5. Summary/Purpose:

This bill would prohibit a taxpayer from claiming more than \$5 million in Historic Rehabilitation Tax Credits for a taxable year. Taxpayers with credit amounts in excess of \$5 million would be able to carry forward the excess and claim the credit in future taxable years within the credit's current ten-year carryover period or until the full credit is used, whichever occurs first.

This bill would be effective for taxable years beginning on or after January 1, 2017.

6. **Budget amendment necessary:** No.
7. **No Fiscal Impact.** (See Line 8.)
8. **Fiscal implications:**

Administrative Costs

The Department of Taxation ("the Department") and the Department of Historic Resources consider implementation of this bill as routine, and do not require additional funding.

Revenue Impact

This bill would have a positive General Fund revenue impact of \$9.9 million in Fiscal Year 2018 and each fiscal year thereafter. No budget amendment is needed because the General Fund revenue impact is assumed in the Introduced Executive Budget. However, if this provision is not enacted, the budget would need to be adjusted to reduce the revenue estimate by \$9.9 million in Fiscal Year 2018.

Federal Historic Preservation Tax Credit

Under federal law, an investment tax credit is allowed to taxpayers for the rehabilitation of historic income-producing properties. The federal credit is equal to 20 percent of the cost of rehabilitating or preserving commercial, agricultural, industrial, or rental residential buildings that are certified as historic. The Historic Preservation Tax Credit is intended to reward private investors for investing in rehabilitating historic properties, such as abandoned or under-used schools, warehouses, factories, churches, retail stores, apartments, hotels, houses, and offices.

Virginia Historic Rehabilitation Tax Credit

Under Virginia law, a taxpayer with eligible expenses in the rehabilitation of a certified historic structure is entitled to claim a tax credit. The credit is equal to 25 percent of rehabilitation expenses for projects completed in 2000 and thereafter. To qualify for the tax credit, the cost of the rehabilitation must equal to at least 50 percent (or 25 percent if the building is owner occupied) of the assessed value of the building for local real estate tax purposes prior to the rehabilitation. The rehabilitation work must be certified by the Department of Historic Resources ("DHR") and be consistent with the Secretary of the Interior's standards for rehabilitation. The allowable tax credit may not exceed a taxpayer's tax liability. Any unused credits may be carried forward for up to ten years. Currently, there is no per project limitation or state-wide annual cap on the amount of tax credits that may be issued or claimed.

As originally enacted in 1996 by House Bill 1453 (1996 *Acts of Assembly*, Chapter 289), the credit could only be claimed against individual, fiduciary, and corporate income taxes. Pursuant to House Bill 454 (1998 *Acts of Assembly*, Chapter 371), the credit was expanded in 1998 to apply against the bank franchise tax, the insurance premium license tax, and the tax on public service corporations. Since Fiscal Year 2008, the amounts of Historic Rehabilitation Tax Credits claimed against each tax are as follows:

Fiscal Year	Income Tax	Bank Franchise Tax	Insurance Premiums License Tax	Total
2008	\$39.81 million	\$0.13 million	\$41.42 million	\$81.36 million
2009	\$62.77 million	\$0.15 million	\$45.25 million	\$108.17 million
2010	\$64.62 million	\$1.18 million	\$48.93 million	\$114.72 million
2011	\$46.80 million	\$1.53 million	\$34.84 million	\$83.17 million
2012	\$59.22 million	\$4.96 million	\$30.33 million	\$94.50 million
2013	\$23.53 million	\$1.66 million	\$42.38 million	\$67.57 million
2014	\$27.10 million	\$0.48 million	\$43.27 million	\$70.86 million
2015	\$43.80 million	\$2.77 million	\$51.42 million	\$98.00 million
2016 (preliminary)	\$47.98 million	\$4.66 million	\$45.43 million	\$98.07 million

Proposed Legislation

This bill would prohibit a taxpayer from claiming more than \$5 million in Historic Rehabilitation Tax Credits for a taxable year. Taxpayers with credit amounts in excess of \$5 million would be able to carry forward the excess and claim the credit in future taxable years within the credit's current ten-year carryover period or until the full credit is used, whichever occurs first. This bill would not impose a per project limitation or a state-wide annual cap on the amount of tax credits that may be issued or claimed.

This bill would be effective for taxable years beginning on or after January 1, 2017.
