For taxable years beginning on or after January 1, 2013, if the eligible worker retraining consists of courses conducted at a private school, the credit shall be in an amount equal to the cost per qualified employee, but the amount of the credit shall not exceed \$200 per qualified employee annually, or \$300 per qualified employee annually if the eligible worker retraining includes retraining in a STEM or STEAM discipline including but not limited to industry-recognized credentials, certificates, and certifications. 75 **§ 58.1-439.12:07. Telework expenses tax credit.**

76 A. As used in this section, unless the context requires a different meaning:

77 "Eligible telework expenses" means expenses incurred during the taxable year pursuant to a telework
 78 agreement, in an amount up to \$1,200 for each participating employee, that enable a participating
 79 employee to begin to telework, which expenses are not otherwise the subject of a deduction from
 80 income claimed by the employer in any tax year. Such expenses include, but are not limited to,
 81 expenses paid or incurred to purchase computers, computer-related hardware and software, modems, data
 82 processing equipment, telecommunications equipment, high-speed Internet connectivity equipment,
 83 computer security software and devices, and all related delivery, installation, and maintenance fees. Such
 84 expenses do not include replacement costs for computers, computer-related hardware and software,
 85 modems, data processing equipment, telecommunications equipment, or computer security software and
 86 devices at the principal place of business when that equipment is relocated to the telework site. Eligible
 87 telework expenses may also include up to a maximum of \$20,000 for conducting a telework assessment
 88 on or after January 1, 2012. Such costs shall be ineligible for this credit if they are otherwise taken as a
 89 deduction by the employer from income in any taxable year. The costs included and allowed to be taken
 90 as a credit include program planning costs, which may include direct program development and training
 91 costs, raw labor costs, and professional consulting fees. Such costs shall not include those for which a
 92 credit is claimed under any other provision of this chapter. The credit for conducting a telework
 93 assessment shall be allowed once for each employer meeting the requirements herein.

94 "Employer" means any employer subject to the income tax imposed by this chapter.

95 "Participating employee" means an employee who has entered into a telework agreement with his
 96 employer on or after July 1, 2012, in accordance with policies set by the Virginia Department of Rail
 97 and Public Transportation. The term shall not include an individual who is self-employed or an
 98 individual who ordinarily spends a majority of the workday at a location other than the place where his
 99 duties are normally performed.

100 "Telework" means the performance of normal and regular work functions on a workday at a location
 101 different from the place where work functions are normally performed and that is within or closer to the
 102 participating employee's residence. The term shall not include home-based businesses, extensions of the
 103 workday, or work performed on a weekend or holiday.

104 "Telework agreement" means an agreement signed by the employer and the participating employee,
 105 on or after July 1, 2012, but before January 1, 2017 2022, that defines the terms of a telework
 106 arrangement, including the number of days per month the participating employee will telework in order
 107 to qualify for the credit, and any restrictions on the location from which the employee will telework.

108 "Telework assessment" means an optional assessment leading to the development of policies and
 109 procedures necessary to implement a formal telework program that would qualify the employer for the
 110 credit provided in this section, including but not limited to a workforce profile; a telework program
 111 business case and plan; a detailed accounting of the purpose, goals, and operating procedures of the
 112 telework program; methodologies for measuring telework program activities and success; and a
 113 deployment schedule for increasing telework activity.

114 B. For taxable years beginning on or after January 1, 2012, but before January 1, 2017 2022, an
 115 employer shall be allowed a credit against the taxes imposed pursuant to Articles 2 (§ 58.1-320 et seq.)
 116 and 10 (§ 58.1-400 et seq.) of this chapter for eligible telework expenses incurred during the calendar
 117 year that ends during the taxable year. The amount of the credit shall not exceed \$50,000 per employer

for each calendar year.

Such expenses may be incurred (i) only once per participating employee and (ii) directly by the employer on behalf of the participating employee or directly by the participating employee and reimbursed by the employer.

C. For purposes of this section, the amount of any credit attributable to a partnership, electing small business corporation (S corporation), or limited liability company shall be allocated to the individual partners, shareholders, or members, respectively, in proportion to their ownership or interest in such business entities.

D. The amount of tax credits available to any employer under this section in any taxable year shall not exceed the employer's tax liability. No unused tax credit shall be carried forward or carried back against the employer's tax liability. An employer shall be ineligible for a tax credit pursuant to this section if such employer claims a credit based on the jobs, wages, or other expenses for the same employee under any other provision of this chapter.

E. An employer seeking to claim a tax credit provided herein shall submit a reservation application to the Tax Commissioner for tentative approval of the credit between September 1 and October 31 of the year preceding the calendar year in which the eligible telework expenses will be incurred. The Tax Commissioner shall establish policies and procedures for the reservation of tax credits by eligible employers. Such policies and procedures shall provide (i) requirements for applying for reservations of tax credits; (ii) a system for allocating the available amount of tax credits among eligible employers; and (iii) a procedure for the cancellation and reallocation of tax credit reservations allocated to eligible employers that, after reserving tax credits, have been determined to be ineligible for all or a portion of the tax credits reserved. Such application shall certify that the employer would not have incurred the eligible telework expenses for which the credit is sought but for the availability of such credit. The Tax Commissioner shall provide tentative approval of the applications no later than December 31 of the year in which the applications are received. When the application and amount of tax credits have been approved and the employer applicant notified, such employer may make purchases approved for the tax credits during the immediately following taxable year or lose the right to such credits.

F. In no event shall the aggregate amount of tax credits approved by the Tax Commissioner exceed \$1 million annually. In the event the credit amounts on the applications filed with the Tax Commissioner exceed the maximum aggregate amount of tax credits, then the tax credits shall be allocated on a pro rata basis based on the amounts allowed by subsection B among the eligible employers who filed timely applications.

G. Actions of the Tax Commissioner relating to the approval or denial of applications for reservations of tax credits pursuant to this section shall be exempt from the provisions of the Administrative Process Act (§ 2.2-4000 et seq.).
