### Generally

Real and personal property taxes are collected in localities by each county, city or town treasurer, whose primary task is to receive the revenues, levies and other amounts payable into the treasury of the locality in which he is elected, and to disburse moneys in accordance with state law.

State law authorizes county treasurers and the treasurer of any town located within that county to enter into reciprocal agreements, authorizing the town treasurer to collect real and personal property taxes owed to the county, and the county treasurer to collect real and personal property taxes owed to the town. Each treasurer collecting taxes under the agreement is required to account for and pay over whatever amount is owed to the other locality.

### Proposal

This bill would permit the Loudoun County Board of Supervisors to authorize the Treasurer of Loudoun County to enter into agreements with towns located partially or wholly within Loudoun County for the collection and enforcement of real or personal property taxes by the county treasurer.

The county treasurer collecting town taxes pursuant to an agreement would be required to account for and pay over to the town the amounts collected, as provided by law. The agreement would establish the terms for such collection and enforcement, including payment of reasonable compensation by the town for the services of the county treasurer and the order in which the county treasurer will credit partial payments between taxes owed to the county and those owed to the town.

This bill would not require an agreement by which the town treasurer would collect real and personal property taxes owed to the county.

The effective date of this bill is not specified.
