

## State Corporation Commission 2018 Fiscal Impact Statement

**1. Bill Number:** SB191

<b>House of Origin</b>	<input type="checkbox"/> Introduced	<input checked="" type="checkbox"/> Substitute	<input type="checkbox"/> Engrossed
<b>Second House</b>	<input checked="" type="checkbox"/> In Committee	<input type="checkbox"/> Substitute	<input type="checkbox"/> Enrolled

**2. Patron:** Favola

**3. Committee:** Commerce and Labor

**4. Title:** Net energy metering; eligibility limits.

**5. Summary:** Increases the cap on the amount of capacity a renewable electric generating facility in an area served by an investor-owned electric utility may have and remain eligible to participate in the net energy metering program. The measure increases such a facility's capacity from the expected annual energy consumption to 125 percent of that consumption based on billing history. In areas served by electric cooperatives, a facility is ineligible to participate in a net energy metering program if its capacity exceeds expected annual energy consumption. If the building to be served by the generating facility is newly constructed, the expected annual energy consumption is based on annual energy consumption at similar buildings. The measure also provides that net metering periods runs from June 1 through May 30 and provides that excess generation shall be purchased at a wholesale price determined in accordance with regulations of the State Corporation Commission.

**6. Budget Amendment Necessary:** No

**7. Fiscal Impact Estimates:** None on the State Corporation Commission

**8. Fiscal Implications:** None on the State Corporation Commission

**9. Specific Agency or Political Subdivisions Affected:** State Corporation Commission

**10. Technical Amendment Necessary:** No

**11. Other Comments:** This bill has been assigned to House Commerce and Labor Subcommittee # 3.
