Under current law, an employee of any such private entity is permitted to use his employee identification card for purposes of voting, provided that the card contains a photograph of the voter; the bill allows a resident or other person who receives services from such private entity to use a valid identification card issued by the private entity for purposes of voting, provided that the card contains a photograph of the voter.

6. Budget Amendment Necessary: No.

7. Fiscal Impact Estimates: Preliminary – see Item 8.

8. Fiscal Implications: According to the Department of Elections (ELECT), the agency will have to update and re-print its outreach materials to include the new acceptable forms of identification, which will result in a one-time fiscal impact of \$4,279 in fiscal year 2019. The estimated cost to revise the outreach materials to include the new acceptable forms of identification is \$2,008. The estimated printing cost is \$2,271, which will provide 50,000 updated brochures to all localities.

As stand-alone legislation, ELECT considers implementation of this bill as “routine”. The agency will review all electoral legislation likely to be enacted prior to the passage by each house. If the aggregate number of “routine” bills likely to pass either house is unusually large, it is possible the agency will require additional resources. If so, ELECT will identify the costs at that time.
