## **2018 SESSION**

18106818D

## HOUSE BILL NO. 443

FLOOR AMENDMENT IN THE NATURE OF A SUBSTITUTE

(Proposed by Delegate Carroll Foy on February 6, 2018)

(Patron Prior to Substitute—Delegate Carroll Foy)

- 5 6 A BILL to amend and reenact § 22.1-253.13:4 of the Code of Virginia, relating to high school 7 graduation requirements; substitution of computer coding credit for foreign language credit. 8 Be it enacted by the General Assembly of Virginia:
  - 1. That § 22.1-253.13:4 of the Code of Virginia is amended and reenacted as follows:

§ 22.1-253.13:4. Standard 4. Student achievement and graduation requirements.

11 A. Each local school board shall award diplomas to all secondary school students, including students who transfer from nonpublic schools or from home instruction, who meet the requirements prescribed by 12 the Board of Education and meet such other requirements as may be prescribed by the local school 13 board and approved by the Board of Education. Provisions shall be made to facilitate the transfer and 14 15 appropriate grade placement of students from other public secondary schools, from nonpublic schools, or from home instruction as outlined in the standards for accreditation. The standards for accreditation shall 16 17 include provisions relating to the completion of graduation requirements through Virtual Virginia. Further, reasonable accommodation to meet the requirements for diplomas shall be provided for 18 19 otherwise qualified students with disabilities as needed.

20 In addition, each local school board may devise, vis-a-vis the award of diplomas to secondary school 21 students, a mechanism for calculating class rankings that takes into consideration whether the student has 22 taken a required class more than one time and has had any prior earned grade for such required class 23 expunged.

24 Each local school board shall notify the parents of rising eleventh and twelfth grade students of (i) 25 the requirements for graduation pursuant to the standards for accreditation and (ii) the requirements that have yet to be completed by the individual student. 26

B. Students identified as disabled who complete the requirements of their individualized education 27 28 programs and meet certain requirements prescribed by the Board pursuant to regulations but do not meet 29 the requirements for any named diploma shall be awarded Applied Studies diplomas by local school 30 boards.

Each local school board shall notify the parent of such students with disabilities who have an 31 32 individualized education program and who fail to meet the graduation requirements of the student's right 33 to a free and appropriate education to age 21, inclusive, pursuant to Article 2 (§ 22.1-213 et seq.) of 34 Chapter 13.

35 C. Students who have completed a prescribed course of study as defined by the local school board 36 shall be awarded certificates of program completion by local school boards if they are not eligible to 37 receive a Board of Education-approved diploma.

38 Each local school board shall provide notification of the right to a free public education for students 39 who have not reached 20 years of age on or before August 1 of the school year, pursuant to Chapter 1 40 (§ 22.1-1 et seq.), to the parent of students who fail to graduate or who have failed to achieve 41 graduation requirements as provided in the standards for accreditation. If such student who does not graduate or complete such requirements is a student for whom English is a second language, the local 42 school board shall notify the parent of the student's opportunity for a free public education in accordance 43 44 with § 22.1-5.

45 D. (From Acts 2016, cc. 720 & 750: The graduation requirements established by the Board of Education pursuant to the provisions of subdivisions D 1, 2, and 3 shall apply to each student who 46 enrolls in high school as (i) a freshman after July 1, 2018; (ii) a sophomore after July 1, 2019; (iii) a junior after July 1, 2020; or (iv) a senior after July 1, 2021) In establishing graduation requirements, the 47 **48** 49 Board shall:

50 1. Develop and implement, in consultation with stakeholders representing elementary and secondary 51 education, higher education, and business and industry in the Commonwealth and including parents, policymakers, and community leaders in the Commonwealth, a Profile of a Virginia Graduate that 52 53 identifies the knowledge and skills that students should attain during high school in order to be 54 successful contributors to the economy of the Commonwealth, giving due consideration to critical 55 thinking, creative thinking, collaboration, communication, and citizenship. 56

2. Emphasize the development of core skill sets in the early years of high school.

57 3. Establish multiple paths toward college and career readiness for students to follow in the later years of high school. Each such pathway shall include opportunities for internships, externships, and 58 59 credentialing.

60 4. Provide for the selection of integrated learning courses meeting the Standards of Learning and 61 approved by the Board to satisfy graduation requirements, which shall include Standards of Learning 62 testing, as necessary.

63 5. Require students to complete at least one course in fine or performing arts or career and technical 64 education, one course in United States and Virginia history, and two sequential elective courses chosen 65 from a concentration of courses selected from a variety of options that may be planned to ensure the 66 completion of a focused sequence of elective courses that provides a foundation for further education or training or preparation for employment. 67

68 6. Require that students either (i) complete an Advanced Placement, honors, or International Baccalaureate course or (ii) earn a career and technical education credential that has been approved by 69 70 the Board, except when a career and technical education credential in a particular subject area is not readily available or appropriate or does not adequately measure student competency, in which case the 71 72 student shall receive satisfactory competency-based instruction in the subject area to earn credit. The career and technical education credential, when required, could include the successful completion of an 73 74 industry certification, a state licensure examination, a national occupational competency assessment, the 75 Armed Services Vocational Aptitude Battery, or the Virginia workplace readiness skills assessment.

76 7. Beginning with first-time ninth grade students in the 2016-2017 school year, require students to be trained in emergency first aid, cardiopulmonary resuscitation, and the use of automated external 77 78 defibrillators, including hands-on practice of the skills necessary to perform cardiopulmonary 79 resuscitation. 80

8. Make provision in its regulations for students with disabilities to earn a diploma.

81 9. Require students to complete one virtual course, which may be a noncredit-bearing course.

82 10. Provide that students who complete elective classes into which the Standards of Learning for any 83 required course have been integrated and achieve a passing score on the relevant Standards of Learning 84 test for the relevant required course receive credit for such elective class.

85 11. Establish a procedure to facilitate the acceleration of students that allows qualified students, with 86 the recommendation of the division superintendent, without completing the 140-hour class, to obtain 87 credit for such class upon demonstrating mastery of the course content and objectives and receiving a 88 passing score on the relevant Standards of Learning assessment. Nothing in this section shall preclude 89 relevant school division personnel from enforcing compulsory attendance in public schools.

90 12. Provide for the award of credit for passing scores on industry certifications, state licensure 91 examinations, and national occupational competency assessments approved by the Board of Education.

92 School boards shall report annually to the Board of Education the number of Board-approved 93 industry certifications obtained, state licensure examinations passed, national occupational competency assessments passed, Armed Services Vocational Aptitude Battery assessments passed, and Virginia workplace readiness skills assessments passed, and the number of career and technical education 94 95 96 completers who graduated. These numbers shall be reported as separate categories on the School 97 Performance Report Card.

98 For the purposes of this subdivision, "career and technical education completer" means a student who 99 has met the requirements for a career and technical concentration or specialization and all requirements 100 for high school graduation or an approved alternative education program.

In addition, the Board may: 101

a. For the purpose of awarding credit, approve the use of additional or substitute tests for the 102 103 correlated Standards of Learning assessment, such as academic achievement tests, industry certifications 104 or state licensure examinations; and

105 b. Permit students completing career and technical education programs designed to enable such 106 students to pass such industry certification examinations or state licensure examinations to be awarded, 107 upon obtaining satisfactory scores on such industry certification or licensure examinations, appropriate 108 credit for one or more career and technical education classes into which relevant Standards of Learning 109 for various classes taught at the same level have been integrated. Such industry certification and state licensure examinations may cover relevant Standards of Learning for various required classes and may, 110 111 at the discretion of the Board, address some Standards of Learning for several required classes.

112 13. Provide for the waiver of certain graduation requirements (i) upon the Board's initiative or (ii) at the request of a local school board. Such waivers shall be granted only for good cause and shall be 113 114 considered on a case-by-case basis.

115 14. Consider all computer science course credits earned by students to be science course credits, 116 mathematics course credits, or career and technical education credits. The Board of Education shall 117 develop guidelines addressing how computer science courses can satisfy graduation requirements.

118 15. Permit local school divisions to waive the requirement for students to receive 140 clock hours of instruction upon providing the Board with satisfactory proof, based on Board guidelines, that the 119 120 students for whom such requirements are waived have learned the content and skills included in the relevant Standards of Learning. 121

122 16. Provide for the award of verified units of credit for a satisfactory score, as determined by the
 123 Board, on the Preliminary ACT (PreACT) or Preliminary SAT/National Merit Scholarship Qualifying
 124 Test (PSAT/NMSQT) examination.

125 17. Provide for the substitution of computer coding course credit for any foreign language course
126 credit required to graduate with a standard or advanced diploma for children with disabilities, as that
127 term is defined in § 22.1-213.

128 18. Permit any English language learner who previously earned a sufficient score on an Advanced
129 Placement or International Baccalaureate foreign language examination to substitute computer coding
130 course credit for any foreign language course credit required to graduate, except in cases in which such
131 foreign language course credit is required to earn an advanced diploma offered by a nationally
132 recognized provider of college-level courses.

E. In the exercise of its authority to recognize exemplary performance by providing for diploma seals:

135 1. The Board shall develop criteria for recognizing exemplary performance in career and technical
 136 education programs by students who have completed the requirements for a Board of
 137 Education-approved diploma and shall award seals on the diplomas of students meeting such criteria.

138 2. The Board shall establish criteria for awarding a diploma seal for advanced mathematics and
139 technology for the Board of Education-approved diplomas. The Board shall consider including criteria
140 for (i) technology courses; (ii) technical writing, reading, and oral communication skills; (iii)
141 technology-related training; and (iv) industry, professional, and trade association national certifications.

142 3. The Board shall establish criteria for awarding a diploma seal for excellence in civics education 143 and understanding of our state and federal constitutions and the democratic model of government for the 144 Board of Education-approved diplomas. The Board shall consider including criteria for (i) successful 145 completion of history, government, and civics courses, including courses that incorporate character 146 education; (ii) voluntary participation in community service or extracurricular activities that includes the 147 types of activities that shall qualify as community service and the number of hours required; and (iii) 148 related requirements as it deems appropriate.

149 4. The Board shall establish criteria for awarding a diploma seal of biliteracy to any student who 150 demonstrates proficiency in English and at least one other language for the Board of Education-approved 151 diplomas. The Board shall consider criteria including the student's (i) score on a College Board 152 Advanced Placement foreign language examination, (ii) score on an SAT II Subject Test in a foreign 153 language, (iii) proficiency level on an ACTFL Assessment of Performance toward Proficiency in 154 Languages (AAPPL) measure or another nationally or internationally recognized language proficiency 155 test, or (iv) cumulative grade point average in a sequence of foreign language courses approved by the 156 Board.

157 F. The Board shall establish, by regulation, requirements for the award of a general achievement 158 adult high school diploma for those persons who are not subject to the compulsory school attendance 159 requirements of § 22.1-254 and have (i) achieved a passing score on a high school equivalency 160 examination approved by the Board of Education; (ii) successfully completed an education and training program designated by the Board of Education; (iii) earned a Board of Education-approved career and 161 162 technical education credential such as the successful completion of an industry certification, a state licensure examination, a national occupational competency assessment, the Armed Services Vocational 163 164 Aptitude Battery, or the Virginia workplace readiness skills assessment; and (iv) satisfied other 165 requirements as may be established by the Board for the award of such diploma.

166 G. To ensure the uniform assessment of high school graduation rates, the Board shall collect,167 analyze, report, and make available to the public high school graduation and dropout data using a168 formula prescribed by the Board.

H. The Board shall also collect, analyze, report, and make available to the public high school graduation and dropout data using a formula that excludes any student who fails to graduate because such student is in the custody of the Department of Corrections, the Department of Juvenile Justice, or local law enforcement. For the purposes of the Standards of Accreditation, the Board shall use the graduation rate required by this subsection.

174 I. The Board may promulgate such regulations as may be necessary and appropriate for the 175 collection, analysis, and reporting of such data required by subsections G and H.
