provide algebra readiness intervention services required by § 22.1-253.13:1, school divisions may
171 employ mathematics teacher specialists to provide the required algebra readiness intervention services.
172 School divisions using the Standards of Learning Algebra Readiness Initiative funding in this manner
173 shall only employ instructional personnel licensed by the Board of Education.

174 F. In addition to the positions supported by basic aid and those in support of regular school year
175 programs of prevention, intervention, and remediation, state funding, pursuant to the appropriation act,
176 shall be provided to support 17 full-time equivalent instructional positions for each 1,000 students
177 identified as having limited English proficiency.

178 To provide flexibility in the instruction of English language learners who have limited English

179 proficiency and who are at risk of not meeting state accountability standards, school divisions may use
 180 state and local funds from the Standards of Quality Prevention, Intervention, and Remediation account to
 181 employ additional English language learner teachers to provide instruction to identified limited English
 182 proficiency students. Using these funds in this manner is intended to supplement the instructional
 183 services provided in this section. School divisions using the SOQ Prevention, Intervention, and
 184 Remediation funds in this manner shall employ only instructional personnel licensed by the Board of
 185 Education.

186 G. In addition to the full-time equivalent positions required elsewhere in this section, each local
 187 school board shall employ the following reading specialists in elementary schools, one full-time in each
 188 elementary school at the discretion of the local school board.

189 To provide reading intervention services required by § 22.1-253.13:1, school divisions may employ
 190 reading specialists to provide the required reading intervention services. School divisions using the Early
 191 Reading Intervention Initiative funds in this manner shall employ only instructional personnel licensed
 192 by the Board of Education.

193 H. Each local school board shall employ, at a minimum, the following full-time equivalent positions
 194 for any school that reports fall membership, according to the type of school and student enrollment:

195 1. Principals in elementary schools, one half-time to 299 students, one full-time at 300 students;
 196 principals in middle schools, one full-time, to be employed on a 12-month basis; principals in high
 197 schools, one full-time, to be employed on a 12-month basis;

198 2. Assistant principals in elementary schools, one half-time at 600 students, one full-time at 900
 199 students; assistant principals in middle schools, one full-time for each 600 students; assistant principals
 200 in high schools, one full-time for each 600 students; and school divisions that employ a sufficient
 201 number of assistant principals to meet this staffing requirement may assign assistant principals to schools
 202 within the division according to the area of greatest need, regardless of whether such schools are
 203 elementary, middle, or secondary;

204 3. Librarians in elementary schools, one part-time to 299 students, one full-time at 300 students;
 205 librarians in middle schools, one-half time to 299 students, one full-time at 300 students, two full-time
 206 at 1,000 students; librarians in high schools, one half-time to 299 students, one full-time at 300 students,
 207 two full-time at 1,000 students. Local school divisions that employ a sufficient number of librarians to
 208 meet this staffing requirement may assign librarians to schools within the division according to the area
 209 of greatest need, regardless of whether such schools are elementary, middle, or secondary; and

210 4. Guidance counselors in elementary schools, one hour per day per 100 students, one full-time at
 211 500 students, one hour per day additional time per 100 students or major fraction thereof; guidance
 212 counselors in middle schools, one period per 80 students, one full-time at 400 students, one additional
 213 period per 80 students or major fraction thereof; guidance counselors in high schools, one period per 70
 214 students, one full-time at 350 students, one additional period per 70 students or major fraction thereof.
 215 Local school divisions that employ a sufficient number of guidance counselors to meet this staffing
 216 requirement may assign guidance counselors to schools within the division according to the area of
 217 greatest need, regardless of whether such schools are elementary, middle, or secondary.

218 I. Local school boards shall employ five full-time equivalent positions per 1,000 students in grades
 219 kindergarten through five to serve as elementary resource teachers in art, music, and physical education.

220 J. Local school boards shall employ two full-time equivalent positions per 1,000 students in grades
 221 kindergarten through 12, one to provide technology support and one to serve as an instructional
 222 technology resource teacher.

223 To provide flexibility, school divisions may use the state and local funds for instructional technology
 224 resource teachers to employ a data coordinator position, an instructional technology resource teacher
 225 position, or a data coordinator/instructional resource teacher blended position. The data coordinator
 226 position is intended to serve as a resource to principals and classroom teachers in the area of data
 227 analysis and interpretation for instructional and school improvement purposes, as well as for overall data
 228 management and administration of state assessments. School divisions using these funds in this manner
 229 shall employ only instructional personnel licensed by the Board of Education.

230 K. Local school boards may employ additional positions that exceed these minimal staffing
 231 requirements. These additional positions may include, but are not limited to, those funded through the
 232 state's incentive and categorical programs as set forth in the appropriation act.

233 L. A combined school, such as kindergarten through 12, shall meet at all grade levels the staffing
 234 requirements for the highest grade level in that school; this requirement shall apply to all staff, except
 235 for guidance counselors, and shall be based on the school's total enrollment; guidance counselor staff
 236 requirements shall, however, be based on the enrollment at the various school organization levels, i.e.,
 237 elementary, middle, or high school. The Board of Education may grant waivers from these staffing
 238 levels upon request from local school boards seeking to implement experimental or innovative programs
 239 that are not consistent with these staffing levels.

240 M. School boards shall, however, annually, on or before January 1, report to the public the actual
 241 pupil/teacher ratios in elementary school classrooms by school for the current school year. Such actual
 242 ratios shall include only the teachers who teach the grade and class on a full-time basis and shall
 243 exclude resource personnel. School boards shall report pupil/teacher ratios that include resource teachers
 244 in the same annual report. Any classes funded through the voluntary kindergarten through third grade
 245 class size reduction program shall be identified as such classes. Any classes having waivers to exceed
 246 the requirements of this subsection shall also be identified. Schools shall be identified; however, the data
 247 shall be compiled in a manner to ensure the confidentiality of all teacher and pupil identities.

248 N. Students enrolled in a public school on a less than full-time basis shall be counted in ADM in the
 249 relevant school division. Students who are either (i) enrolled in a nonpublic school or (ii) receiving
 250 home instruction pursuant to § 22.1-254.1, and who are enrolled in public school on a less than full-time
 251 basis in any mathematics, science, English, history, social science, career and technical education, fine
 252 arts, foreign language, or health education or physical education course shall be counted in the ADM in
 253 the relevant school division on a pro rata basis as provided in the appropriation act. Each such course
 254 enrollment by such students shall be counted as 0.25 in the ADM; however, no such nonpublic or home
 255 school student shall be counted as more than one-half a student for purposes of such pro rata
 256 calculation. Such calculation shall not include enrollments of such students in any other public school
 257 courses.

258 O. Each local school board shall provide those support services that are necessary for the efficient
 259 and cost-effective operation and maintenance of its public schools.

260 For the purposes of this title, unless the context otherwise requires, "support services positions" shall
 261 include the following:

262 1. Executive policy and leadership positions, including school board members, superintendents and
 263 assistant superintendents;

264 2. Fiscal and human resources positions, including fiscal and audit operations;

265 3. Student support positions, including (i) social workers and social work administrative positions; (ii)
 266 guidance administrative positions not included in subdivision H 4; (iii) homebound administrative
 267 positions supporting instruction; (iv) attendance support positions related to truancy and dropout
 268 prevention; and (v) health and behavioral positions, including school nurses and school psychologists;

269 4. Instructional personnel support, including professional development positions and library and
 270 media positions not included in subdivision H 3;

271 5. Technology professional positions not included in subsection J;

272 6. Operation and maintenance positions, including facilities; pupil transportation positions; operation
 273 and maintenance professional and service positions; and security service, trade, and laborer positions;

274 7. Technical and clerical positions for fiscal and human resources, student support, instructional
 275 personnel support, operation and maintenance, administration, and technology; and

276 8. School-based clerical personnel in elementary schools; part-time to 299 students, one full-time at
 277 300 students; clerical personnel in middle schools; one full-time and one additional full-time for each
 278 600 students beyond 200 students and one full-time for the library at 750 students; clerical personnel in
 279 high schools; one full-time and one additional full-time for each 600 students beyond 200 students and
 280 one full-time for the library at 750 students. Local school divisions that employ a sufficient number of
 281 school-based clerical personnel to meet this staffing requirement may assign the clerical personnel to
 282 schools within the division according to the area of greatest need, regardless of whether such schools are
 283 elementary, middle, or secondary.

284 Pursuant to the appropriation act, support services shall be funded from basic school aid.

285 School divisions may use the state and local funds for support services to provide additional
 286 instructional services.

287 P. Notwithstanding the provisions of this section, when determining the assignment of instructional
 288 and other licensed personnel in subsections C through J, *a neither the Virginia Virtual School nor any*
 289 *local school board shall not be required to include full-time students of approved virtual school*
 290 *programs.*

291 CHAPTER 19.2.

292 VIRGINIA VIRTUAL SCHOOL.

293 § 22.1-349.12. Board of the Virginia Virtual School established.

294 A. *There is hereby established the Board of the Virginia Virtual School, referred to in this chapter as*
 295 *"the Board," as a policy agency in the executive branch of government under the name of the "Board of*
 296 *the Virginia Virtual School," for the purpose of governing the full-time online educational programs and*

 298 *School." The members of the Board of the School shall be appointed by August 1, 2018. The Board*
 299 *shall be charged with the operational control of the School. In exercising this operational control, the*
 300 *Board may make budget recommendations to the Governor for state funding for the School. The Board*

301 and the School shall be designated as a local educational agency (LEA), but the School shall not
302 constitute a school division.

303 B. The Board shall have a total membership of 14 members that shall consist of seven legislative
304 members, the Superintendent of Public Instruction, and six nonlegislative citizen members. Members
305 shall be appointed as follows: four members of the House of Delegates, to be appointed by the Speaker

321 vacancy shall not constitute a term in determining the member's eligibility for reappointment. The Board
322 shall elect a chairman and vice-chairman from among its membership. The Board shall elect a
323 secretary, who shall keep an accurate record of the proceedings of the Board and of the executive

 401 provide full-time virtual school programs through the School. Any student may enroll with any one
 402 approved multidivision online provider, and the selection of an approved multidivision online provider
 403 shall be at the discretion of the student's parent. The Board, the Department of Education, and the
 404 Board of Education shall make information regarding the School's online course offerings and capacity
 405 for students of each multidivision online provider publicly available to parents and shall promote all

 413 The total per pupil funding transferred shall consist of the average per pupil amounts on the basis of
 414 March 31 average daily membership and the per pupil share of state sales tax funding in basic aid. The
 415 Department of Education shall pay the average state share of the Standards of Quality per pupil funding
 416 directly to the School semimonthly. Such state share of per pupil funding shall be based on the

 531 the Commonwealth Transportation Board. Capital costs may include debt service payments on local or
 532 agency transit bonds. In making these determinations, the Commonwealth Transportation Board shall
 533 confer with the Director of the Department of Rail and Public Transportation. In development of the
 534 Director's recommendation and subsequent allocation of funds by the Commonwealth Transportation
 535 Board, the Director of the Department of Rail and Public Transportation and the Commonwealth
 536 Transportation Board shall adhere to the following:

537 (1) For the distribution of revenues from the Commonwealth Mass Transit Fund, of those revenues
 538 generated in 2014 and thereafter, the first \$160 million in revenues or the maximum available revenues
 539 if less than \$160 million shall be distributed by the Commonwealth Transportation Board as follows:

540 (a) Funds for special programs, which shall include ridesharing, transportation demand management

 542 assistance, shall not exceed 3 percent of the funds pursuant to this section and may be allocated to any
 543 local governing body, planning district commission, transportation district commission, or public transit
 544 corporation, or may be used directly by the Department of Rail and Public Transportation for the

545 following purposes and aid of public transportation services:

546 (i) To finance a program administered by the Department of Rail and Public Transportation designed
547 to promote the use of public transportation and ridesharing throughout Virginia.

548 (ii) To finance up to 80 percent of the cost of the development and implementation of projects where
549 the purpose of such project is to enhance the provision and use of public transportation services.

550 (b) At least 72 percent of the funds shall be distributed to each transit property in the same
551 proportion as its operating expenses bear to the total statewide operating expenses and shall be spent for
552 the purposes specified in subdivision 4 b.

553 (c) Twenty-five percent of the funds shall be allocated and distributed utilizing a tiered approach
554 evaluated by the Transit Service Delivery Advisory Committee along with the Director of the
555 Department of Rail and Public Transportation and established by the Commonwealth Transportation
556 Board for capital purposes based on asset need and anticipated state participation level and revenues.
557 The tier distribution measures may be evaluated by the Transit Service Delivery Advisory Committee
558 along with the Director of the Department of Rail and Public Transportation every three years and, if
559 redefined by the Board, shall be published at least one year in advance of being applied. Funds allocated
560 for debt service payments will be included in the tier that applies to the capital asset that is leveraged.

570 costs of transit providers and distributed by the Commonwealth Transportation Board based on service
571 delivery factors, based on effectiveness and efficiency, as established by the Commonwealth
572 Transportation Board. These measures and their relative weight shall be evaluated every three years and,
573 if redefined by the Commonwealth Transportation Board, shall be published and made available for
574 public comment at least one year in advance of being applied. In developing the service delivery factors,
575 the Commonwealth Transportation Board shall create for the Department of Rail and Public
576 Transportation a Transit Service Delivery Advisory Committee, consisting of two members appointed by
577 the Virginia Transit Association, one member appointed by the Community Transportation Association
578 of Virginia, one member appointed by the Virginia Municipal League, one member appointed by the
579 Virginia Association of Counties, and three members appointed by the Director of the Department of
580 Rail and Public Transportation, to advise the Department of Rail and Public Transportation in the
581 development of a distribution process for the funds allocated pursuant to this subdivision 4 b (2)(b) and
582 how transit systems can incorporate these metrics in their transit development plans. The Transit Service
583 Delivery Advisory Committee shall elect a Chair. The Department of Rail and Public Transportation
584 shall provide administrative support to the committee. Effective July 1, 2013, the Transit Service
585 Delivery Advisory Committee shall meet at least annually and consult with interested stakeholders and
586 hold at least one public hearing and report its findings to the Director of the Department of Rail and
587 Public Transportation. Prior to the Commonwealth Transportation Board approving the service delivery
588 factors, the Director of the Department of Rail and Public Transportation along with the Chair of the
589 Transit Service Delivery Advisory Committee shall brief the Senate Committee on Finance, the House
590 Appropriations Committee, and the Senate and House Committees on Transportation on the findings of
591 the Transit Service Delivery Advisory Committee and the Department's recommendation. Before
592 redefining any component of the service delivery factors, the Commonwealth Transportation Board shall
593 consult with the Director of the Department of Rail and Public Transportation, Transit Service Delivery
594 Advisory Committee, and interested stakeholders and provide for a 45-day public comment period. Prior
595 to approval of any amendment to the service delivery measures, the Board shall notify the
596 aforementioned committees of the pending amendment to the service delivery factors and its content.

597 (c) Funds for special programs, which shall include ridesharing, transportation demand management
598 programs, experimental transit, public transportation promotion, operation studies, and technical
599 assistance, shall not exceed 3 percent of the funds pursuant to this section and may be allocated to any
600 local governing body, planning district commission, transportation district commission, or public transit
601 corporation, or may be used directly by the Department of Rail and Public Transportation for the
602 following purposes and aid of public transportation services:

603 (i) To finance a program administered by the Department of Rail and Public Transportation designed
604 to promote the use of public transportation and ridesharing throughout Virginia.

605 (ii) To finance up to 80 percent of the cost of the development and implementation of projects where

606 the purpose of such project is to enhance the provision and use of public transportation services.

607 (d) Of the funds pursuant to this section, 25 percent shall be allocated and distributed utilizing a
608 tiered approach evaluated by the Transit Service Delivery Advisory Committee along with the Director
609 of Rail and Public Transportation and established by the Commonwealth Transportation Board for
610 capital purposes based on asset need and anticipated state participation level and revenues. The tier
611 distribution measures may be evaluated by the Transit Service Delivery Advisory Committee along with
612 the Director of Rail and Public Transportation every three years and, if redefined by the Board, shall be
613 published at least one year in advance of being applied. Funds allocated for debt service payments shall
614 be included in the tier that applies to the capital asset that is leveraged.

615 (e) Transfer of funds from funding categories in subdivisions 4 b (2)(c) and 4 b (2)(d) to 4 b (2)(b)
616 shall be considered by the Commonwealth Transportation Board in times of statewide economic distress
617 or statewide special need.

618 (f) The Department of Rail and Public Transportation may reserve a balance of up to five percent of
619 the Commonwealth Mass Transit Fund revenues under this subsection in order to assure better stability
620 in providing operating and capital funding to transit entities from year to year.

621 (3) The Commonwealth Mass Transit Fund shall not be allocated without requiring a local match
622 from the recipient.

623 c. There is hereby created in the Department of the Treasury a special nonreverting fund known as
624 the Commonwealth Transit Capital Fund. The Commonwealth Transit Capital Fund shall be part of the
625 Commonwealth Mass Transit Fund. The Commonwealth Transit Capital Fund subaccount shall be
626 established on the books of the Comptroller and consist of such moneys as are appropriated to it by the
627 General Assembly and of all donations, gifts, bequests, grants, endowments, and other moneys given,
628 bequeathed, granted, or otherwise made available to the Commonwealth Transit Capital Fund. Any funds
629 remaining in the Commonwealth Transit Capital Fund at the end of the biennium shall not revert to the
630 general fund, but shall remain in the Commonwealth Transit Capital Fund. Interest earned on funds
631 within the Commonwealth Transit Capital Fund shall remain in and be credited to the Commonwealth
632 Transit Capital Fund. Proceeds of the Commonwealth Transit Capital Fund may be paid to any political
633 subdivision, another public entity created by an act of the General Assembly, or a private entity as
634 defined in § 33.2-1800 and for purposes as enumerated in subdivision 7 of § 33.2-1701 or expended by
635 the Department of Rail and Public Transportation for the purposes specified in this subdivision.
636 Revenues of the Commonwealth Transit Capital Fund shall be used to support capital expenditures
637 involving the establishment, improvement, or expansion of public transportation services through specific
638 projects approved by the Commonwealth Transportation Board. If revenues of the Commonwealth
639 Transit Capital Fund are allocated to the construction of a new fixed rail project, such project shall be
640 evaluated according to the process established pursuant to subsection B of § 33.2-214.1. The
641 Commonwealth Transit Capital Fund shall not be allocated without requiring a local match from the
642 recipient.

643 d. The Commonwealth Transportation Board may allocate up to three and one-half percent of the
644 funds set aside for the Commonwealth Mass Transit Fund to support costs of project development,
645 project administration, and project compliance incurred by the Department of Rail and Public
646 Transportation in implementing rail, public transportation, and congestion management grants and
647 programs.

648 5. Funds for Metro shall be paid by the Northern Virginia Transportation Commission (NVTC) to the
649 Washington Metropolitan Area Transit Authority (WMATA) and be a credit to the Counties of
650 Arlington and Fairfax and the Cities of Alexandria, Falls Church, and Fairfax in the following manner:

651 a. Local obligations for debt service for WMATA rail transit bonds apportioned to each locality
652 using WMATA's capital formula shall be paid first by NVTC. NVTC shall use 95 percent state aid for
653 these payments.

654 b. The remaining funds shall be apportioned to reflect WMATA's allocation formulas by using the
655 related WMATA-allocated subsidies and relative shares of local transit subsidies. Capital costs shall
656 include 20 percent of annual local bus capital expenses. Hold harmless protections and obligations for
657 NVTC's jurisdictions agreed to by NVTC on November 5, 1998, shall remain in effect.

658 Appropriations from the Commonwealth Mass Transit Fund are intended to provide a stable and
659 reliable source of revenue as defined by Public Law 96-184.

660 6. Notwithstanding any other provision of law, funds allocated to Metro may be disbursed by the
661 Department of Rail and Public Transportation directly to Metro or to any other transportation entity that
662 has an agreement to provide funding to Metro.

663 B. The sales and use tax revenue generated by a one percent sales and use tax shall be distributed
664 among the counties and cities of the Commonwealth in the manner provided in subsections C and D.

665 C. The localities' share of the net revenue distributable under this section among the counties and
666 cities shall be apportioned by the Comptroller and distributed among them by warrants of the

667 Comptroller drawn on the Treasurer of Virginia as soon as practicable after the close of each month
668 during which the net revenue was received into the state treasury. The distribution of the localities' share
669 of such net revenue shall be computed with respect to the net revenue received into the state treasury
670 during each month, and such distribution shall be made as soon as practicable after the close of each
671 such month.

672 D. The net revenue so distributable among the counties and cities shall be apportioned and
673 distributed upon the basis of the latest yearly estimate of the population of cities and counties ages five
674 to 19, provided by the Weldon Cooper Center for Public Service of the University of Virginia. Such
675 population estimate produced by the Weldon Cooper Center for Public Service of the University of
676 Virginia shall account for persons who are domiciled in orphanages or charitable institutions or who are
677 dependents living on any federal military or naval reservation or other federal property within the school
678 division in which the institutions or federal military or naval reservation or other federal property is
679 located. Such population estimate produced by the Weldon Cooper Center for Public Service of the
680 University of Virginia shall account for members of the military services who are under 20 years of age
681 within the school division in which the parents or guardians of such persons legally reside. Such
682 population estimate produced by the Weldon Cooper Center for Public Service of the University of
683 Virginia shall account for individuals receiving services in state hospitals, state training centers, or

692 appropriated to the several counties and cities for maintenance, operation, capital outlays, debt and
693 interest payments, or other expenses incurred in the operation of the public schools, which shall be
694 considered as funds raised from local resources. In any county, however, wherein is situated any
695 incorporated town constituting a school division, the county treasurer shall pay into the town treasury for
696 maintenance, operation, capital outlays, debt and interest payments, or other expenses incurred in the
697 operation of the public schools, the proper proportionate amount received by him in the ratio that the

701 Service, such increase shall, for the purposes of this section, be added to the school population of such
702 city or town as shown by the last such estimate and a proper reduction made in the school population of
703 the county or counties from which the annexed territory was acquired.

726 net revenue generated (and collected in the succeeding month) from such one-half percent increase for
727 the month of August 2004 and for each month thereafter.

746 subsection shall be computed as an estimate of the net revenue to be received into the state treasury
747 each month, and such estimated payment shall be adjusted for the actual net revenue received in the
748 preceding month. All payments shall be made to the Fund on the last day of each month.

761 appropriate funds on the last day of each month.
