Summary of Proposed Legislation:

The proposal amends § 54.1-3446 of the *Code of Virginia* to add numerous chemical compounds to the list of Schedule I controlled substances.

In 2014, the General Assembly enacted legislation giving the Board of Pharmacy authority to amend its regulations to add substances to Schedule I or II of the Drug Control Act via an expedited regulatory process. Pursuant to § 54.1-3443, the Board must notify the General Assembly's House and Senate Courts of Justice Committees of any new compounds added to the list of Schedule I or II controlled substances. The scheduling of new compounds adopted by the Board of Pharmacy via this process remains in effect for a period of 18 months, after which the compounds will be de-scheduled unless the Drug Control Act is amended by legislation passed by the General Assembly.

Analysis:

The proposal adds numerous chemical compounds to § 54.1-3446, including compounds chemically related to benzodiazepines and opioid derivatives chemically similar to Fentanyl.

Impact of Proposed Legislation:

State adult correctional facilities. Because the Board of Pharmacy has already added the compounds specified in the proposal to Schedule I of the Drug Control Act, the proposed legislation is not expected to

have any additional impact on the state-responsible (prison) bed space needs of the Commonwealth if enacted.

Local adult correctional facilities. Similarly, the proposed legislation will not have any additional impact on local-responsible (jail) bed space needs.

Adult community corrections programs. The proposal will not affect adult community corrections programs.

Virginia's sentencing guidelines. No adjustment to the guidelines would be necessary under the proposal.

Juvenile direct care. According to the Department of Juvenile Justice (DJJ), the impact of the proposal on direct care (juvenile correctional center or alternative commitment placement) bed space needs cannot be determined.

Juvenile detention facilities. The Department of Juvenile Justice reports that the proposal's impact on the bed space needs of juvenile detention facilities cannot be determined.

Pursuant to § 30-19.1:4, the estimated amount of the necessary appropriation is \$0 for periods of imprisonment in state adult correctional facilities and cannot be determined for periods of commitment to the custody of the Department of Juvenile Justice.
