

18104541D

SENATE BILL NO. 429

Offered January 10, 2018

Prefiled January 9, 2018

A *BILL to amend the Code of Virginia by adding a section numbered 15.2-2288.7, relating to local regulation of solar facilities.*

Patrons—Stanley, Wexton, Ebbin and Mason

Referred to Committee on General Laws and Technology

Be it enacted by the General Assembly of Virginia:

1. That the Code of Virginia is amended by adding a section numbered 15.2-2288.7 as follows:

§ 15.2-2288.7. Local regulation of solar facilities.

A. An owner of a residential dwelling unit may install a solar facility on the roof of such dwelling to serve the electricity or thermal needs of that dwelling, provided that such installation is (i) in compliance with any height and setback requirements in the zoning district where such property is located and (ii) in compliance with any provisions pertaining to any local historic district adopted pursuant to § 15.2-2306 where such property is located. Unless a local ordinance provides otherwise, a ground-mounted solar energy generation facility to be located on property zoned residential shall be permitted, provided that such installation is (a) in compliance with any height and setback requirements in the zoning district where such property is located and (b) in compliance with any provisions pertaining to any local historic district adopted pursuant to § 15.2-2306 where such property is located. Except as provided herein, any other solar facility proposed on property zoned residential, including any solar facility that is designed to serve, or serves, the electricity or thermal needs of any property other than the property where such facilities are located, shall be subject to any applicable zoning regulations of the locality.

B. An owner of real property zoned agricultural may install a solar facility on the roof of a residential dwelling on such property, or on the roof of another building or structure on such property, to serve the electricity or thermal needs of that property upon which such facilities are located, provided that such installation is (i) in compliance with any height and setback requirements in the zoning district where such property is located and (ii) in compliance with any provisions pertaining to any local historic district adopted pursuant to § 15.2-2306 where such property is located. Unless a local ordinance provides otherwise, a ground-mounted solar energy generation facility to be located on property zoned agricultural and to be operated under § 56-594 or 56-594.2 shall be permitted, provided that such installation is (a) in compliance with any height and setback requirements in the zoning district where such property is located and (b) in compliance with any provisions pertaining to any local historic district adopted pursuant to § 15.2-2306 where such property is located. Except as otherwise provided herein, any other solar facility proposed on property zoned agricultural, including any solar facility that is designed to serve, or serves, the electricity or thermal needs of any property other than the property where such facilities are located, shall be subject to any applicable zoning regulations of the locality.

C. An owner of real property zoned commercial, industrial, or institutional may install a solar facility on the roof of one or more buildings located on such property to serve the electricity or thermal needs of that property upon which such facilities are located, provided that such installation is (i) in compliance with any height and setback requirements in the zoning district where such property is located and (ii) in compliance with any provisions pertaining to any local historic district adopted pursuant to § 15.2-2306 where such property is located. Unless a local ordinance provides otherwise, a ground-mounted solar energy generation facility to be located on property zoned commercial, industrial, or institutional shall be permitted, provided that such installation is (a) in compliance with any height and setback requirements in the zoning district where such property is located and (b) in compliance with any provisions pertaining to any local historic district adopted pursuant to § 15.2-2306 where such property is located. Except as otherwise provided herein, any other solar facility proposed on property zoned commercial, industrial, or institutional, including any solar facility that is designed to serve, or serves, the electricity or thermal needs of any property other than the property where such facilities are located, shall be subject to any applicable zoning regulations of the locality.

D. An owner of real property zoned mixed-use may install a solar facility on the roof of one or more buildings located on such property to serve the electricity or thermal needs of that property upon which such facilities are located, provided that such installation is (i) in compliance with any height and setback requirements in the zoning district where such property is located and (ii) in compliance with

INTRODUCED

SB429

59 any provisions pertaining to any local historic district adopted pursuant to § 15.2-2306 where such
60 property is located. Unless a local ordinance provides otherwise, a ground-mounted solar energy
61 generation facility to be located on property zoned mixed-use shall be permitted, provided that such
62 installation is (a) in compliance with any height and setback requirements in the zoning district where
63 such property is located and (b) in compliance with any provisions pertaining to any local historic
64 district adopted pursuant to § 15.2-2306 where such property is located. Except as provided herein, any
65 other solar facility proposed on property zoned mixed-use, including any solar facility that is designed
66 to serve, or serves, the electricity or thermal needs of any property other than the property where such
67 facilities are located, shall be subject to any applicable zoning regulations of the locality.

68 E. Nothing in this section shall be construed to supersede or limit contracts or agreements between
69 or among individuals or private entities related to the use of real property, including recorded
70 declarations and covenants, the provisions of condominium instruments of a condominium created
71 pursuant to the Condominium Act (§ 55-79.39 et seq.), the declaration of a common interest community
72 as defined in § 55-528, the cooperative instruments of a cooperative created pursuant to the Virginia
73 Real Estate Cooperative Act (§ 55-424 et seq.), or any declaration of a property owners' association
74 created pursuant to the Property Owners' Association Act (§ 55-508 et seq.).

75 F. A locality, by ordinance, may provide by-right authority for installation of solar facilities in any
76 zoning classification in addition to that provided in this section. A locality may also, by ordinance,
77 require a property owner or the applicant for a permit pursuant to Chapter 6 (§ 36-97 et seq.) of Title
78 36 who removes solar panels to dispose of such panels in accordance with such ordinance in addition
79 to other applicable laws and regulations affecting such disposal.
