The Office of the Chief Medical Examiner may develop a model protocol for the development and implementation of local or regional overdose fatality review teams, and such model protocol may include relevant procedures for conducting reviews of overdose fatalities.

C. Local and regional teams may be composed of the following persons from the localities represented on a particular board or their designees: a medical examiner appointed pursuant to § 32.1-282, a local social services official, a director of the relevant local or district health department, a chief law-enforcement officer, an attorney for the Commonwealth, an executive director of the local community services board or other local mental health agency, a local judge, the local school division superintendent, a representative of a local jail or detention center, and such additional persons as may be appointed to serve by the chair of the local or regional team. The chair shall be elected from among the designated membership. The additional members appointed by the chair may include representatives of local human services agencies, local health care professionals who specialize in the prevention and treatment of substance abuse disorders, local emergency medical services personnel, a representative of a hospital, experts in forensic medicine and pathology, local funeral services providers, and representatives of the local bar.

E. All information and records obtained or created regarding a review of a fatality shall be confidential and shall be excluded from the Virginia Freedom of Information Act (§ 2.2-3700 et seq.) pursuant to subdivision 7 of § 2.2-3705.5. All such information and records shall be used by the team only in the exercise of its proper purpose and function and shall not be disclosed. Such information and records shall not be subject to subpoena, subpoena duces tecum, discovery, or introduction into evidence when obtained through such other sources solely because the information and records were presented to the team during the fatality review. No person who participated in the review and no member of the team shall be required to make any statement as to what transpired during the review or what information was collected during the review. Upon the conclusion of the fatality review, all information and records concerning the victim and family shall be returned to the originating agency or destroyed. However, the findings of the team may be disclosed or published in statistical or other form that does not identify any individuals. The portions of meetings in which individual cases are discussed by the team shall be closed pursuant to subdivision A 21 of § 2.2-3711. All team members, persons attending closed team meetings, and persons presenting information and records on specific fatalities to the team during closed meetings shall execute a sworn statement to honor the confidentiality of the information, records, discussions, and opinions disclosed during any closed meeting to review a specific death. A violation of this subsection is punishable as a Class 3 misdemeanor.

F. Members of teams, as well as their agents and employees, shall be immune from civil liability for any act or omission made in connection with participation in an overdose fatality review team review, unless such act or omission was the result of gross negligence or willful misconduct. Any organization, institution, or person furnishing information, data, testimony, reports, or records to overdose fatality review teams as part of such review shall be immune from civil liability for any act or omission in furnishing such information, unless such act or omission was the result of gross negligence or willful
